H. S. CUNNINGHAM,
Offg. Secy. to the Council of the Govr. Genl. for making Laws and Regulations.

[Third Publication]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 25th April 1872, and is hereby promulgated for general information :—

ACT No. XI OF 1872.

An Act to provide for the trial of offences committed in places beyond British India and for the Extradition of Criminals.

Preamble.

WHEREAS by treaty, capitulation, agreement, grant, usage, sufferance and other lawful means the Governor General of India in Council has power and jurisdiction within divers places beyond the limits of British India; and whereas such power and jurisdiction have from time to time been delegated to Political Agents and others acting under the authority of the Governor General in Council; and whereas doubts have arisen how far the exercise of such power and jurisdiction, and the delegation thereof, are controlled by and dependent on the laws of British India; and whereas it is expedient to remove such doubts, and to consolidate and amend the law relating to the exercise and delegation of such power and jurisdiction, and to offences committed by British subjects beyond the limits of British India, and to the extradition of criminals; It is enacted as follows :—

Short title.

1. This Act may be called "The Foreign Jurisdiction and Extradition Act, 1872":

Extent.

It extends to the whole of British India;

to all Native Indian subjects of Her Majesty without and beyond the Indian territories under the dominion of Her Majesty; and

to all European British subjects within the dominions of Princes and States in India in alliance with Her Majesty;

Commencement.

and it shall come into force on the passing thereof.

Repeal of enactments.

2. The enactments mentioned in the first schedule hereto annexed are repealed to the extent specified in the third column thereof.

"Political Agent" defined.

3. In this Act the expression 'Political Agent' means and includes—

(1) the principal officer representing the British Indian Government in any territory or place beyond the limits of British India;

(2) any officer in British India appointed by the Governor General in Council or the Governor in Council of the Presidency of Fort St. George or Bombay, to exercise all or any of the powers of a Political Agent under this Act for any place not forming part of British India;

"Native State."

'Native State' means,

in reference to Native Indian subjects of Her Majesty, all places without and beyond the Indian territories under the dominion of Her Majesty; and,

in reference to European British subjects, the dominions of Princes and States in India in alliance with Her Majesty.

POWERS OF BRITISH OFFICERS IN PLACES BEYOND BRITISH INDIA.

Exercise of powers of Governor General in places beyond British India, and delegation thereof

4. The Governor General in Council may exercise any power or jurisdiction, which the Governor General in Council now has, or may at any time hereafter have, within any country or place beyond the limits of British India; and may delegate the same, to any servant of the British Indian Government, in such manner and to such extent as to the Governor General in Council from time to time seems fit.

Notification of exercise or delegation of such powers.

5. A notification in the *Gazette of India* of the exercise by the Governor General in Council of any such power or jurisdiction, and of the delegation thereof by him to any person or class of persons, and of the rules of procedure or other conditions to which such persons are to conform, and of the local area within which their powers are to be exercised, shall be conclusive proof in any Court of the truth of the matters stated in the notification.

Appointment, powers and jurisdiction of Justices of the Peace.

6. The Governor General in Council may appoint any European British subject, either by name or by virtue of his office, in any such country or place, to be a Justice of the Peace; and every such Justice of the Peace shall have all the powers conferred on Magistrates of the first class, who are Justices of the Peace and European British subjects, by any law for the time being in force in British India relating to Criminal Procedure. The Governor General in Council may direct to what Court, having jurisdiction over European British subjects, any such Justice of the Peace is to commit for trial.

Confirmation of existing Political Agents and Justices.

7. All Political Agents and all Justices of the Peace, heretofore appointed by the Governor General in Council or the Governor in Council of the Presidency of Fort St. George or Bombay, in any such country or place as aforesaid, shall be deemed to be and to have been appointed, and to have and to have had jurisdiction, under the provisions of this Act.

Extension of criminal law of British India to British subjects in Native States.

8. The law relating to offences and to Criminal Procedure, for the time being in force in British India shall, subject as to Procedure to such modifications as the Governor General in Council from time to time directs, extend to all British subjects, European and Native, in Native States.

INQUIRIES IN BRITISH INDIA INTO CRIMES COMMITTED BY BRITISH SUBJECTS IN PLACES BEYOND BRITISH INDIA.

Liability of British subjects for offences committed in Native States.

9. All British subjects, European and Native, in British India, may be dealt with, in respect of offences committed by them in any Native State, as if such offences had been committed in any place, within British India, in which any such subject may be or may be found:

Provided that no charge as to any such offence shall be inquired into in British India, unless the Political Agent, if there be such, for the territory, in which the offence is said to have been committed, certifies that, in his opinion, the charge is one which ought to be enquired into in British India:

Political Agent to certify fitness of inquiry into charge.

Provided also that any proceedings taken against any person under this section, which would be a bar to subsequent proceedings against such person for the same offence, if such offence had been committed in British India, shall be a bar against further proceedings against him, under this Act, in respect of the same offence in any Native State.

Power to direct copies of depositions and exhibits to be received in evidence

10. Whenever any such offence as is referred to in section nine is being inquired into or tried, the Local Government may, if it thinks fit, direct that copies of depositions made or exhibits produced before the Political Agent or a Judicial Officer in the State, in which such offence is alleged to have been committed, shall be received as evidence by the Court holding such inquiry or trial, in any case in which such Court might issue a commission for taking evidence as to the matters to which such depositions or exhibits relate.

EXTRADITION.

Arrest and removal of persons, other than European British subjects, escaping into British India.

11. When an offence has been committed, or is supposed to have been committed, in any State against the law of such State by a person not being a European British subject, and such person escapes into, or is in British India, the Political Agent for such State may issue a warrant for his arrest and delivery at a place in such State, and to a person to be named in the warrant,

if such Political Agent thinks that the offence is one which ought to be enquired into in such State,

and if the act, said to have been done, would, if done in British India, have constituted an offence against any of the sections of the Indian Penal Code mentioned in the second schedule hereto, or under any other section of the said Code or any other law, which may, from time to time, be specified by the Governor General in Council by a notification in the Gazette.

Direction and execution of warrant.

12. Such warrant may be directed to the Magistrate of any district, in which the accused person is believed to be; and shall be executed in the manner provided by the law for the time being in force with reference to the execution of warrants; and the accused person, when arrested, shall be forwarded to the place and delivered to the officer named in the warrant.

Political Agent may himself dispose of case or make over person to ordinary Courts for trial.

13. Such Political Agent may either dispose of the case himself, or may give over the person so forwarded, whether he be a Native Indian subject of Her Majesty or not, to be tried by the ordinary Courts of the State in which the offence was committed, if he is generally or specially directed to do so by the Governor General in Council, or by the Governors in Council of the Presidency of Fort St. George or Bombay respectively.

Requisitions for extradition by the executive of any part of British dominions, or Foreign power.

14. Whenever a requisition is made to the Governor General in Council or any Local Government by or by the authority of the persons for the time being administering the Executive Government of any part of the dominions of Her Majesty, or the territory of any Foreign Prince or State, that any person accused of having committed an offence in such dominions or territory, should be given up, the Governor General in Council or such Local Government, as the case may be, may issue an order to any Magistrate, who would have had jurisdiction to inquire into the offence, if it had been committed within his local jurisdiction, directing him to inquire into the truth of such accusation.

The Magistrate so directed shall issue a summons or warrant for the arrest of such person, according as the offence named appears to be one for which a summons or warrant would ordinarily issue; and shall inquire into the truth of such accusation; and shall report thereon to the Government by which he was directed to hold the said inquiry. If, upon receipt of such report, such Government is of opinion that the accused person ought to be given up to the persons making such requisition, it may issue a warrant for the custody and removal of such accused person and for his delivery at a place and to a person to be named in the warrant.

The provisions of section ten shall apply to inquiries held under this section.

This section shall not affect the provisions of any law or treaty, for the time being in force, as to the extradition of offenders; but the procedure provided by any such law or treaty shall be followed in every case to which it applies.

Power to make rules.

15. The Governor General in Council may make, and may from time to time alter, rules to provide for—

(1) the confinement, diet and prison discipline of British subjects, European or Native, imprisoned by Political Agents under this Act;

(2) the removal of accused persons under this Act, and their control and maintenance until such time as they are handed over to the persons named in the warrant, as entitled to receive them;

(3) and generally to carryout the purposes of this Act.

[Third Publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 26th Aprill 1872, and is hereby promulgated for general information:—

ACT No. XII OF 1872.

An Act to amend Act XII of 1870 *(the Native Passenger Ships Act).*

Preamble.

WHEREAS it is expedient to amend Act XII of 1870 (the Native Passenger Ships Act); It is hereby enacted as follows:—

Amendment of sec. 2, Act XII of 1870.

1. Instead of section two of the said Act, the following shall be read:

Extent of Act.

"2. This Act extends to British India, and applies also to all subjects of Her Majesty within the dominions of Princes and States in alliance with Her Majesty, and to all Native Indian subjects of Her Majesty without and beyond British India.

Act not to apply to Ships-of-War, &c.

"Nothing in this Act applies to any Ship-of-War or Transport belonging to or in the service of Her Majesty, or to any Ship-of-War belonging to any Foreign Prince or State, or to any ship under contract with the Government of any European State.

"The Local Government may, if it thinks fit, exempt any steamer or class of steamers, carrying not more than sixty passengers, being Natives of Asia or Africa, from the operation of this Act, for any period not exceeding one year.

"Such exemption may be from time to time renewed for any period not exceeding one year."

Amendment of sec. 4.

2. Instead of the last paragraph of section four of the said Act, the following shall be read:

"Native Passenger Ship."

"The words 'Native Passenger Ship' mean a vessel, whether sailing or steam, carrying more than thirty passengers, being Natives of Asia or Africa; provided that no person in attendance upon another person other than a Native of India, shall be deemed a passenger for the purposes of this section."

Addition to section 12.

3. After section twelve of the said Act, the following proviso shall be added:

"Provided that, in the case of Steam Ships, the officer aforesaid may, if under the circumstances of the case he thinks fit, reduce the space,

to be appropriated to passengers in the between-decks under the requirements of this section, to a space containing at the least nine superficial and fifty-four cubical feet of space for every adult passenger on board."

Addition to section 21.

4. After section twenty-one of the said Act, the following proviso shall be added:

"Provided also that, in the case of Steam Ships provided with a condenser, the officer authorized in that behalf may, if under the circumstances of the case he thinks fit, reduce the amount of water to be provided under the requirements of this section to an amount not less than four gallons to every week of the declared duration of the voyage for every passenger on board."

Addition after section 26.

5. After section twenty-six of the said Act, the following shall be read:—

Penalty on Master of Turkish Ship bound from Turkish to Indian port entering latter without clean bill of health in breach of Convention

"26A. Whenever a Convention shall have been entered into between the Government of Her Majesty the Queen and the Turkish Government that every Master of a Native Passenger Ship, leaving a Turkish port or place and bound for any port or place in British India, whether such ship be owned by a subject of Her Majesty or not, shall execute a bond binding him in a penalty to touch at Aden, and not to proceed thence without a clean bill of health, obtained in the manner provided in section twenty-five, any Master of any such ship, whether he be a subject of Her Majesty or not, who shall come into any port or place in British India without such clean bill of health, may be taken by the officer in charge of such port or place before any Magistrate having local jurisdiction, and on proof that such Master has come from a Turkish port or place, such Magistrate shall presume that such bond was duly executed by such Master, and in default of production of such clean bill of health, shall presume that the penalty mentioned in such bond has been incurred; and may award the full amount or any part of such penalty against such Master, and, in default of payment of such penalty, may recover it as though it were a fine imposed under this Act."

Addition after section 38.

6. After section thirty-eight of the said Act, the following section shall be added as section thirty-nine:—

Saving of Act XXV of 1859.

"39. Nothing in this Act shall affect the provisions of Act XXV of 1859 *(to prevent the overcrowding of vessels carrying Native Passengers in the Bay of Bengal)*."

Act to be read as part of Act XII of 1870.

7. This Act shall be read as part of Act XII of 1870.

H. S. CUNNINGHAM,

Offg. Secy. to the Council of the Govr. Genl. for making Laws and Regulations.

[Third Publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 26th April 1872, and is hereby promulgated for general information:—

ACT No. XIII OF 1872.

An Act to amend Act XV of 1859.

Preamble.

WHEREAS, by Act XV of 1859, provision was made for the grant of certain privileges to the inventors of new manufactures; and whereas it is desirable that provision should be made for the grant of similar privileges to the inventors of new patterns and designs in British India; It is hereby enacted as follows:—

Short title.

1. This Act may be called "The Patterns and Designs Protection Act, 1872:"

Extent. Commencement.

It extends to the whole of British India, and shall come into force on the passing thereof.

Addition to section I of Act XV of 1859.

2. At the end of section one of the said Act XV of 1859, the following shall be read:—

'New manufacture' defined.

"For the purposes of this Act, 'New manufacture' shall be deemed to include any new and original pattern or design, or the application of such pattern or design to any substance or article of manufacture."

Addition to section IV of said Act

3. At the end of section IV of the said Act, the following shall be read:—

"Provided that, in the case of a pattern or design or the application thereof to any substance or article of manufacture, such privilege shall be granted for the term of three years and no more."

Addition to Act XV of 1859 after section XXXVII

4. After section XXXVII of the said Act, the following shall be read:—

Persons invested by English law with rights as to patterns and designs to have same rights in British India.

"XXXVIIA. Whenever, by any law for the time being in force in the United Kingdom, any person is entitled in the United Kingdom to an exclusive right in any pattern or design, or in the application of such pattern or design to any substance or article of manufacture, such person shall be entitled in British India to the sole and exclusive right in such pattern or design, or in such application thereof, and shall be entitled in British India to the same civil remedies in respect of any infringement thereof in British India, as those to which he would be entitled in the United Kingdom in respect of an infringement thereof in the United Kingdom."

Act to be read as part of Act XV of 1859.

5. This Act shall be read with and as part of the said Act XV of 1859.

FINANCIAL, No. 82. INDIA OFFICE, *London, 29th February* 1872.

To His Excellency the Right Hon'ble the Governor-General of India in Council.

MY LORD,—I have considered in Council your Financial letter dated 12th January 1872, No. 13, stating that you have seen reason to withdraw the request contained in your Financial letter dated 22nd February 1871, No 28, that Uncovenanted Officers on leave in this country might not be granted extensions of leave which would have the effect of prolonging their absence beyond two years, without the consent of the Government in India to which those officers were subordinate.

2. I shall consequently decide finally on all applications for such extensions when there may not be time to refer to the Governments in India, but shall require them to be supported by a certificate from the Medical Board at this Office, as is the practice in the case of applications for gratuities or pensions on retirement.

No. 3320.—*Fort Willia, the* 10*th May* 1872.—ERRATUM.—In the fifth and sixth paragraphs of the Notification of this Department, No. 2008 dated the 14th March 1872, for "January 1872" substitute "January 1871."

No. 528.—*Fort William, the* 10*th May* 1872.—The following paragraph of a Military letter from the Right Hon'ble the Secretary of State for India, No. 70, dated 4th April 1872, is published for general information :—

PARA. 5.—I have therefore to request that you will republish Clause XV of the Furlough Rules of 1868, in the following terms :—

"If the aggregate of two years' furlough be exceeded, whether on medical certificate or private affairs, the Officer will vacate his appointment, such extension being, in the case of private affairs, without pay, and in that of medical certificate with English furlough pay, for a third year only."

This is in supersession of the ruling in G. G. O. No. 1 of 2nd January 1872, and order books will be corrected accordingly.

H. L. DAMPIER,
Secy. to the Govt. of Bengal.

The 25th April 1872.—Under the provisions of Section 83 of Act V (B.C.) of 1870, (an Act to appoint Commissioners for making Improvements in the Port of Calcutta), the following Bye-laws for landing and shipping in inland wharves, as proposed by the Commissioners, are published for general information.

SECTION 3.

LANDING AND SHIPPING ON INLAND WHARVES.

BYE-LAWS.

Goods not to be landed or shipped until toll has been paid.

1. No goods, liable under Schedule B for payment of toll, on which toll has not been paid, shall be either landed from, or shipped into, boats or vessels using the Inland Vessels' Wharf.

Goods landed or shipped without payment of the toll to be detained.

2. Goods landed from, or shipped into, boats or vessels, without payment of the toll, shall be detained by the Commissioners at the risk and expense of the consignees, until the toll has been paid.

Re-landing or re-shipping.

3. If goods shipped have to be re-landed, or goods landed have to be re-shipped, the tolls must be paid again for such re-landing or re-shipping.

Steam ferries and passenger boats not to take goods unprotected by pass.

4. Persons in charge of steam ferries or passenger boats plying from any public ghât, shall not permit the landing or shipping from or upon their vessels of any goods liable under Schedule B for payment of toll, unless such goods are protected by passes.

Goods not to be stacked on the wharves.

5. Excepting for the purpose of enabling masters of vessels to take measurements or weighments of goods to be shipped on board their vessels, no goods shall be permitted to be stacked on the wharves beyond the time actually necessary to convey them away.

Goods awaiting shipment to be under control.

6. During the time it is actually necessary for goods in course of landing or shipping to remain on the wharves, such goods shall be piled in places assigned for the purpose by the Superintendents of the Wharves, or their subordinates.

Boats not to moor or anchor for purposes of sale or barter.

7. Boats shall not be moored or anchored at the wharves in order that the owners of the goods brought in them may sell or barter.

Empty boats to be in the stream.

8. Empty boats waiting to be hired, or having discharged goods, shall anchor in the stream, at least 150 feet off the wharves.

Timber not to be floated to detriment of the wharves

9. No person shall float timber, rafts, or any obstructive articles, in the stream within 150 feet of the bank, so as to impede the movement of boats and vessels at the Inland Vessels' Wharves.

Commissioners' servants at liberty to board boats or vessels

10. No person shall prevent the Superintendents of the Wharves, or other persons deputed by them, from boarding any boat or vessel within 150 feet of the wharves, for the purpose of examining or ascertaining the quantities of the goods in them, or of detaining them for payment of tolls or other charges, or for giving effect to any of the bye-laws and rules passed by the Commissioners.

Hours for landing and shipping goods

11. The hours for landing and shipping goods at the Inland Vessels' Wharves shall be from 6 A.M. to 6 P.M. on all days, except Sundays and Holidays authorized by the Commissioners; and no business shall be transacted on the wharves during the hours intervening between 6 P.M. and 6 A.M., nor on such Sundays and Holidays, except on payment of overtime or extra fees respectively.

Definition of "market produce."

12. By the term "market produce" shall be meant such perishable commodities as are imported for the bazaars for immediate and daily consumption, but on such vegetables as potatoes, red gourds or pumpkins, and the like, which are imported and stored, the tolls shall be levied.

Challans to be filled up.

13. When goods are to be landed or shipped inward or outward, authenticated challans, showing the descriptions and exact quantities of the goods, shall be tendered to the cashier by applicants for passes. On the data furnished in these challans, the passes will be drawn up and the tolls levied. In the absence of such challans, or where reasonable doubts exist with regard to their genuineness or correctness, the calculation for levying the toll shall be based on the registered tonnage of the boats or vessels from which the goods are to be landed, or on which they are to be shipped.

The attention of the public is invited to section 64 of Act V (B.C.) of 1870, and it is hereby notified that the power to remove vessels from within a limit of fifty yards from ordinary low water mark will be enforced in case of boats causing an obstruction to the free use of the wharves by transhipping cargo within the prescribed limits.

Section 64.—When any wharf, quay, stage, jetty or pier, for receiving, landing, or shipping goods from vessels (not being sea-going vessels), shall have been made and completed with all proper appliances in that behalf, it shall be lawful for the Commissioners, with the sanction of the Lieutenant-Governor, by an order published in three consecutive numbers of the *Calcutta Gazette*, to declare that such wharf, quay, stage, jetty or pier, is ready for receiving, landing, and shipping goods, from vessels not being sea-going vessels, and in the same way to order that within certain prescribed limits to be therein specified in that behalf, it shall not be lawful to land or ship any goods out of, or into, any vessel (not being sea-going vessel) of any class specified in such order, except at such wharf, quay, stage, jetty or pier. And in the same way to alter, vary, or revoke any such order. After such publication as aforesaid, it shall not be lawful for any vessel of such class to land or ship any goods at any place within the limits so specified, except at such wharf, quay, stage, jetty or pier; nor for any such vessel, while within such limits, to anchor, fasten, or lay within fifty yards of the ordinary low water mark without the consent of the Commissioners. And if, after such publication, any such vessel shall, while within such limits, so anchor, fasten,

or lay, it shall be lawful for the Commissioners to cause the same to be removed out of the said limits, and it shall be the duty of the Conservator of the Port to aid and assist the Commissioners in so removing such vessel. Any person guilty of any breach of the provisions of this section shall be liable to a fine not exceeding fifty rupees for every such breach.

H. L. DAMPIER,
Secy to the Govt. of Bengal.

NOTIFICATION.

The 8th May 1872.—It is hereby notified that those Officers who, after passing the preliminary examinations for admission into the Subordinate Executive Service held in February 1872, have received appointments in that Service, are exempted from the Departmental examination in the vernacular by the lower standard. They will however be required to pass in law by that standard. Such Officers need not present themselves for examination at the next half-yearly examination (to be held in June); but it will be obligatory upon them to attend the subsequent examinations.

H. L. DAMPIER,
Secy. to the Govt. of Bengal.

NOTIFICATION.

The 10th May 1872.—In continuation of the notification of the 16th April 1872, published in the *Calcutta Gazette* of the 17th idem, page 1584, the following additional rule under Section 69 of the Indian Registration Act, No. VIII of 1871, having received the Lieutenant-Governor's approval, is published for general information:—

Rule 47A.—When a person puts his signature to a document by means of affixing a mark under the interpretation given in Section 3 of the Act, such person's name shall be recorded at length, and the writer of the name shall also sign his own name in attestation that the said mark was affixed in his presence.

H. L. DAMPIER,
Secy. to the Govt. of Bengal.

NOTIFICATION.

The 13th May 1872.—Under Section 1 of Act X (B.C.) of 1871 (The District Road Cess Act), the Lieutenant-Governor is pleased to extend the aforesaid Act to the district of Purneah, and to provide that the Act shall commence and take effect in that district from the 1st of June 1872.

MEDICAL COLLEGE.

1. THE Calcutta Medical College Session of 1872-73 will commence on the 15th June next.

2. Students who may be desirous of commencing their studies are requested to apply to the Principal of the Medical College, between the hours of 10 A.M. and 4 P.M., on or before the 15th May next, when the vacant free presentations will be awarded. These are given to Candidates upon their relative position in the University Entrance and First Examination in Arts, preference being given to those who have passed the First Examination.

3. The possession of the "Entrance Examination" Certificate of the Calcutta University will entitle students to enter the Medical College without further examination.

4. The course of instruction given in the Calcutta Medical College is framed to meet the requirements of the Calcutta University for obtaining its Degrees in Medicine and Surgery.

5. The candidates who may fail in obtaining free presentations may be admitted as students on payment of an entrance fee of Rs. 15, and a further sum of Rs. 5 monthly during the period of their stay at the College, provided they enter into a guarantee to follow out the College curriculum to a close, and to graduate at the Calcutta University. Candidates who do not intend to graduate in Calcutta, or who wish to attend only a few courses of lectures, may be admitted as casual students of payment of a fee of Rs 40 for each course of lectures, or Rs. 60 for six months' attendance upon any single branch of hospital practice. The cost of educating a casual student to compete at the examination of the Royal College of Surgeons of England amounts to Rs. 810.

6. The certificates of lectures and hospital attendance of the College are recognized by the University of London, the Royal College of Surgeons of England, and the Worshipful Society of Apothecaries of London.

HOOGHLY,
RAILWAY DEPY. COLLR.'S OFFICE,
The 12th April 1872.

OBHOY CHURN MULLICK,
Railway Deputy Collector.

NOTICE is hereby given that the proprietary right of Government to the undermentioned plots of Class B lands, situated in the district of Hooghly, relinquished by the East Indian Railway Company, and resumed and taken possession of by Government, will be put up to sale, at the Hooghly Collectorate, at 11 A.M., on Monday, the 10th June 1872, corresponding with 29th Joyste 1279 B.S.

2. The purchasers of these plots will be subject to the following conditions:

1*st.*—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

2*nd.*—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up for sale at the risk of the defaulting purchaser after issue of advertisem entas in the case of original sale.

3*rd.*—The plots will be sold revenue-free to the highest bidders.

With the addition of the following condition.

The purchasers shall be put in possession on receipt of the orders of the Collector confirming the sales. But such possession shall be liable to be disturbed in case the final sanction of the Member of the Board of Revenue in charge should not be accorded to the proceedings.

HOOGHLY;
RAILWAY DEPY. COLLECTOR'S OFFICE,
The 23rd April 1872.

OBHOY CHURN MULLICK,
Railway Deputy Collector.

NOTICE is hereby given that the proprietary right of Government to the undermentioned plots of Class B land, situated in the district of Hooghly, relinquished by the East Indian Railway Company and resumed and taken possession of by Government, will be put up to sale at the Hooghly Collectorate, at 11 A.M. on Friday, the 14th June 1872, corresponding with 1st Ashar 1279 *B.S.*

2. The purchasers of these plots will be subject to the following conditions :—

1*st*.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

2*nd*.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

3*rd*.—The plots will be sold revenue free to the highest bidders.

With the addition of the following condition—

The purchasers shall be put up in possession on receipt of the orders of the Collector confirming the sales. But such possession shall be liable to be disturbed in case the final sanction of the Member of the Board of Revenue in charge should not be accorded to the proceedings :—

1	Bhaugulpore ...	May 11th	·3	Cloudy; good storms in the north. Rain 1·10 at Modhupoorah; ·54 at Soopool; rain very general, except in the south.	The rain has been of very great benefit to indigo, and crops will soon be put in ground now: sugar-cane very good, so far in the south.	
2	Monghyr ...	„ 11th	.....	.....	.....	Return defective
3	Purneah ...	„ 11th	.....	.....	.....	Ditto.
4	Rajmehal ...	„ 11th	·96	Cloudy, appearance of the rains having already commenced.	Indigo good.	
5	Deoghur ...	„ 11th	·25	Very stormy on early morning of 11th Has considerably lessened the temperature.	Good for the sugar-cane, the only crop now on the ground.	
6	Nya Doomka ...	„ 11th	·9	East winds and gathering clouds the whole week, ending on the 10th with good showers; weather cool and pleasant.	Ploughing will now commence.	
7	Godda ...	„ 11th	.....	Easterly breeze, cloudy occasionally and hot.	Nothing to report on ...	Slight storm and rain on Saturday morning.
8	Pakour ...	.....	.....	.....	.....	Return not received.
9	Jamtara ...	„ 11th	2·0	Seasonable ...	Recent fall of rain has done much good to the sugar-cane.	
10	Patna ...	„ 11th	0·43	Partly cloudy and partly clear on the night of the 10th; high westerly wind attended with a little rain	Outturn of the crops is good.	
11	Gya ...	„ 11th	Nil ...	Very hot; strong easterly winds prevail.	There are no crops on the grounds at present.	
12	Chumparun ...	„ 11th	.....	Fair; weather east winds.	The rain of yesterday has been very beneficial both to the indigo and cheena; crops; dhan, kuddo, shama, tangnee, &c., are being sown.	Heavy rains Friday night.
13	Sarun ...	„ 11th	.....	Fair weather generally hot east winds.	The prospects of indigo is favorable; cheena has grown up well. Bysakhi cotton is flowering; sugar-cani; has germinated well sate dhan is being sown in the low lands.	Violent storms from the west, accompanied by rain on the 11th at 1 A.M.
14	Shahabad ...	„ 11th	.....	Variable: east wind; heat excessive; heavy storm last night, accompanied with hail and rain. Thermometer maximum 108°, minimum 75.°. Barometer H. reading 29·760, L. reading 29·440.	Crops nil ...	Slight rain.
15	Tirhoot ...	„ 11th	3·	Strong east and west winds; cool from Saturday morning.	Cheena and moong crops are coming on well; rain fell last night in heavy showers, attended with hail-storm, which blew from the north-west, and lasted for about an hour. The rain will do good indigo and other crops; the storm has caused loss to mangoe crops.

17	Bograh ...	„ 11th	5·70	Had rather a severe thunder-storm on the evening of the 4th, accompanied with heavy rain; week cloudy and cool; healthy.	There has been ample rain, and fine weather is now necessary to enable the ryots to plough.	
18	Dinagepore ...	„ 11th	·03	The whole week has been cloudy with threatening rain, with a great deal of sheet lightening in the evenings and nights. A strong breeze every day from north-east and east; towards the evening south and south-west; two or three light storms on Wednesday and Thursday; Friday rain fell— Ther. highest ... 89° „ lowest ... 70°	There is very little boro dhan grown in this district. The want of rain in October has caused the mustard to be rather scanty; the price has risen from Rs. 4 to 7.	
19	Maldah ...	„ 11th	0·29	Hot and cloudy, with strong easterly wind; rain with hail-storm on evening of Sunday, the 5th instant.	Boro dhan crop requires little rainfall; more prospects good.	
20	Moorshedabad ...	„ 11th	0·23	Rain on Sunday and Monday, cloudy, breezy, and tolerably cool.	Spring sowings going on; prospects good.	
21	Pubna ...	„ 11th	2·38	Weather stormy, with frequent heavy showers; cool.	Fair.	
22	Rungpore ...	„ 11th	1·73	Stormy ...	The paddy is being transplanted; rain was much wanted, and the crops are now doing well.	
23	Burdwan ...	„ 13th	Nil ...	t and sultry ...	Summer crops good, but require more rain.	
24	Bancoorah ...	„ 10th	1·56	Heavy rain on the 3rd, otherwise dry.	The heavy showers of rain that fell on the 3rd instant has done much good.	
25	Beerbhoom ...	„ 11th	1	Weather variable. A good deal of wind from different quarters cooler than before.	The rain which has fallen will enable ploughing to be done.	
26	Hooghly ...	„ 11th	1·20	Clear and cloudy; high wind and hot: there were several showers of rain during the week.	Mangoes are getting ripe in greater quantities; boro dhan is being reaped; sugar-cane plantation is fact progressing; vegetable crops are doing well. Ploughing is also rapidly going on; sowing of ous and amun dhan has been commenced. Indigo, cotton, and til in the west have been endangered by the drought, but the amount of injury is not known.	
27	Howrah ...	„ 11th	0·56	Very hot in the first part of the week; cool since the rain.	The amun dhan crop, which is much more extensively grown than the ous, is being sown; sugar-cane and hemp healthy and promise well. More rain wanted.	This fall occurred on Friday, the 10th instant. Dengue fever still raging.
28	Midnapore ...	„ 11th	0·27	Generally hot.	The rain which has fallen has done no good. It is very much wanted to enable the ryots to plough their rice-fields.	

No.	District.	Date of return from each district.	Rainfall at Sudder Station in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
		1872.				
29	Nuddea ...	May 11th	0·76	Rain has fallen in most parts.	The rain has fallen just in time. The rice had been sown extensively on dry ground.	
30	Jessore ...	„ 11th	1·95	The weather has been very changeable during the last week, and some rain has fallen. The average temperature has been 8 10″; average barometrical height 29·626; general direction of wind. south	Good rain has also fallen in the north-west of the district and done good.	
31	24-Pergunnahs ...	„ 11th	1·18	Hot; slight fall of rain in the east.	Few vegetables only on ground. Lands are being ploughed for ous rice cultivation; rain wanted.	
32	Dacca ...	„ 11th	5·70	Cloudy and rainy ..	Prospects of crops good. The Collector has heard of no damage as yet except to jute in some low places. If this continues, the rice too will rot, but yet it is safe.	
33	Backergunge ...	...	.....	.....	.....	Return not received.
34	Furreedpore ...	„ 11th	4·03	There have been several severe storms accompanied by heavy rain. Temperature cool.	Fair ..	Health of the district continues good.
35	Mymensingh ...	„ 6th	0 80	Cool and pleasant ...	Satisfactory.	
36	Sylhet ...	„ 4th	10·43	Delightfully cool:— Maximum temperature of week 88° Minimum ditto ... 67° Range . 210° Mean of highest readings of thermometer 83·6 Mean lowest reading of thermometer . 69 9 Apprxte. mean . 76·7	Sowings progressing favorably. The heavy rains lately have done no harm; but a little dry weather, which appears to have set in since Thursday, will be necessary to prevent the early crop from being washed away.	The river rose 27 inches, but it has fallen 9 inches during the last 2 days. Altogether the river has risen 13 feet 6 inches. Friday night the 26th April.
37	Cachar ...	„ 4th	6·53	Cloudy and rainy ..	Prospects satisfactory at present.	
38	Chittagong ...	„ 4th	3·64	Seasonable ..	Nothing special to note since last return.	
39	Noakhally or Bullooah	„ 4th	2·14	Owing to several showers of rain the weather has been cooler last week.	In some parts of the district moog, chillies and linseed partially reaped; in those parts where these crops remained unreaped, a very good return is expected. Owing to the late rains the ous dhan has been sown in some parts of the district, and in other the sowing is still progressing.	
40	Tipperah ...	„ 4th	1·46	Occasional showers here; wet in the north.	Some considerable damage caused by hail-storm of 21st April.	
41	Hill Tracts of Chittagong.	„ 4th	4	Sunny and rainy ...	Good	
42	Cuttack ...	„ 11th	Nil ...	High winds ..	Rain greatly wanted.	
43	Balasore ...	„ 11th	A slight shower fell yesterday.	Very hot and close ..	Ploughing cannot proceed on for want of sufficient rain.	
44	Pooree ...	„ 4th	.....	Very hot in the interior	No crops on the ground .	A shower of rain on the morning of the 2nd.
45	Hazareebaugh ...	„ 11th	Nil ..	Seasonable ..	Nothing on the ground.	
46	Lohardugga ...	„ 11th	Nil ..	Hot ...	Nothing on the ground.	
47	Maunbhoom ...	„ 11th	.....	Stormy and cool ...	Sugar-cane is being planted out. Mangoe crop very bad.	Rainfall return defective.
48	Singbhoom ...	„ 4th	Nil ..	Seasonable ...	No crops standing.	
49	Durrung ...	„ 4th	2·73	Changeable ...	Ploughing going on. One tea planter reports that much tea is being made, and another says that little is being done on account of the cold.	

No.	District.	Date of return from each district.	Rainfall at Sudder Station in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
		1872.				
50	Nowgong ...	May 4th	2·03	Weather rainy and changeable with north-west storms at intervals	Spring crops doing well. Tea ditto ditto.	
51	Seebsaugor ...	„ 4th	5·54	The weather during the week was damp and unhealthy and characterized by cloudy days and frequent showers of rain.	The reports received of the ous dhan crop are satisfactory. and the heavy rain we have had appears to have stopped, which is favorable for tea.	
52	Kamroop ...	„ 4th	2·36	Hot and dry. excepting 28th April and 1st and 4th May.	Reports of crops and tea favorable.	
53	Luckimpore ...	...	.. ...	.....	.....	Return not received.
54	Khasi and Jynteah Hills.	„ 4th	0·5	There has been a good deal of seasonable rain in the district.	The prospect of the crops is good.	
55	Naga Hills ...	Apl. 27th	0 60	The weather has been much the same as last week, though with less rain and verv much more wind.	Satisfactory in all respects.	
56	Julpigoree ...	May 11th	2·19	Cloudy and cool; heavy squalls and showers.	Good ...	Cattle disease has broken out in some villages.
57	Gowalparah ...	„ 4th	1·35	Misty. rain, passing showers, thunder. lightning, and visibility of objects.	The rains in last week have greatly improved the state of crops.	
58	Garo Hills ...	„ 4th	1·56	Heavy showers.	Crops sown.	
59	Darjeeling ...	„ 11th	0·30	.....	Crops in the hills and in the plains are much the same as reported last week.	The cholera is still severe in some parts of the Terrai—the south-west principally. In other places it has abated. It is believed to have originated in the Nepaul Terrai, & the theory is that the germs of the disease were carried on a strong wind which blew from the direction of Nepaul Terrai just before the disease appeared in our Terrai; up to date at least 250 deaths have occurred. The disease has also appeared in sporadic forms in the hills.
60	Cooch Behar ...	„ 4th	0·22	Variable ...	Nothing particular to report.	

Published for general information.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four-hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain gauge is 1½ feet, and that of the anemometer, 70 feet, 10 inches, above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

No. 3495.—*Fort William, the 15th May* 1872.—*Notifications.—Accounts.*—The following letter is published for general information :—

From R. H HOLLINGBERY, Esq., Assistant Secretary to the Government of India, Financial Department, to the Secretary to the Bengal Chamber of Commerce

In reply to your letter dated 11th May 1872, I am directed to say that in compliance with the application of the Chamber of Commerce, the Governor-General in Council is pleased to direct that Saturday, the 25th May 1872, instead of Friday, the 24th instant, shall be observed as a holiday in celebration of Her Majesty's Birth-day.

No. 3474.—*The 16th May* 1872.—The Governor-General in Council is pleased to cancel the proviso in Section 19(*a*) of the Civil Leave Code, and to sanction the following addition to the proviso which follows Section 19(*c*) :—"and that no privilege leave or instalment of privilege leave is admissible to an officer who has not been actually on duty without interruption for at least six months."

No 3478.—ERRATA.—In Rule 1 under Section 11 of Supplement E to the Civil Leave Code, for "11" substitute "10." At the end of Rule 1 under Section 11 of Supplement F to that Code, for "2" substitute "1."

No. 3491.—*The 17th May* 1872.—The following is substituted for the *erratum*, No. 3320 of the 10th instant, published by this Department in *Gazette of India* of the 11th idem :—

In the fifth and sixth paragraphs of the Notification of this Department, No. 2008 dated the 14th March 1872, for "January 1871" substitute "January 1872."

No. 3507.—The Governor-General in Council is pleased to prescribe, in supersession of all former rules on the subject, the following rules specifying the class of accommodation to be granted to the several grades of Government servants when travelling free on duty by rail :—

(1.)—All officers drawing salaries of not less than Rs. 350 a month shall receive 1st class accommodation.

(2.) All Officers drawing salaries of less than Rs. 350 a month and not less than Rs. 25 a month shall receive 2nd class accommodation.

(3.) All Officers and servants drawing less than Rs. 25 a month and not less than Rs 15 a month shall receive intermediate class accommodation when available; otherwise 3rd class accommodation. All others shall receive 3rd class accommodation.

No. 3563*A.*—*The 17th May* 1872.—The following correspondence is published for general information, in supersession of Financial Notification No. 2118, dated 22nd March 1872 :—

From LIEUTENANT-COLONEL H. HYDE, R.E., Mint Master, Calcutta, to the Secretary to the Government of India, Financial Department,—(No. 77, dated the 24th April 1872)

I have the honor to acknowledge the receipt of your letter No. 2891 of the 22nd April 1872, and in reply to state that the ground of my proposal was Clause 13, last para, wherein it is set forth—"The ¼ and ⅛ of a rupee shall be legal tender only for the fractions of a rupee subject to the 2nd proviso contained in this section," and that 2nd proviso reads, "provided also that it has not been clipped or filed, or defaced or diminished otherwise than by use." Hence the ¼ and ⅛ of a rupee are legal tenders, no matter how much they have been reduced in weight by fair use.

2. I conclude then that so long as these coins are legal tenders, they must be received at their nominal value, and that Clause 17 cannot apply.

3. If Clause 17 is intended to apply, there is a manifest contradiction.

From R. B. CHAPMAN, Esq, Secretary to the Government of India, Financial Department, to the Mint Master, Calcutta,—(No. 3563, dated 17th May 1872.)

With reference to your letter No. 77, dated 24th April 1872, I am desired to say that you are right in concluding that ¼ and ⅛ of a rupee coin should be received as legal tender by fractions of a rupee at their nominal value irrespective of the diminution in their weight for reasonable wear and tear, provided that they have not been clipped or filed, or defaced or diminished otherwise than by use.

PENSIONS AND GRATUITIES.

No 3464.—*The 17th May* 1872.—The Governor-General in Council directs that the following be substituted for Civil Pension Code, 39, 1, (*f*) :—

Vaccinators who are employed permanently (see Section 17), including, in the Madras Presidency, those whose pay is Rs. 10.

No. 3584.—Under the provisions of Section 21 of the Post Office Act of 1866, the Governor-General in Council is pleased to direct that the postage rates chargeable in India on letters addressed to foreign countries, the route to which lies through the United Kingdom (marked III in column 2 of the Foreign Postage Schedule of the Indian Postal Guide of May 1871) as well as to the Australian Colonies, Suez (by British Packet), Cairo (by British Packet), Alexandria (by British Packet), and Constantinople, shall be increased by 8 pie per half ounce.

The following Circular, issued by the Lieutenant-Governor, is published for general information :—

Circular No. 24.

From A. MACKENZIE, ESQ., Junior Secretary to the Government of Bengal, to all Commissioners,—(dated Calcutta, the 7th May 1872)

THE Lieutenant-Governor is very anxious to introduce real self-government through elected representatives into municipalities. Act III (B.C.) of 1864 does not admit of election, but Act VI (B.C.) of 1868, though not clear in wording, does, His Honor thinks, make it possible. At any rate he hopes the Bengal Legislature will soon legalize election in all municipalities, and he therefore desires Magistrates of districts immediately to inquire into the feelings on the subject of the inhabitants of each town which has now any sort of municipality, and to ascertain whether they would like to have or are prepared to accept elective institutions. Such institutions may of course best be introduced in towns, where the people have real interest in the taxation imposed upon them, the expenditure of the funds, and the general management of their affairs. The Lieutenant Governor hopes and believes there are many such towns in Bengal containing very many intelligent and active-minded inhabitants. Perhaps the system will work best at first in towns of moderate size, but containing an intelligent class of people. Together with a thorough and reliable report of the feelings of the people themselves upon this question, Magistrates and Commissioners should give their own opinions. The Lieutenant Governor trusts that in this way he may be enabled to introduce the practice of election into a large number of towns as soon as the action of the Provincial Legislature enables him to do so.

C. BERNARD,
Offg. Secy. to the Govt. of Bengal.

The 15th May 1872 —The following Resolution received from the Government of India is published for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public). No. 1993, *under date Fort William, the 26th April* 1872.

READ again the circular issued by this department, Nos. 3986-93, dated the 31st August 1969, laying down rules relative to gratuitous medical attendance on uncovenanted Government servants.

Read also the undermentioned communications from the Financial Department, forwarding for consideration proposals made by the Public Works Department for remunerating certain medical officers for professional aid to members of that department employed in the interior of districts :—

No. 871, dated the 31st January 1872.
„ 1507, „ 29th February „
„ 1789, „ 6th March „

Read also a letter from the Inspector-General of Hospitals, Indian Medical Department, No. 1190 dated the 20th February last, requesting an authoritative decision as to whether medical subordinates called in to attend on ungazetted uncovenanted officers of the upper grades at their own residences should be paid their actual travelling allowances by the patients themselves.

RESOLUTION.—When the pay of Civil Medical officers of all grades was recently consolidated, and considerable increases made to that pay on the recommendation of the Medical Commission, it was understood that these officers were in future to undertake all the ordinary civil work of their respective charges without any extra allowance, except only travelling allowance under special circumstances.

2. The papers forwarded by the Financial Department under their endorsement dated 6th March 1872, No. 1789, raise the broad question—What is "ordinary civil work?" It certainly includes attendance on the ordinary civil or quasi-civil officers; on all the civil establishment; on all strangers passing through the district, if in Government employ in some other district; and on all isolated officers or small parties of officers employed in, or travelling about, the district. Thus, if a party of convicts is sent to work at out-door labor at a distance from the jail, the Civil Surgeon is bound to visit them at all reasonable times without charge, except under certain circumstances for travelling allowance.

3. On this point the only rule which the Governor-General in Council is able to lay down is, that the Civil Surgeon of a district cannot claim extra remuneration for any duties appertaining to his charge, except those for which a special allowance may have been separately sanctioned, and His Excellency in Council is averse to any increase in the number of special allowances which are now granted. When the Civil Surgeon's presence may be required beyond a distance of five miles from the limits of his station, he will in future draw travelling allowance.

4. It, however, seems questionable whether attendance at a distance of five miles should in all cases be required of a medical officer. His Excellency in Council is of opinion that service of this nature should not be considered compulsory, except under extraordinary circumstances, and that where journeys of this distance are frequent, provision should be made for the services of a Sub-Assistant Surgeon.

5. As regards the question raised by the Inspector-General of Hospitals, Indian Medical Department, the Governor-General in Council is pleased to rule that when an uncovenanted officer requiring medical aid lives at a distance of more than two miles from the official residence of the medical subordinate, and the latter has to hire a conveyance for the journey, the expense so incurred should be defrayed by the officer concerned.

ORDER.—Ordered that a copy of the above resolution be forwarded to the Financial Department, with the remark that the applications submitted by the Public Works Department should be negatived under the orders now issued.

No. 1995.

Ordered also, that a copy of the above resolution be forwarded to the Governments and Administrations marginally noted for information and guidance, in continuation of circular letter Nos. 3986-93, dated 31st August 1869.

High Court Notice.

Circular Orders by the High Court of Judicature at Fort William in Bengal.

No. 14.

To all Civil Judges—(dated Calcutta, the 9th April 1872.)

HIGH COURT, &c.
CIVIL SIDE.
Present:
The Hon'ble Sir R. Couch, *Kt.*, *Chief Justice.*
The Hon'ble G. Loch.
" H. V. Bayley,
" F. B Kemp,
" Louis S. Jackson,
" J. B Phear,
" A. G. Macpherson,
" F. A. Glover,
" D N. Mitter,
" W. Amslie,
Judges of the Court.

Rule 8 of the Rules made by the High Court under Section 37 of Act XX of 1865, and notified by Circular Order No. 22, dated 13th June 1866, is hereby rescinded, and the following Rule is circulated for general observance:—

AMENDED RULE VIII.

"The amount in respect of the fee of an adversary's pleader when allowed in any miscellaneous proceeding, or for any other matter than that of appearing, acting, or pleading in a suit prior to decree, shall be fixed by the Court according to the following scale, *viz.*:—

"A fee not exceeding Rs. 80 in the Court of a Judge or Subordinate Judge.

"A fee not exceeding Rs. 16 in the Court of a Moonsiff in suits of amount or value exceeding Rs. 300.

"A fee not exceeding Rs. 4 in the Court of a Moonsiff in suits of amount or value not exceeding Rs. 300.

"Circular Order No. 28, dated 20th July 1866, is also rescinded."

By order of the High Court,

F. B. PEACOCK,
Registrar.

No. 15.

To all Civil Authorities,—(dated Calcutta, the 13th April 1872.)

HIGH COURT, &c.,
CIVIL SIDE.
Present:
The Hon. Sir R. Couch, *Kt.*, *Chief Justice.*
The Hon'ble G. Loch,
" Louis S. Jackson,
" A. G. Macpherson,
" F. A. Glover,
Judges of the Court.

The Court are pleased to direct that whenever Moonsiffs are employed as Commissioners under Sections 180 and 181 of the Code of Civil Procedure, the parties to the suit shall be charged at the rate of 10 rupees for each day the investigation lasts. All sums so received are to be credited to Government and shown in column 6 of the Statement appended to Circular Order No. 12, dated 8th April 1872. Moonsiffs so employed will also be entitled to their travelling expenses either by land or water, which must be calculated and paid in the manner prescribed in paragraph 3 of Circular Order No. 30 of 10th October 1863.

2. It is not to be understood that the Court contemplate the frequent employment of Moonsiffs as Commissioners or otherwise than under the special orders of the District Judge; such work will, as heretofore, be usually performed by Ameens. Occasions may, however, sometimes arise when by reason of the amount of work already in the hands of the Ameens of a District, or the importance of a particular investigation, the employment of a Moonsiff in this way may be thought desirable by the District Judge, and it is to meet such cases that the present Circular Order is issued.

By order of the High Court,

F. B. PEACOCK,
Registrar.

No. 16.

To Judges of Small Cause Courts,—(dated Calcutta, the 25th April 1872.)

HIGH COURT, &c,
CIVIL SIDE.
Present:
The Honble Louis S. Jackson, *One of the Judges of the Court.*

In continuation of Circular Order No. 5, dated 25th February 1871, the following instructions communicated to a Judge of a Small Cause Court, are forwarded for the information and guidance of Judges of Small Cause Courts.

By order of the High Court,

F. B. PEACOCK,
Registrar.

No. 814.

From F. B. PEACOCK, ESQ., Registrar of the High Court of Judicature at Fort William in Bengal, to the Judge of Small Cause Court, Patna,—(dated Calcutta, the 22nd March 1872.)

HIGH COURT, &c.,
CIVIL SIDE.
Present:
The Hon'ble Louis S. Jackson, *One of the Judges of the Court.*

Having laid before the Court your letter No. 11 of the 23rd ultimo, soliciting to be informed whether a column "Total value of suits," as in the Consolidated Statement No. 7 B for the District Courts, prescribed by Circular Order No. 32, dated 8th November 1870, should not be added to the Judicial Statement No. 7 for the Small Cause Courts, prescribed by Circular Order No. 5, dated 25th February 1871, I am directed to observe as follows:—

2. The Small Cause Court Statement No. 7 was ordered by Circular Order No. 5, dated 25th February 1871, so as to enable the Small Cause Court Judges to furnish the District Judge with the necessary materials (as to their Courts) for constructing the General Statement No. 7. Column 7 of the latter was certainly intended to show the total value of suits of each denomination in the district; and to enable the District Judge to arrive at such general total, each Court should furnish its own total, and the Small Cause Court Statement No. 7 should therefore have such a column. The Superintendent of Stationery will be so instructed, in order that the necessary addition may be made to this form when the present stock is exhausted; in the meantime the column of remarks may be subdivided, the first half being headed "Total value of suits."

CIRCULAR MEMO. No. 7.

To all District Judges and Subordinate Judges,—(dated Calcutta, the 9th April 1872.)

HIGH COURT, &c.,
CIVIL SIDE.
Present:
The Hon'ble Sir R. Couch, *Kt.*, *Chief Justice.*
The Hon'ble G. Loch,
" Louis S. Jackson,
" A. G. Macpherson,
" F. A. Glover,
Judges of the Court.

In connection with Circular Memo. No. 5 of the 11th September 1871, calling for a report as to the period within, and the intervals at which it will be practicable to require the transmission of Moonsiffs' and Subordinate Judges' records at out-stations to the several Appellate Courts, the following suggestions made by the Judge of Bhaugulpore on the subject are circulated, with a request that the High Court may be favored as early as possible, with the opinion of District Judges thereon:—

"Every party appointing a pleader or filing an appeal or for other purposes can obtain, on payment of a sum of Rs. 5 only in appeals from orders of Subordinate Judge, and Rs. 2 in appeals in rent suits, &c., from orders of Moonsiffs, copies of all the papers in this Court comprising the record of the case, by putting in an application on a slip of plain paper. The copies are prepared by English and Vernacular copyists appointed under Circular Order No. 18 of the 23rd June 1870.

"This rule is largely availed of by the parties, and the pleaders are in every instance supplied with a complete vernacular brief of all the papers of the case, and the party is saved all the bother and trouble of constant attendance on his pleader. I have found the rule work so well that I can confidently recommend its adoption in the lower Courts with slight modifications. Probably in a very short time the people will become aware of the facility thus afforded them, and largely avail themselves of it. The introduction of the rule will do away with the necessity of having the records earlier at the Judge's Court. For instance, a party cast at the Lower Court, on putting in an application for a brief for his case, can obtain unauthenticated copies of its record in a short space of time at the Court, and can come with only an authenticated copy of his decree to the Appellate Court. The copies of records being supplied to pleaders, the rule in Circular Order No. 17 of 23rd May could virtually be thus carried out. This will obviate the necessity of an earlier transmission of records. The records of the case are on an average so unvoluminous, that Rs. 2 for a copy of brief in each case will be ample, and men will be found to grant these copies on an average of two days' time, their remuneration being debited to the accumulation of the fees, which will not be very small."

By order of the High Court,

F. B. PEACOCK,
Registrar.

No. 8.

To all District Judges and Judicial Commissioners of Assam and Chota Nagpore,—(dated Calcutta, the 23rd April 1872.)

HIGH COURT, &c.,
CIVIL SIDE.
Present:
The Hon'ble Louis S Jackson,
One of the Judges of the Court.

District Judges and Officers holding the like powers are requested to furnish this Office with complete lists, in the form hereto appended, of all the Pleaders and Mooktears enrolled under the High Court's Rules of 2nd May 1866, before the 1st April 1872, with the date of enrolment of each and the other particulars for which the form provides.

2. It will be seen that one form only is considered necessary; but there must be three distinct returns in the same form, *viz.*, one for Pleaders of the senior grade, another for Pleaders of the junior grade, and a third for Mooktears. The headings of the form, it is believed, explain themselves sufficiently, with the exception of heading to column 5, "Nature of qualification and date of original admission," which should be understood as providing for the following information: In the case of Pleaders, it should show whether they were admitted after examination, or, as possessed of a Law degree, under the general operation of the Rules of 2nd May 1866, or as old Pleaders, under the special proviso in Rule 5. Similarly, in the case of Mooktears, it should indicate whether they were admitted after examination under the general rules applicable to such practitioners, or under the specific permission in Rule 39. The *date of original admission* will of course be the date on which the Pleaders and Mooktears of the exceptional classes just described were admitted to practice *before* Act XX of 1865 came into operation.

3. Blank printed forms of each description, and uniform in size and shape, are sent with this Circular, for the purpose of being filled up and returned as carefully and as speedily as possible, with a view to being bound up and preserved as an original and permanent record of the High Court.

By order of the High Court,

F. B. PEACOCK.
Registrar.

FROM

THE AUDITORS OF THE ACCOUNTS OF THE COMMISSIONERS FOR MAKING IMPROVEMENTS IN THE PORT OF CALCUTTA,

TO

THE COMMISSIONERS FOR MAKING IMPROVEMENTS IN THE PORT OF CALCUTTA.

GENTLEMEN,

WE have the honor to report that we have examined your accounts for the half year ended 31st March 1872, and have found them to be correct.

2. During the six months your nett earnings on the Wharves, Jetties, and Strand Bank Division, amounted to Rupees 1,77,200, against Rupees 1,92,738, realized in the preceeding half year, the diminished earnings of the past six months being due to increased expenditure consequent on extension of the Jetties, while there has not been a corresponding increase of revenue. Your extraordinary expenditure amounted to Rupees 2,92,263, and was provided entirely from Surplus Revenue.

3. In the River Division your nett earnings were Rupees 99,368, against Rupees 67,818 realized in the previous half year, the improvement being attributable to larger collections of revenue. An addition of Rupees 1,01,875 has been made to the Reserve Fund.

4. Your financial position on 31st March, as described in your books, may be stated as follows :—

	Wharves and Jetties and Strand Bank Division.	River Division.	TOTAL.
LIABILITIES—	Rs.	Rs.	Rs.
Capital Debt	10,00,000	17,65,000	27,65 000
Nett Earnings	5,44,295	3,51,059	8,95 354
Uninvested Income of Reserved Fund ...	.....	2,253	2,253
Deposits in hand	780	.....	780
Total ...	15,45,075	21,18,312	36,63,387
ASSETS—			
Value of Block	13,98,951	17,65,000	31,63 951
Reserve Fund	.....	20,08,250	2,08 250
Outstanding Advances	.....	30	30
Cash Balance	1,46,124	1,45,032	2,91,156
Total ...	15,45,075	21,18,312	36,63,387

In these figures the nett earnings contrast favorably with the Capital Debt, as well as with the outlay on block, and are shown to have been duly utilised by employment for enlargement of block as regards the Wharves and Jetties, and by investment in a reserve fund as regards the river. The block, however, is shown at the amount paid for it, no allowance having been made for depreciation by a corresponding charge against earnings. Such an allowance was always made when the Port Fund was administered by Government, and we would suggest for your consideration whether it would not be advisable to continue the practice. At any rate, the probable charge for depreciation should be kept in sight when questions come up as to the disposal of the surplus revenue, in the same way as they would be taken into the calculation in dividing profits on a partnership account.

COMPTR.-GENL'S OFFICE;
CENTRAL ACCT.'S BRANCH,

HOOGHLY,
RAILWAY DEPY. COLLR.'S OFFICE,
the 12th april 1872.

OBHOY CHURN MULLICK,
Railway Deputy Collector.

NOTICE is hereby given that the proprietary right of Government to the undermentioned plots of Class B lands, situated in the district of Hooghly, relinquished by the East Indian Railway Company, and resumed and taken possession of by Government, will be put up to sale, at the Hooghly Collectorate, at 11 A.M., on Monday, the 10th June 1872, corresponding with 29th Joyste 1279 B.S.

2. The purchasers of these plots will be subject to the following conditions:

1st.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

2nd—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up for sale at the risk of the defaulting purchaser after issue of advertisem entas in the case of original sale.

3rd.—The plots will be sold revenue-free to the highest bidders.

With the addition of the following condition.

The purchasers shall be put in possession on receipt of the orders of the Collector confirming the sales. But such possession shall be liable to be disturbed in case the final sanction of the Member of the Board of Revenue in charge should not be accorded to the proceedings.

HOOGHLY;
RAILWAY DEPY. COLLECTOR'S OFFICE,
The 23rd April 1872.

OBHOY CHURN MULLICK,
Railway Deputy Collector.

NOTICE is hereby given that the proprietary right of Government to the undermentioned plots of Class B land, situated in the district of Hooghly, relinquished by the East Indian Railway Company and resumed and taken possession of by Government, will be put up to sale at the Hooghly Collectorate, at 11 A.M. on Friday, the 14th June 1872, corresponding with 1st Ashar 1279 *B.S.*

2. The purchasers of these plots will be subject to the following conditions :—

1*st*.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

2*nd*.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

3*rd*.—The plots will be sold revenue free to the highest bidders.

With the addition of the following condition—

The purchasers shall be put up in possession on receipt of the orders of the Collector confirming the sales. But such possession shall be liable to be disturbed in case the final sanction of the Member of the Board of Revenue in charge should not be accorded to the proceedings :—

Budget Estimate for "Petty Repairs."

(RESOLUTION.)

REVENUE DEPARTMENT.

FINANCIAL.

Calcutta, the 18th May 1872.

READ the following extract from the Accountant-General's letter No. 52C, dated 26th April 1872 :—

"PARA. 3.—The budget estimate of the Public Works Department for 1872-73 makes no provision for petty construction and repairs of departments outside "Provincial Services," which were transferred under Financial resolution No. 1659, dated 20th March 1871. The amount required on that account is Rs. 78,993, against Rs. 70,724 sanctioned for 1871-72. A memorandum showing the distribution of the amount amongst the several departments, with an explanation of the increase, will be found amongst the enclosures."

The Lieutenant-Governor finds that when the provincial budget was framed no estimates of the requirements of imperial services for "petty repairs" were before the Government. The estimates now presented by the Accountant-General show that Rs. 79,000 will be wanted for the "petty repairs" of the several imperial services in Bengal during the year 1872-73. The budget estimate for last year under this head came to Rs. 70,700, while the actuals of the year 1870-71 were Rs. 62,700. The sum allotted to Bengal for these "petty repairs" by the supplementary decentralization orders of the 20th March 1871 was only Rs. 65,080.

2. The year has already begun, and it is too late for the Government to review minutely each of the items in this estimate; but it seems to the Lieutenant-Governor that every department will, according to the Accountant-General's estimate, get as much money as it chooses to ask for. The estimate is about 14 per cent. higher than it was last year, and the total sum asked for is 20 per cent. more than the amount allotted to Bengal under the decentralization orders for this particular purpose. His Honor desires that in future years the "petty repairs" estimate for imperial services may be submitted to Government before the end of December, in the same way as the budget estimates for other provincial services, so that the requirements of the several departments may be reviewed before the "petty repairs" estimates are incorporated into the provincial budget. For the present year the Lieutenant-Governor will pass the estimates now submitted, subject to a deduction of Rs. 3,000 from the estimate for "criminal courts," and to the same deduction from the estimate for the "Excise Department." The total of the estimate will be thus reduced to Rs. 73,000, as per appended statement. For this sum a grant is now made, to be taken against the reserve of Rs. 1,72,300 shown in statement A of the published provincial budget papers.

Appendix to Resolution on the "Petty Repairs" Estimate of 1872-73.

Budget estimate of charges for petty construction and repairs for 1872-73.

Departments.	Local estimate.	Actual of 1870-71.	Budget estimate.		Remarks.
			1871-72	1872-73.	
Land Revenue	18,617	16,357	17,387	18,600	Larger expenditure will be necessary under the operation of the Government order of 5th April 1872, prohibiting the construction of pucka sub-divisional buildings in the Eastern districts.
Excise on Spirits and Drugs ...	27,962	21,123	24,395	27,000	Larger amounts are asked for by several officers to provide for thorough repairs of some of the distillery buildings and for construction of masonry drains. The buildings in Sarun are specially represented to have been much damaged by the last inundations.
Customs	2,480	1,405	2,730	1,500	
Salt	1,898	3,882	200	1,898	The local estimates for 1871-72 were for Rs. 1,098, but some of the items being mixed up with "contingencies" were not separately sanctioned. The increase is to provide for repairs of warehouses in Balasore and for works in the Sulkea golahs, hitherto executed by the Public Works Department, but which the Board of Revenue have directed to be carried out by the Superintendent of the Golahs.
Administration—					
Commissioners	580	65	580	580	
Board of Revenue	60	.....	.....	.....	There has been no expenditure since 1869 70, and the charge in that year was Rs. 7-8 only.
Minor Departments—					
Meteorological Reporter ...	600	132	600	600	This is for the Meteorological Department generally.
Law and Justice—					
High Court	663	.....	663	.. ..	The provision is for repairs of the stables and out-offices attached to the Appellate High Court, which being a Government building, should be executed by the Public Works Department.
Civil Courts	16,040	11,230	12,465	16,000	Rs. 2,000 of the increase is for new buildings in Mymensing, sanctioned in Government orders No. 5296, dated 30th November 1871. New buildings are also required in Hooghly and Dacca, and more extensive repairs in Jessore, Lohardugga, and Sylhet.
Criminal Courts	11,585	6,565	10,055	11,585	Several buildings are required for *post mortem* examinations, and the expenditure will be larger for the reasons stated under land revenue
Court of Small Causes	830	1,343	649	830	The additional provision is for the Goalundo bungalow, which has been damaged by the inundations.
Master Attendant's Office ..	300	. ...	.. ..	.....	The Master Attendant's office is held in a private building.
Marine—					
Ecclesiastical	.....	6	1,000	.. ...	The provision in 1871-72 was for cemeteries, which are now a Public Works charge.
Political	400	586	... ..	400	Nothing estimated by local officers for 1871-72.
Total ...	82,015	62,694	70,724	78,993	

Note.—The above is the estimate for "Petty Repairs" as submitted by the Accountant-General; a sum of Rs. 3,000 has been disallowed by Government out of the estimate for the "Excise Department," and a similar sum out of the estimate for "Criminal Courts" The total grant is therefore Rs. 73,000 in place of Rs. 78,993, as per the above estimate.

Reorganization of the Sanskrit College.

No. 1632, dated Calcutta, the 17th May 1872.

From—C. BERNARD, ESQ., Offg. Secy. to the Govt. of Bengal.

To—The Director of Public Instruction.

IN continuation of former correspondence on the subject of reorganising and reducing the staff of the Sanskrit College, I am directed to inform you that the Lieutenant-Governor having, as you are aware, at an early stage of the discussion, expressed his willingness to consider this matter with reference to the wishes of many members of the Hindoo community, has had interviews with Pandit Issur Chunder Vidyasagor and the Principal of the College, and has taken opportunity of otherwise discussing the matter. He finds the suggestions of the gentlemen whom he has named, and of other competent persons, to be so moderate and reasonable that he has much pleasure in being able substantially to comply with their wishes pending further trial of the arrangements now to be made. I am accordingly desired to communicate the Lieutenant-Governor's present views and instructions.

2. The term 'abolition' has been erroneously used in regard to the chair of Hindoo Law. The Lieutenant-Governor only sanctioned in ordinary official course the proposal of the Director of Public Instruction to take the opportunity of the retirement of one of the Sanskrit Professors to redistribute the duties and reduce their numbers. It was, and is intended that the teaching of Hindoo Law shall be fully maintained. There will still remain three Professors and one Assistant Professor for the instruction in the higher Sanskrit learning of students numbering no more than twenty-nine in the past and twenty-three in the present year, and who devote only a portion of their time to Sanskrit, since they receive at the same time a high English education in several branches. The Lieutenant-Governor does not understand that the gentlemen whom he has consulted seriously object to this arrangement. The Sonatun Dharma Sobha, in a communication addressed to His Honor, seem fully to accept it. The only question is as regards an increase to the salary of Professor Mohesh Chandra. Looking to the distinguished character and position of that eminent Professor, the Lieutenant-Governor is willing again to consider the question of his salary. His Honor learns from the Principal that the subject of Smriti or Hindoo Law is now taught in a most satisfactory manner by the Professor in addition to some other duties. He accordingly sanctions a personal allowance of Rs. 50 per mensem as an addition to the Professor's salary, subject to any eventual re-arrangement of the staff when we have experience of the working of present changes. The arrangement in regard to the reduction in the number of Sanskrit professorships and redistribution of the duties has been carried out, and His Honor is very glad to know that it is working in so satisfactory a manner.

3. The really strong feeling on the part of the native gentlemen interested in the Sanskrit College, the Lieutenant-Governor finds to be in favor of the retention of some English classes in that institution. On that subject too the learned Principal, and the other gentlemen whom His Honor has consulted, have shown the utmost willingness to make reasonable concessions, and His Honor is quite disposed to meet their views as far as he can. It is generally conceded that the retention in the Sanskrit College of the two higher classes of English literature cannot be justified, and that students desirous of going in for the B.A. degree in English may properly attend the English classes of the Presidency College, which are in fact under the same roof as those of the Sanskrit College, a special arrangement, however, will have to be made in regard to fees. But there is a strong desire to maintain the two first College classes teaching up to the First Arts standard. The Lieutenant-Governor has had much doubt whether the number of students in these classes, only sixteen at present, is sufficient to justify this course. But looking to the considerations urged by the Principal and others, to the fact that the Presidency College classes are already very full, and to the fact that, though the two Colleges

are so near together, the fees at the Presidency College are much higher, —looking also to the evidently strong feeling of the Hindoo community on the subject, the Lieutenant-Governor has been induced to sanction the arrangement experimentally, on the understanding that everything that is possible will be done to throw the doors of these classes as wide open as possible, and to obtain a larger number of students; no persons of Hindoo race and good moral character being rejected on any class or religious ground. The Lieutenant-Governor has accordingly arranged with the Principal to re-call to the College Baboo Syama Churn Gangoolee, and his place at Maldah should be otherwise filled. This will enable the Principal to carry on the two College classes to the First Arts standard, and the Lieutenant-Governor sanctions for the present that arrangement.

4. His Honor hopes that the reorganization of the Sanskrit College will be thus arranged in a manner which will content those who are interested in the well-being of the College, while some legitimate saving of an excessive expenditure is at the same time effected. He desires again especially to acknowledge the fair and moderate spirit in which he has been met by the gentlemen interested in the College whom he has consulted.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, State and Prospects of the Crops in the different Districts of the Lower Provinces of Bengal, as reported to Government for the week ending 18th May 1872.

No	District.	Date of return from each district.	Rainfall at Sudder Station in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS
1	Patna ..	1872. May 18th	0·58	Sultry at the close of evening. Thursday night high south-westerly wind attended with heavy rain.	Crops nil.	
2	Gya ...	„ 18th	Nil ...	Very hot ...	There are no crops on the ground at present.	
3	Chumparun ...	„ 18th	.....	Cloudy; east winds ...	The late rain has been very beneficial both to the indigo and cheena crops Dhan, kuddo, shama, tanguee, &c., are being sown.	Heavy showers of rain on Monday and Thursday.
4	Sarun ...	„ 18th	1·31	Fair weather; comparatively cool; east winds.	The prospects of indigo are favorable; "cheena"—the early sowings are being cut. "Bysakhi cotton"—the pods are being picked. Sugarcane has germinated well. The rain has been beneficial to indigo, sugarcane, and sati dhan, and will also to some extent admit of "makai" (indian corn) being sown on lands bordering along the Gunduck side.	
5	Shahabad ...	„ 18th	·75	Variable east wind; heavy storms on the night of Friday, accompanied with hail and rain. Thermometer— Maximum ... 103° Minimum ... 70° Barometer— Highest reading 29 760 Lowest ditto 29·420	Crops nil.	
6	Tirhoot ...	„ 18th	1·82	Cloudy; stormy on the midnight of the 15th instant.	The recent fall of rain has been of very great benefit to indigo, moong, dhan, and cheena crops. Prospects of indigo are far better than during the last two years in the southern part of the district. Its prospects are also fair in the northern part. Cotton looking tolerably full and strong in the Tajpore sub-division.	
7	Bhaugulpore ...	„ 18th	0·45	Strong easterly winds and rain since last report Soopool ... 2·54 Mudhoopoorah ... 1·68 Banka ... 2 4	In Soopool the recent rain has been all that could have been desired for bhadoi crops and general cultivation purposes. The rainfall at sudder sub-division is hardly sufficient; ploughing has commenced.	
8	Monghyr ...	„ 18th	0 50	Stormy with strong east wind, and a little rain, and in Jamooe fair and hot	No crops on ground except indigo; prospects very good.	
9	Purneah ...	„ 18th	.....	.....	.....	Return defective

No.	District.	Date of return from each district.	Rainfall at Sudder Station in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
10	Rajmehal ..	1872. May 18th	·22	Cloudy and threatening weather; rain fell in northern part of district; on the south little or none has fallen.	Indigo crop promises well, and lands are ploughed and much sown in the northern part; but in the south scarcely anything has been done for want of sufficient rain.	
11	Deoghur ...	„ 18th	·79	Cool and stormy ..	Satisfactory.	
12	Nya Doomka ..	„ 18th	·93	Cool and generally fine.	Ploughing commenced.	
13	Godda ..	„ 18th	.. .	A storm from the north-west on Wednesday morning accompanied with rain. Very hot before the rain; cooler since; appearances of more rain coming.	The ploughing has commenced for the ensuing crops.	
14	Pakour ...	.. ...	.. ...	. ...	.....	Return not received.
15	Jamtara ...	„ 18th	0·50	Seasonable ..	Sugarcane, the only crop, is doing well.	
16	Rajshahye ..	„ 17th		.. ..	.....	Return defective.
17	Bograh ..	„ 18th	2·47	Cloudy, windy, and damp, with occasional thunder-storms.	The rainfall has been ample, and ous rice is being sown.	
18	Dinagepore ...	„ 18th	3·67	Cloudy, with showers every day. On Friday there was a storm of short duration with a fall of nearly two inches of rain. Thermometer— Highest ... 88″ Lowest ... 75″	There is very little boro dhan grown in this district; the rain has benefited what crops there is.	
19	Maldah ...	„ 18th	0 82	Cloudy; rain on 4 days of the week; strong easterly wind	Prospects good. Much benefit has been done to the crops by rainfall during the week.	
20	Moorshedabad ...	„ 18th	1·91	Rainy and stormy towards end of week. Temperature cooler	Spring sowings commenced in some parts Prospects good.	
21	Pubna ...	„ 18th	2·54	Highly favorable; frequent showers with occasional heavy rains and storms with thunder and lightning.	Fair.	
22	Rungpore ...	„ 18th	4·93	Stormy and rainy A fierce gale blew yesterday morning at about 6 A M.	Good. The indigo only suffering a little from the abundance of rain.	
23	Burdwan ...			..	. . .	Not received.
24	Bancoorah ...	„ 18th	0·57	Generally cloudy; storm with rain on the 12th instant.	Rain is still wanted.	
25	Beerbhoom ..	„ 18th	3·47	Unsettled; sky overcast; rain occasionally very heavy; rain on the night of the 14th.	Lands being prepared for sowing.	
26	Hooghly ...	„ 18th	Nil ..	Clear and cloudy ..	Mangoe crop good; boro dhan are reaped; sugarcane being planted; ous crops sown; ploughing for amun crop commenced teel, cotton, and indigo, in the west dying for want of rain.	It drizzled for a few minutes on the 15th May 1872.
27	Howrah ...	„ 18th	Nil ...	Rain fell in the Bagnan, Amptah, Sankrail, Domjoor, Juggutbullubpore, and Oolooberiah jurisdictions to a slight extent only. Wind chiefly easterly: very strong at times.	Crops on the ground doing fairly well, though more rain is wanted. The amun dhan is springing up in some parts of the district.	Dengue fever continues unabated in Howrah.

No.	District.	Date of return from each district.	Rainfall at Sudder Station in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
		1872.				
28	Midnapore ...	May 18th	0·65	Generally hot and close; slight fall of rain in 2 days of the week.	Rain is very much wanted for the rice and indigo crops.	
29	Nuddea ...	„ 18th	1·34	Rain has fallen everywhere.	The people are busy in sowing rice, for which the weather has been favorable. Fear regarding late sowings of indigo is entertained, lest weeds should spring up and choke the young plants.	
30	Jessore ...	„ 18th	1·60	The weather has been uncertain last week, rain having fallen on five days during that time. The general direction of the wind has been south and south-east, occasionally west and south-west. On the night of the 14th there was a heavy storm of thunder and lightning, on the 13th and 15th also at night, but not so violent. Average height of barometer ... 29·695 Average temperature ... 83·20	From some parts of the district come complaints of excessive rain, but on the whole the prospects of the crops are good. If rain continues, much of the bheel land will be thrown out of cultivation and indigo injured.	A case of Dengue fever reported.
31	24-Pergunnahs ...	„ 18th	Nil ...	Hot; mean temperature 86° with strong south-west wind. Rain has threatened several times at Alipore, but has not fallen. In the north and east there has been a good rainfall.	More rain wanted in centre and south of district No crops on the ground except a few vegetables; but to the north and east ploughing of land is going on briskly, and some ous sowings have commenced.	
32	Dacca ...	„ 18th	2·70	Cloudy and rainy ..	Prospects of crops good.	
33	Backergunge ...	„ 11th	3·24	Hot and rainy; there were several severe gales.	Good.	
34	Furreedpore ...	„ 18th	2·36	Weather cloudy and atmosphere damp. A large amount of rain has fallen and some remarkably heavy showers.	Fair ..	General health continues satisfactory.
35	Mymensingh ...	„ 11th	1·94	Cloudy, cool, showery	Cultivation active; prospects of crops satisfactory.	
36	Sylhet ..	„ 11th	5·49	Cool and showery. Maximum temperature 86°; minimum 68′; mean of highest reading 82·4; mean of lowest 71·70. Approximate of week 770.	A little dry weather is necessary, or else the year's crop now sown will suffer.	
37	Cachar ...	„ 11th	1·47	Cloudy and rainy ...	Prospects favorable.	
38	Chittagong ...	„ 11th	1·05	Rainy and windy ...	The late rain has been favorable to early sowings.	
39	Noakhally or Bullooah	„ 11th	5·97	Rainy weather during past week.	Chillies reaped and linseed partially reaped; ous dhan still being sown; the seedling ous crops progressing favorably.	
40	Tipperah ...	„ 18th	1·80	Heavy rain in the interior.	Growing crops still satisfactory, but likely to be injured if the incessant rain continues.	More sunshine wanted; the rainy season appears to have commenced.
41	Hill Tracts of Chittagong.	„ 11th	5·85	Rainy and cloudy ..	Good.	

No.	District.	Date of return from each district.	Rainfall at Sudder Station in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
		1872.				
42	Cuttack ...	May 18th	0·10	There have been slight showers in parts of the district, but the fall has been very partial.	Rain greatly wanted. Jajpore is the only subdivision in which the ground has been to any extent prepared for the next rice crops. In the rest of the district, owing to the absence of rain, no progress has been made Along the coast the people are said to be suffering from a deficiency in the supply of water The whole country is parched and burnt up.	
43	Balasore ...	„ 18th	0·80	Cloudy and close. Slight rain at Bhuddruck.	Ploughing in full swing; the rain that has fallen has been very timely.	
44	Pooree ...	„ 11th	Nil	Very hot ...	Want of rain still complained of.	
45	Hazareebaugh ...	„ 18th	0·32	Seasonable ...	Nothing on the ground.	
46	Lohardugga ...	„ 18th	0·64	Close and cloudy ...	In some parts the very low lands have been sown with dhan.	
47	Maunbhoom ...	„ 18th	0·6	Showery; winds variable; cool.	Sugarcane has been planted out and land under preparation for early broadcast crop of rice.	
48	Singbhoom ...	„ 11th	Nil	Seasonable, but hot ...	Sowing about to begin.	
49	Durrung ...	„ 11th	3·07	Changeable ...	Ploughing going on. Prospects as to tea contradictory.	
50	Nowgong ...	„ 11th	8·42	Weather rainy and unsettled with squalls	Spring crops doing well. Tea prospects excellent up to date.	
51	Seebsaugor ...	„ 11th	1·60	The weather during the week was warm, damp, and unhealthy.	Prospects of the ous dhan crops good. The tea prospects not quite so good as at the commencement of the season owing to heavy rain.	
52	Kamroop ...	„ 11th	4·48	Rainy, excepting 9th and 10th.	Reports of the crops and tea favorable.	
53	Luckimpore ...	„ 11th	1·38	Weather throughout the week warm and seasonable. Thermometer— Maximum ... 90° Minimum ... 75°	Satisfactory.	
54	Khasi and Jynteah Hills.	„ 11th	1·68	There have been heavy squalls and some rain, but weather not unseasonable.	Sowing going on.	
55	Naga Hills ...	„ 4th	Nil	Weather much as usual; heavy showers of rain and high wind.	Satisfactory in all respects.	
56	Julpigoree ...	„ 18th	2·74	Cool and pleasant ...	Good.	
57	Gowalparah ...	„ 11th	5·20	Misty, rain, passing showers, drizzling rain, thunder, lightning and visibility of objects.	State of the crops is the same as reported last week.	
58	Garo Hills ...	„ 11th	4·13	Rainy ...	Crops coming up.	
59	Darjeeling ...	„ 18th	2·14	.....	In the hills phaphur, chota dhan, chota bhoota, and potatoes are prospering; in the terai jute and heamtee dhan are being sown, and jennera and bhadoi have been sown.	Cholera has left some plantations and has attacked other plantations in the district. This day reports have been received, which led the Deputy Commissioner fear that Europeans have been attacked.
60	Cooch Behar ...	„ 11th	4·95	Showery; cool after the showers, and at other times hot.	Nothing particular to report.	

Published for general information.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four-hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain gauge is 1½ feet, and that of the anemometer, 70 feet, 10 inches, above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

HOOGHLY;
RAILWAY DEPY. COLLECTOR'S OFFICE,
The 23*rd April* 1872.

OBHOY CHURN MULLICK,
Railway Deputy Collector.

NOTICE is hereby given that the proprietary right of Government to the undermentioned plots of Class B land, situated in the district of Hooghly, relinquished by the East Indian Railway Company and resumed and taken possession of by Government, will be put up to sale at the Hooghly Collectorate, at 11 A.M. on Friday, the 14th June 1872, corresponding with 1st Ashar 1279 *B.S.*

2. The purchasers of these plots will be subject to the following conditions :—

1*st.*—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

2*nd.*—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

3*rd.*—The plots will be sold revenue free to the highest bidders.

With the addition of the following condition—

The purchasers shall be put up in possession on receipt of the orders of the Collector confirming the sales. But such possession shall be liable to be disturbed in case the final sanction of the Member of the Board of Revenue in charge should not be accorded to the proceedings :—

Educating Girls in Dacca.

No. 155, dated Dacca, the 16th April 1872.

From—C. B. CLARKE, ESQ., Inspector of Schools, South-East Division.

To—The Director of Public Instruction.

IN reply to your memorandum No. 1371, dated 9th April 1872.

I have issued notice to all the parties interested that the Dacca Female Normal School will be finally closed on 31st July 1872.

The opportunities for education for girls in Dacca are—

(1)—The Bangla Bazar Girls' School (forty-one girls on the rolls), which is one of the best girls' schools in East Bengal. The Secretary is W. B. Livingstone, Esq., but the school is conducted without any missionary objects or efforts. There is a head pundit, one mistress, and a third pundit. The girls leave as usual at ten to twelve years of age, but by that time they can read and write well. Grant-in-aid, Rs. 30-8.

(2)—The Lalbagh Girls' School (twenty-five girls on the rolls), which is a branch of the Bangla Bazar Girls' School, held at the north end of the town, because girls will not walk far from home to attend school. The educational standard of this school is very low. No grant-in-aid.

(3)—The Naraindia Circle Girls' School (twenty-five girls on the rolls), a branch school of the Naraindia Circle, kept in the suburb east of the town for the girls who will not walk so far as Bangla Bazar. This is virtually a Government girls' school costing Rs. 8 per month.

(4)—Several girls attend the various town patshalas. I have before noticed that so long as girls are infants (and these are the only girls who as yet come to any schools) the people have no insuperable objection to their reading in school with the boys. Yesterday I found in the Bangla Bazar circle patshala two girls sitting, who read there in preference to walking two hundred yards further to the Bangla Bazar Girls' School.

(5.)—There is on foot a scheme for an adult female *school* (not a zenana teaching) in Dacca, promoted by the progressive Brahmo Somaj men. As this party really carry out their rule that no women shall be married under sixteen, nor rigidly imprisoned afterwards, there is a better chance of a genuine development of female education here than in any other direction so far as I can see.

(6.)—There is also a private girls' school of about fifteen girls, promoted chiefly by orthodox Brahmo Somaj men, kept in the Dail Bazar.

No. 1740, dated Calcutta, the 27th May 1872.

From—C. BERNARD, ESQ., Officiating Secretary to the Government of Bengal.

To—The Officiating Director of Public Instruction.

I AM directed to acknowledge the receipt of Mr. Atkinson's endorsement No. 1770, dated 7th instant, forwarding copy of a letter from Mr. C. B. Clarke, Inspector of Schools, South-East Division, reporting on the condition of female education at Dacca and the opportunities for such education outside the Government Female Normal School.

2. The Lieutenant-Governor considers this by far the most gratifying account of female education which he has yet received; it shows a clear disposition on the part of the people voluntarily to educate their girls. His Honor will gladly give any reasonable aid towards the improvement and expansion of these schools which the Inspector can recommend, and he will be ready to aid the Brahmo Female School if the proposal for opening adult classes, at which teachers can be trained, is carried out. The funds saved from the Government Normal School which has been unsuccessful will be available for these purposes.

3. His Honor desires that Mr. Clarke will make it his special care that the Christian girls, hitherto educated in the Normal School are cared for somewhere. There was indeed, as shown by Mr. Clarke, no justification for going to the expense of a fictitious Normal School in the expectation that these girls would become qualified teachers; but still His Honor would be very sorry that they should be without education, and he would give some extra assistance on their account to any missionary or other school that will take them in and care for them.

Educational Census in the Baraset Sub-Division.

No. 128, dated Calcutta, the 13th April 1872.

From—H. WOODROW, ESQ., Inspector of Schools, Central Division.

To—The Magistrate of the 24-Pergunnahs.

I HAVE the honor to submit for your information the statistics of the educational census of 103 villages in the Basirhat sub-division of Baraset. The census was made in January, with the assistance of the police and the census enumerators, but the computation of the returns took a much longer time than was anticipated, and when it was completed I was travelling rapidly in the wild parts of Chyebassa and Chota Nagpore, and had no convenient opportunity to take up the subject. The portion of country selected for the purpose extends westward for 7 or 8 miles from the Ichamati river, and about 1 mile north and about 4 miles south of the Baraset road. It lies about 60 miles distant in a straight line from Diamond Harbour, where the first educational census was made, and it was selected with a view to take a class of the community

not entirely agricultural. Before the enumeration, it was known that this portion of the country contained a good many Mussulmans, but I believe it was not known that they formed a majority of the community. The separate families or houses are thus classed—

Mussulmans	3,447 houses.
Hindoos	2,861 „
Christian	1 house.
Unknown, being women who have become prostitutes ...	25 houses.
Total ...	6,334 „

Here the Mussulmans are to the Hindoos in the proportion of 5 to 4; at Diamond Harbour they were as 31 to 364: hence the Mussulmans near Basirhat are, as respects Hindoos, ten times more numerous than they are at Diamond Harbour. The 103 selected villages lie about 10 miles south of Narkelberia, where in 1831 the Mussulman *emeute* raised by Titu Mir was suppressed in a battle.

It may not be altogether foreign to the subject of a letter about education to mention a circumstance told me on the spot, and illustrative of the ignorance and credulity of the people in these parts. Titu Mir persuaded his followers that by the special favor of God the balls fired at them would not hurt them. The Brigadier commanding the Hon'ble Company's troops, anxious at first not to kill unnecessarily, gave orders to his men to fire over the heads of the rioters. This was done, and since no one fell, the poor people were confirmed in their belief that bullets could not hurt them, and rushed on with fancied impunity to destroy the British force. It then became necessary to undeceive them, and a volley was fired at close quarters with deadly effect on the deluded fanatics.

Narkelberia is near the small village and indigo factory of Hooghly on the Ichamati river. The accurate Marshman in his History of India confounds this little village with the large town of Hooghly on the Ganges, 30 miles distant. The 103 villages contain 6,334 houses with 34,818 inhabitants. This gives on the average 61·5 houses to a village and 5·5 persons to a house. The largest villages are Ghoraras and Mirzapore. Ghoraras has 247 families, of whom 184 are Mussulmans and 63 Hindoos; Mirzapore has 232 families, of whom 29 are Mussulmans and 203 Hindoos. These numbers indicate that both Mussulmans and Hindoos have a tendency to keep separate one from the other; and the inference is strongly confirmed by the fact that in the 103 villages, 13 villages contain no Mussulman families whatever, and 17 villages contain no Hindoo families. Thirteen other villages have less than one-tenth of the number of their families Hindoo, all the rest being Mussulmans; while in Hindoo villages if Mussulmans enter at all, they enter in a larger proportion than one-tenth, for among the Hindoo villages which admit Mussulmans, only two have less than a tenth part of that creed. Hence of the 103 villages 30 are either purely Mussulman or have more than nine-tenths of their inhabitants of that creed, and 15 are either purely Hindoo or have more than nine-tenths of their families Hindoos. These facts seem to indicate that Mussulmans are more rigid in their exclusiveness than Hindoos, for in 30 villages out of 103, either the whole or more than nine-tenths of the families are Mussulman, while in only 15 villages are the families either exclusively or more than nine-tenths Hindoos.

In the 103 villages 34,818 persons were enumerated, of whom 17,501 were males and 17,317 females. The males are more numerous than the females by 184, or by 1 in a 100; hence the census gives nearly an equality of the sexes. When, however, we come to consider the numbers of males and females with reference to age, this equality of the sexes vanishes. Of those above twelve years of age, there are 11,017 males and 12,280 females, or the women exceed the men by 1,263. On the other hand, of those under twelve years of age, the boys number 6,484 and the girls only 5,037, or the boys exceed the girls by 1,447. Hence in every 100 of the population there, are excluding fractions, 31 men, 19 boys, 36 women, and 14 girls, being 50 males and 50 females. In every 100 children under twelve years of age, there are 58 boys and 42 girls. At Diamond Harbour, where the females were more numerous than the males, it was still found that the boys exceeded the girls in number. In every 100 males there are 63 above twelve years of age and 37 below, while in every 100 females there are 71 above that age and 29 below. We may vary the calculation and say that for every 100 boys under twelve years we have 170 men; while for every 100 girls under twelve years of age we have 246 women. This shews that the life of a woman above twelve years of age is half as good again as the life of a man in spite of all the dangers from child-birth, &c.

These results may follow from one or other of several causes—

1*st*.—More males may be born than females; this is not in the usual course of nature.

2*nd*.—More females, when young, may die than males, either from neglect or other causes. This is the case in parts of Rajpootana.

3*rd*.—Parents may object to speak about their marriageable daughters, and may not give correctly their number.

4*th*.—Women may live longer than men. This supposition receives some support from the native proverb that "widows never die."

If there were good grounds for the first or second hypothesis, then we should have to give great importance also to the fourth. But taking the balance of probabilities, I am inclined to give most weight to the third reason, and to think that native parents do feel a delicacy in speaking about their daughters who are arriving at the age of puberty, and so have omitted to mention their existence. This supposition would give us several more females to be added to our list, and would probably bring the females to exceed the males in number.

From the statistics of the 30 Mussulman or nearly Mussulman villages, and those of the 15 Hindoo or nearly Hindoo villages, we obtain the following results:—

In the 30 Mussulman villages—

		Percentage on total population.	
2,156	males above twelve years	28	
1,658	„ below ditto	21	
3,814			49
2,686	females above twelve years	36	
1,167	„ below ditto...	15	
3,853	Total females ...		51
			100

In the 15 Hindoo villages there are—

1,195	males above twelve years ...	34	
552	„ below ditto	15	
1,747	Total males ...		49
1,328	females above twelve years	39	
458	„ below ditto...	12	
1,786	Total females ...		51
			100

By comparing these numbers with one another, and with the results deduced from the total population, we see that they are the two extremes, and the total result is nearly their mean. We see also that the Hindoo villages have only 27 children under twelve years of age, while the Mussulman villages have 37. Hence either the Hindoos overstate and the Mussulman understate their age, or more children, both boys and girls, die among the Hindoos than among the Mussulmans. The Mussulman year is shorter by 11 days than the Hindoo year, and therefore in 12 years it would fall 132 days short of the Hindoo year. This consideration, however aggravates the difficulty. It is very desirable that the question should be thoroughly investigated why we find that girls under twelve years of age are less numerous than boys, while women are more numerous than men. In every hundred of the population the Hindoo villages have 12 girls to 15 boys, but 39 women to 34 men.

Occupations.—Not less than 159 different occupations were mentioned as followed by the 6,334 heads of families. Fifty different occupations were followed by men of the middle grades of society, and 109 by men of the lower grades. Among the middle grades were a few Government servants, several men dependent on realized property, among whom the gantidars were distinguished as following two or more callings, such as sugar manufacturers, shop-keepers, and merchants,—professional men were numerous. Some priests not only discharged their religious functions, but were entered also as lakhirajdars, shop-keepers, and money-lenders. The most

numerous of the professional men were the clerks and lawyers under a great variety of appellation. Not less than 25 callings of a professional character, and eight different trades, were named. Among the callings of the lower classes there were mentioned 16 different kinds of menial service, one of which was entered as a milliner's shop-keeper; there were also 29 different sorts of shops, 15 kinds of handicraft, 13 kinds of skilled labor, 4 kinds of common labor, and 7 callings of a disreputable character.

The agriculturists were very numerous, and several of them followed other callings besides tillage. They were also money-lenders, goldsmiths, silversmiths, carpenters, barbers, milkmen, washermen, &c. Among the artizans, were masons, potters, carpenters, house-builders, boat-builders, goldsmiths, blacksmiths, braziers, weavers, shell-cutters, &c. Several midwives exercised their callings in conjunction with other trades. I have partly prepared tables to discuss the question of occupation fully, but they are too voluminous, and therefore I think it better to refrain from entering further on the subject in the present letter.

I simply mention that the physical and spiritual wants of a community of 6,334 families are supplied by men in 159 different callings, among whom the following are the most numerous. I notice that there is one family of priests for every hundred families.

	Families.
Agriculturist	2,332
Day-laborer	1,573
Weaver	303
Fisherman	187
Betel-seller	108
Palki-bearer	106
Gantidar	97
Beggar	96
Goldsmith	80
Oilman	67
Priest	64
Shop-keeper, petty	63
Gantidar and agriculturist	58
Barber	53
There are only—	
Potter	48
Blacksmith	45
Carpenters	14

The caste of the people is to some degree known from their occupation.

Caste.

The 2,861 Hindoo families are distributed among forty different caste. The following are the castes represented by more than 100 families :—

	Families.
Brahmins	211
Kayasthas	232
Goala	123
Kaibarta	189
Chasadhopa	569
Kowra	192
Muchi	246
Chandal	166

The castes numbering between 50 and 100 families are the kamar (blacksmith), kumar (potter), napit (barber), barui (pan-cultivators), jugi (weavers), and bagdi.

Educational attainments.—As to educational attainments, the Educational Department not being provided with powers summarily to examine the people in reading, writing, and arithmetic, it was necessary to accept the opinion that they entertained of their own knowledge or that their neighbours entertained about it. The classification of attainments is under three heads—

I.—Those who can read, write, and count, whether little or much.

II.—Those who can read or write or count ever so little; to be able to sign his name, admits a man to this class.

III.—Those who could neither read, nor write, nor count.

This classification is in accordance with the tenor of the wish of His Honor the Lieutenant-Governor to know how many of the people could read, write, and count, both fairly and imperfectly. The division of those who can read or write, so far as to sign their name or count, was intended to shew the extent of the imperfect knowledge, but it has been found in practice too indefinite, and consequently very difficult to manage. The scope of the term "count" is very uncertain. Few can be found so ignorant as not to be able, in the English sense of the word, even to count up to ten or twenty, while in the more extended sense of the word as used in Scotland, many people innocent of reading and writing could still manage by the light of nature and practice to make out simple questions of wages and bazar purchases, and were consequently considered able to count. I feel therefore that it might lead us into error to put much stress on the amount of imperfect knowledge. For example, in the Diamond Harbour village the percentage of those who could read, write, and count, on the total population of 1,951 was 4·76. In the Basirhat villages, on a population of 34,818, the similar percentage was 3·1. With regard to imperfect knowledge, the percentages were 7·1 at Diamond Harbour and 4·5 at Basirhat. If two kinds of attainments be added together, their percentage at Diamond Harbour was 11·86 and at Basirhat 7·6, and if females were to be excluded altogether from consideration, the above percentages taken on the male population only would appear 24·4 and 14·9 respectively.

The question now arises, how is it that Diamond Harbour, which is barren of schools, is so much in advance of Basirhat, where there was formerly an English school, and where still a few vernacular schools exist? The answer is found in the fact that at Basirhat the Mussulmans are ten times more numerous than they are at Diamond Harbour, and Mussulmans in the lower orders of society do not care for education. At Diamond Harbour Mussulmans were to the Hindoos as the days of a month to the days of a year, but in Basirhat they form a decided majority of the population. By reference to the comparative amount of knowledge in Hindoo and Mussulman villages, it is shown that in the 13 Hindoo villages 14·8 per cent. of the inhabitants can read or write or count, while in the 17 Mussulman villages only 3·64 per cent. have similar knowledge. If we take in also the 13 villages almost entirely Mussulman and the two villages almost entirely Hindoo, the percentages for the 30 Mussulman and 15 Hindoo villages are 3·85 and 13·59 respectively. These results show conclusively that the increase of the Mussulman element in the populations lowers the amount of education, while the increase of the Hindoo element raises it.

Only six out of the 17,407 females enumerated in the census knew anything of the three R's, and five of the six were in the same village of Dandirhat, and were by caste Kayasthas. The relatives of three were clerks, and of the other two traders. The sixth lady was at Mirzapore. Mirzapore and Dandirhat in the number of inhabitants stand second and third in the list, and their people are chiefly Hindoos. No Mussulman female can either read, write, or count. No girl below twelve years of age, whether Hindoo or Mussulman, has any educational attainments whatever.

Of the 11,017 males above twelve years of age, 1,051, or 9·53 per cent. of the number, can read, write, and count; 1,023, or 9·28 per cent., can read, write, and count imperfectly. Hence 2,074, or 18·82 per cent., have received some education, and 8,943, or 88·17 per cent., are utterly untaught. Of the 6,484 males under twelve years of age, only 27, or ·41, of the boys can read, write, and count, and 520, or 8·01, can do so imperfectly. This result was so surprising to me that I had to make special inquiry about it. Basirhat once had an English school at the station. It was closed a year ago because the Deputy Magistrate and amlas, who came from a distance, complained that the people of the place threw on them the whole burden of supporting the school, and they would not stand it any longer. There is an English aided school at Dandirhat, a vernacular aided school at Tantra, and indigenous schools at six of the villages enumerated. These eight schools contain 300 pupils, of whom 49 in the two aided schools, and 43 in the six indigenous schools, are able to read, write, and count. But out of these 92 pupils only 25 are below the age of twelve years; and of these 25, there are 14 in the two aided schools and 9 in the six indigenous schools. In the mofussil boys do not begin their schooling so early as near Calcutta. A Brahmin at Basirhat does not think of sending his son to school till seven years of age, and the other castes are a year or two later. Then in the indigenous schools much time is spent in tracing out letters and in learning the multiplication tables. Hence in his first twelve years a Basirhat boy has only about three years at school, and this explains why the percentage is so small. I am inclined also to think that boys were dealt with more strictly than men were. The slow progress apparently made in these three years will be the subject of further inquiry. Out of the 17,501 males in the population, 2,621 only, or 15 per cent. of the males, or 7·6 per cent. of the total population, have received any education whatever.

The facts mentioned in this letter may be thus summed up :—

There are 61·4 families in each rural village, 5·5 persons in each house or homestead. Mussulman villages have 5·9 persons to a house, while Hindoo villages have only 4·9 persons, or

exactly the same as in the Hindoo villages at Diamond Harbour. Hence, in estimating the population from the number of houses, we should give 5 for Hindoo villages, and about 5·5 for mixed Hindoo and Mussulman villages.

Only 3·11 per cent on the total population can read, write, and count to a useful extent, though 7·55 per cent have received some education. Women in the mofussil are without education. Hindoos are more favorable to education than Mussulmans in the proportion of 3½ to 1.

Enquiry must be made why education cannot commence at an earlier age than it seems to begin, and why the number of girls under twelve years of age is considerably lower than the number of boys.

No. 1584, dated Calcutta, the 16th May 1872.

From—T. J. Chichele Plowden, Esq., Officiating Under-Secretary to the Government of Bengal.

To—The Director of Public Instruction.

With reference to your endorsement No. 1530, dated the 19th April 1872, I am directed to request that you will be so good as to convey an expression of the Lieutenant-Governor's special thanks to Mr. Woodrow for his report on the educational census of 103 villages in the Basirhat sub-division of Baraset.

2. The Lieutenant-Governor observes that the report is very interesting and instructive, but very sad and disappointing, particularly as regards the Mahomedans. It seems to show how extreme the want of primary education really is.

3. His Honor would be glad to know if any other Inspectors of Schools have taken similar measures for collecting educational statistics in their respective circles.

4. Printed copies of Mr. Woodrow's report are herewith forwarded, as requested.

Papers regarding the reduction of expenditure on Colleges and Zillah Schools within Budget Limits.

(RESOLUTION.)

GENERAL DEPARTMENT.

EDUCATION.

Calcutta, the 24th May 1872.

READ the following papers:—

Government orders No. 78, dated 9th January, on the educational budget.

The Director of Public Instruction's letter No. 227, dated 23rd January, explanatory of the departmental budget.

Resolution dated 8th March, being final orders on the education budget of the year 1872-73.

Resolution dated 8th March, appointing a Committee to report upon the best mode of giving effect to the budget orders in regard to certain colleges, in regard to Government higher schools, and in regard to classes and scholarships for physical science and surveying.

RESOLUTION.—Taking the paragraphs of the Committee's report in the order they stand, and without recapitulating what is said in that report,* the Lieutenant-Governor desires to record the following remarks and orders.

* The report will be printed and circulated with these orders.

2. *Para.* 2 *of the report.*—There seems to be some miscalculation with respect to the *net* cost of colleges for general education. The cost of the special colleges is deducted from the total grant, and a further deduction is made for the whole of the fee income, which is set down at Rs. 1,67,000. But if we deduct the cost of special colleges and departments, we must credit "general education colleges" with the fees received in the special departments, which in the law departments at any rate are very large. The accounts for the year 1871-72 have not yet been closed, but the Director's report for the year 1870-71 shows the whole income of the general colleges from fees and endowments to be about Rs. 1,14,000, or, including collegiate schools, about Rs. 1,48,000. About this sum, and *not* Rs. 2,23,000 as put by the Committee, must be taken as the income of the general education colleges from fees and endowments. Thus the *net* cost of the general colleges in Bengal, excluding the Hooghly College, which is wholly maintained by endowments and fees, will be nearly three lakhs of rupees; if to this be added the cost of scholarships tenable at colleges, the net cost of these colleges to Government will be a good deal more than three lakhs a year.

3. *Para.* 3 *of the report.*—The Lieutenant-Governor observes that the cost of colleges as given in the Committee's report does not correspond with the figures shown at page 19 of the Director's last report as the "expenditure on colleges." Possibly the latter excludes contingencies, and perhaps it debits against the collegiate schools the assistant professors on Rs. 400, whose salaries according to the Committee ought to be debited against the "college establishment." From the Committee's report it would seem that the cost of each college student was even larger than had been supposed at paragraph 7 of the Lieutenant-Governor's review of the last educational report. His Honor, on perusing the figures offered by the Committee, was very much struck with the excessive cost of the collegiate schools to Government. At such places as Hooghly, Dacca, and Kishnagurh, there are several excellent English schools which are self-supporting; but according to the table in the Committee's third paragraph, by far the greater part of cost (including a share of the contingencies) of collegiate schools is borne by Government;—at the Berhampore Collegiate School as much as four-fifths of the cost of the collegiate school is borne by Government. The Lieutenant-Governor would have been glad if the actual cost of the college department of the Sanskrit College could have been made clearer. The Committee put the whole cost of the institution, including college and school, at Rs. 30,000; the Director, at page 19 of his last report, put down the cost of the Sanskrit College at Rs. 10,629; whereas it seems to the Lieutenant-Governor that the real cost of the principal, professors,

and lecturers recently attached to the Sanskrit College, together with the college contingencies, cannot fall short of Rs. 20,000 a year.

4. *Para.* 4 *of the report.*—His Honor entirely accepts the proposals in this paragraph, except that he would call the second officer at the First Arts colleges "professor" instead of "assistant professor." He entirely agrees that there should for the present be a competent European officer at the head of the Kishnagurh and Berhampore colleges. For the professorships on Rs. 400 a month, the Government will no doubt be able to command the services of very competent native professors; and it would be better to have qualified natives for these posts than to employ European professors on salaries which would be inadequate to obtain thoroughly competent Europeans of sufficient experience. It may hereafter be a question what the salary of the professor at First Arts colleges should eventually be, with reference to the number of students attending the classes.

5. The Lieutenant-Governor would, in agreement with the Committee, have wished to continue the Kishnagurh College on its present footing till the end of the current year; but under circumstances described in a recent letter from Mr. Lobb, the Principal, it has been found that the 3rd and 4th year students would prefer to go at once to other colleges rather than remain in uncertainty. The services of the Kishnagurh professors, moreover, are urgently required elsewhere, and the arrangement for sending the students to other colleges has been carried out on such liberal terms that there have been no complaints.

6. *Para.* 5 *of the report.*—The Lieutenant-Governor, as above explained, accepts the view set forth by the Committee in this paragraph.

7. *Para.* 6 *of the report*—On the whole the Lieutenant-Governor would not aim at reducing the net grant for collegiate schools so low as Rs. 3,000 for each school; he is prepared to accept for the present Rs. 5,000 as the average *net* cost to Government of each collegiate school. Looking to the number of scholars, he would allow Rs. 6,000 as the net Government grant for the Patna and Hooghly collegiate schools, Rs. 5,000 for the Dacca, and Rs. 4,000 for the Kishnagurh and Berhampore schools. The Director will be requested energetically to set about to reduce the establishment of these schools accordingly; every vacancy in the Educational Department should be utilised for this purpose, and masters who have no special claims can be reduced.

8. As regards the Patna Collegiate School, the present arrangements may possibly be affected by the re-organization now under consideration, with the view of reducing the higher college classes and devoting the funds so saved to the encouragement of science and surveying classes.

9. The Lieutenant-Governor would prefer to give native schoolmasters opportunities to rise to higher posts, rather than to keep up over-paid appointments in order to give them promotion. It will be time enough to determine what to do with the savings accruing on the cost of collegiate schools when those savings are fully secured. It must further be remembered in these calculations that savings in the Hooghly College and School are not available for general purposes; such funds are only saved to the endowment, and must be devoted to the purposes of Mahomedan education.

10. *Paras* 8 *and* 9 *of the report.*—The Lieutenant-Governor accepts entirely the proposals made by the Committee for reducing at once and prospectively the grants for contingencies in colleges. The Director and the college principals will be requested to give full and prompt effect to these reductions.

11. *Para.* 10 *of the report*—The foregoing orders (paragraphs 7 and 9 above) will necessitate some revision of the figures in paragraph 10 of the report, but the substantial result will be the same, and the desired saving will be effected. Messrs. Martin and Willson have already been absorbed, and will not be thrown back on their former posts.

12. With respect to the Presidency College and to the suggestion (which had previously been under the Lieutenant-Governor's consideration) that additions may be required to the Presidency College staff, His Honor may remark that he has now sanctioned the maintenance for the present of two

English classes at the Sanskrit College, on condition that there is no restriction on the admission of candidates of good moral character and Hindoo race; and he thinks it probable that these classes, together with the general science and physical science classes, may take off the surplus of the Presidency College classes. The Lieutenant-Governor understands, moreover, that an important private institution in Calcutta is about to open college classes and to teach up to the First Arts standard.

13. In regard to the Hooghly College, and with reference to what has been said above respecting savings in the Hooghly Collegiate School, the Lieutenant-Governor would take opportunity to state his views more fully. The Hooghly College is decidedly by far the most flourishing and successful college after the Presidency College, and certainly should, if possible, be fully maintained. It is true that the distance from the Presidency College is not great, but then the fees at the latter institution are very high; and where there is such a demand for education, the Lieutenant-Governor would be very sorry to deprive those who cannot afford such high rates of the cheaper education which the Hooghly there affords them. For all but Mahomedans the Hooghly fees are the same as those of other Mofussil colleges, and even after the large allowance made for Mahomedans, the fee receipts are a good deal more than those of any other college.

14. Looking to the nature of the endowment, His Honor cannot but feel that in addition to the advantages offered to Mahomedans, even if Government set apart for Mahomedan education the savings now secured, the whole net cost of the general college is not fairly put on the endowment. The Lieutenant-Governor's view is, that the Government cannot feel itself in a position above reproach till, say, half the net cost (including the proposed practical science classes) is found from other sources than the endowment. Practically, he thinks that most of the money saved from Kishnagurh must be given to Hooghly, the money set free by this and other savings being formed into a fund available for Mahomedan education somewhere in these provinces.

15. *Paras.* 11 *and* 12 *of the report.*—The Lieutenant-Governor accepts the proposals of the Committee in regard to the Presidency College, except that the additional officer to be employed should be called "professor" rather than "assistant professor." There will thus be two professors available for the physical science course, who must teach physical geography and chemistry as subjects which the University programme makes compulsory for physical science students, and they must also teach the course marked "B" in the University's circular, namely, general physiology, vegetable physiology, and botany. The Lieutenant-Governor considers these latter subjects essential to the further education in scientific agriculture which it is proposed to offer to candidates for the higher executive offices under Government. It must therefore be obligatory on the new professor who may be entertained that he should teach the botanical course; instruction in the other optional science subjects will depend on circumstances, and on the ability of the professors for the time being to teach them. The course of scientific agriculture will require a professor and some establishment, but instruction of this kind will be rather a means of material improvement than an ordinary branch of education, and its cost may be excluded from the present calculation.

Para. 11 *of the report, last clause.*—The necessary apparatus for the physical science and drawing classes will be sanctioned as soon as well considered lists of apparatus and indents are submitted to Government by qualified officers.

16. As regards professors of physical science at the other colleges, the Lieutenant-Governor is more doubtful. If such a professor be appointed at the Patna College, an arrangement which will probably be very desirable, the cost will be met from the savings proposed in that college, and not included in the savings for which credit has already been taken. It will be a question whether the additional officer for Patna should be a purely scientific professor or a teacher of practical chemistry, botany, and agriculture outside the regular scientific course prescribed by the University. At any rate, so far as the Patna College is concerned, the cost of science professors may be excluded from the present calculations.

17. There remain the Hooghly and Dacca colleges. There will be difficulty in maintaining a scientific staff side by side with a literary class, especially while the University practically confines science to the two upper college classes only. As things at present stand, the Lieutenant-Governor doubts whether Government would be justified in establishing a regular science professor at either of these colleges. He would prefer to wait and see if there is a demand for teaching of this kind; meantime the Government can, by mean of scholarships, enable apt pupils from outside colleges to learn these subjects at the Presidency College.

18. The Lieutenant-Governor would wish also to establish a practical civil service department so far as may be. Setting aside the Patna College and the wants of Behar for the present, His Honor's view would be to admit to the civil service department students who have passed in the First Arts examination or the Entrance examination in one of the two first divisions, and who have also qualified in drawing, surveying, and physical geography to the extent to which these subjects may be taught at Government schools. He would require those candidates who have not passed the First Arts examination to attend the English and mathematical classes of the college, and he would have a teacher to instruct them in engineering, in the elements of practical chemistry and botany, and in physical geography more advanced than the course taught in schools. There should also be a lecturer to teach the Penal and Criminal Procedure Code, and the laws and rules required for the executive service of Government: facilities would have to be provided for the students practising gymnastics and riding. The Lieutenant-Governor would be disposed to try a department of this kind at the Hooghly College, to begin with, if competent instructors can be found. He requests the gentlemen named in the margin to form themselves into a Committee to consider and submit definite proposals for giving effect to the Lieutenant-Governor's views on this point.

Mr. Bernard.
" Woodrow
Principal of the Hooghly College.

19. *Paras.* 13 *to* 15 *of the report.*—The Committee allude to the Madrissa School, though they do not show that school in their list of Government higher schools. Both the Madrissa and the Collinga Branch School should be excluded from the present arrangements, as their condition will be separately reviewed. Regarding the reduction of the Collinga School, orders have already been passed, and the new arrangements thereon are already in operation. The Lieutenant-Governor accepts generally the Committee's scheme for classifying the net grants to Government higher schools. He would, however, make the following alterations in the classification and in the grants:—

(*a*)—He would reduce one of the classes of grants (the IV class on Rs. 1,800 a year), and he would raise the grants to the four schools at Silchar, Howrah, Burrisaul, and Mymensing to the III (or Rs. 2,100 a year) class.

(*b*)—He would put the lowest or V class of grant at Rs. 900 a year, leaving the school at Barrackpore in that class; the Ooterparah School will under agreement with its founders retain its special grant of Rs. 1,200 a year.

(*c*)—He would make a few alterations in the classification of the different schools, thus—

Midnapore	to have a	I	class grant	(Rs. 3,000)	instead of a	II	class grant.		
Chota Nagpore	"	a II	"	(" 2,400)	"	"	I	"	"
Debroghur, Nowgong, Goalparah	"	a III	"	(" 2,100)	"	"	II	"	"
Bancoorah, Gya	"	a II	"	(" 2,400)	"	"	III	"	"

Subject to these alterations the Lieutenant-Governor approves the Committee's scheme and their classification; he agrees to the proposal that the *net* grants now sanctioned shall stand for five years. The Director will be requested to intimate to the School Committees that the new grants will at once come into effect under the budget orders of the current year.

20. *Paras.* 12 *and* 16 *of the report.*—The Lieutenant-Governor accepts the proposals of the Committee for establishing classes and appointing teachers of surveying and drawing at the collegiate schools or zillah schools mentioned by the Committee, with the proviso that these classes be opened at Rampore Beauleah and Chittagong instead of at Jessore and Seebsaugor. His Honor will be glad if the Director can get survey and drawing classes opened at aided schools with the Rs. 5,000 which the Committee note will still be available out of the survey and drawing grant. The Director will be requested to arrange with Mr. Sutcliffe for sending competent teachers of surveying and drawing to the collegiate schools and to the selected zillah schools as soon as possible, so that they may open survey and drawing classes; the session begins on the 15th June next The necessity for selecting and despatching these teachers with a small supply of survey apparatus will require the Director's immediate attention.

21. *Para.* 16 *of the report.*—Until science professors are available at outlying colleges, senior scholarships of (say) Rs. 15 or Rs. 20 a month should be allotted as marginally noted to the best students who having passed the First Arts examination (and qualified in chemistry, if there should be the means of teaching chemistry at these colleges,) may wish to go to the Presidency College and prosecute the science course. At the Presidency College also eight senior scholarships of Rs. 15 and Rs. 20 each must be allotted to students who may elect for the science course. These arrangements should take effect as soon as a science course is commenced, that is (as the Lieutenant-Governor hopes) from and after next examination; but chemistry cannot be required from candidates for these science senior scholarships until provision is made for teaching it to first and second years' students.

Hooghly College	... ...	4 scholarships.
Dacca „	... ...	4 „
Patna „	... ...	4 „
Berhampore „	... ...	3 „

22. *Para.* 17 *of the report.*—In regard to junior scholarships, the Lieutenant-Governor would provide that not less than half these scholarships should be allotted to boys who may have qualified in drawing and surveying and physical geography. Such scholarship-holders would have the option of either following the regular course up to the First Arts examination, or of entering for the civil service course if permitted to do so. No students who may not be *in every way* capable will be allowed to follow the latter course. It will be necessary that the examination in surveying and the two other subjects should precede the Entrance examination. The Lieutenant-Governor would be willing also to reduce the number of general scholarships sufficiently to provide twenty-four special survey scholarships of Rs. 5 each, as proposed by the Committee, to be awarded to the best survey scholars who may pass the Entrance examination but fail to gain general scholarships. Possibly it will not be necessary to establish these extra scholarships when the arrangements ordered in the first part of this paragraph shall have been carried out.

23. *Para.* 18 *of the report.*—The Lieutenant-Governor accepts the ninor or vernacular scholarships. But it will be a question for subsequent sideration whether the standard of the new middle class examinations can be ed in awarding these scholarships.

The Lieutenant-Governor desires that Messrs. Woodrow and Bernard d enough to elaborate the foregoing instructions regarding scholar- ubmit draft rules regulating scholarships for approval and for

desires to add that he feels under the greatest obligations heir most successful labors in elaborating the difficult esolution, and he desires to tender to them his hearty

No. .

's report, and also copy of the Director's planatory of his department budget, to the *Calcutta Gazette.*

Report of the Committee convened under Government orders of the 8th March 1872 to report upon certain educational expenditure.

THE orders above quoted, read with Government resolution dated the 26th March, direct us—

(1) To submit detailed proposals for reducing the gross annual cost of Bengal colleges, as now constituted, to Rs. 5,30,000.

(2) To suggest the best mode of expending Rs. 20,000 a year on teaching physical science, drawing, surveying, and engineering, at colleges.

(3) To prepare a scheme for allotting to every Government higher class school a suitable share of the net Government grant, which is for the future to be Rs. 1,03,000 instead of Rs. 1,33,000, which is approximately the amount actually spent in the year 1870-71.

(4) To make recommendations for spending the new grant of Rs. 30,000 to the best advantage on classes for drawing, surveying, and engineering, at Government higher schools.

(5) To propose plans for allotting scholarships to the value of about Rs. 50,000 a year to physical science and surveying students.

2. Before proceeding to discuss the first point, we would submit that the net cost to Government of "general education" classes at the Bengal colleges is not so high as might appear from a perusal of the expenditure side of the Director's budget estimate of Rs. 6,05,000* for the year 1872-73.

The grant for colleges during the last year (1871-72) was Rs. 5,50,000, out of which total there was spent on technical and scientific education as follows:—

	Rs.	Rs.
Physical science and chemistry at the Presidency College	16,100	
School of Art, Calcutta	20,000	
Civil Engineering College, Calcutta	29,500	
Survey and model allowance	3,200	
Civil Engineering scholarships	7,200	
Law Classes	34,400	
	...	1,10,400
towards the total outlay on Government colleges there was contributed during the year from fees, &c.	1,67,800	
from endowments	55,400	
	...	2,23,200
Total	...	3,33,600
thus leaving the *net* Government outlay on general education in colleges at	...	2,16,400

3. We now come to the *first* point,—namely the reduction in the cost of colleges. We find that the gross cost of Bengal colleges (general and special) is shown by the Accountant-General's budget figures to be as follows:—

	Rs.
Actuals of 1870-71	5,44,700
Budget grant of 1871-72	5,50,400
Director's estimate for 1872-73	6,05,700
Accountant-General's estimate for 1872-73 ...	6,00,900

* Mr. Atkinson desires to note here that this sum of Rs. 6,05,000 is made up of old sanctioned charges exclusively, and contains no increase of charge whatever except for the ordinary advance of graded salaries sanctioned by Her Majesty's Secretary of State in 1865.

The Government instructions are to reduce this gross cost to Rs. 5,50,000, out of which Rs. 20,000 must be devoted to physical science and surveying classes. Our instructions further are, that no reduction should be made in the Presidency College unless some saving be possible in the grant for contingencies and servants; that reduction should not at present be proposed in the Patna, Hooghly, or Dacca Colleges. If we exclude the Presidency College, the schools attached to which are self-supporting, we can divide the expenditure on each college during the year 1870-71 into three parts,—namely college establishment, collegiate school establishment, and contingencies. We have included in the "college establishment" the teacher on a salary of Rs. 400 a month who used to be called head-master, and who has for the last few months been called assistant professor. It is absolutely clear that for many years past this official has given his whole time to the college classes, leaving the second master on a salary of Rs. 300 a month to be the head of the collegiate school. "Under contingencies" come all such charges as "library allowance," "writers' and librarian's pay," "servants' wages," "prize allowance," and "hot-weather establishments." We offer a table showing the estimated expenditure of each college under each of these three heads according to the Accountant-General's budget for 1872-73. We show also the number of students and the fee* receipts at each institution, according to the Director's figures, for the year 1870-71. It must be remembered that the contingent expenditure provides for the wants of the collegiate school as well as of the college.

* The fees of the law departments are not included in the fee income above shown.

† It may be well to note here that Muhammadan pupils at the Hooghly collegiate school, of whom there are 87, pay one-third fees only; and thus the total fee income at Hooghly looks small for the number of boys.

The reductions already made and ordered, or vacancies already existing in the college establishments, are as follows:—

	Rs.
1 Professorship at Berhampore	9,000
1 Assistant* Professorship at ditto	4,800
1 Professorship at Hooghly	9,000
1 Lectureship at the Presidency College	2,400
Reductions ordered in the Sanskrit College (but not to be fully carried out this year)	8,000
Total ...	33,200

The Director estimates (paragraph 7 of his letter of the 23rd January) the actual reduction of cost from the vacant professorships and assistant professorships at Rs. 25,800, which, with the Rs. 8,000 to be reduced from the Sanskrit College, comes to a total reduction of Rs. 33,800.

4. The Government instructions are, that the Krishnagur College, as well as the Berhampore College, should not teach beyond the First Arts standard. The Berhampore College, as now reduced, has a staff of—

	Rs.
1 Principal	12,000
1 Professor	6,000 to 8,400
1 Sanskrit Professor	1 800
1 Law Lecturer	2,400

We would propose that the future staff of a college teaching up to the First Arts only should (exclusive of science or survey classes) be—

	Rs.
1 Principal (a 3rd grade officer) maximum salary	12,000
1 Assistant Professor (salary)	4,800
1 Sanskrit Professor ditto	1,800

We would not keep a law professor on Rs. 2,400, for the fees would not cover the cost of so expensive a law department when the 3rd and 4th year classes are closed. We recommend that a selected pleader be appointed to lecture in law and receive the fees alone for his remuneration. It is believed that qualified men will on these terms be found for the post. We are informed that the law professor at some of the colleges has a good practice at the local bar, and the college professorship is considered to be an honorable post, which helps a pleader to get into good practice. By these reductions we shall secure a saving of—

Under the orders of the 8th March, the Berhampore and Krishnagur Colleges are the only institutions in which we can propose any reductions in the college department. We would recommend that the law departments both at Krishnagur and Berhampore be allowed to continue on their present footing till the end of the current academic year; that is, until the beginning of December next. We find that at the Krishnagur College there are now 12 students in the 3rd year, and 7 in the 4th year. We could have wished that these two classes should have been continued to the end of November next, so that the reduction in the status of the college might cause as little inconvenience to the students as possible. But in the event of opportunities occurring for absorbing the Krishnagur professors, we would not recommend that such opportunities be foregone, or that new professors should be posted to Krishnagur merely for the

* This assistant professorship will be filled up as soon as the professor who is now doing the duty shall be absorbed; the saving will, however, still remain on the total cost of colleges.

few lads now in the 3rd and 4th year classes. We would suggest that any students of the 3rd and 4th year classes now at Krishnagur, who may desire to continue their studies after the closure of the 3rd and 4th classes, be allowed to attend corresponding classes for the remainder of their under-graduate course either at Hooghly or at any other mofussil college without payment of fees. The students would probably prefer to attend the Presidency College; but there is no room for them in the present class rooms except for 3rd year students, so we are obliged to recommend their transfer to Hooghly or elsewhere.

5. There is one point connected with the staff proposed for the First Arts Colleges on which we ought to remark. We propose to allow for the college department of these colleges a staff costing about Rs. 19,000, against which cost there will perhaps be Rs. 3,000 of fee receipts; while for the high schools of Gowhatty and Cuttack we propose only a grant of Rs. 6,000 for the college department, yet the course to be taught at these high schools will be precisely the same as the course to be taught at Krishnagur and Berhampore. In regard to this view of the matter we would submit that the staff we propose is the cheapest effective *European* staff we could have. If we are to have European professors at these First Arts Colleges at all, we must have good men of the calibre of the present professors. There will be no use whatever in having an inferior European staff. If we would reduce these First Arts Colleges any further, the European staff, who constitute the backbone of the college, would have to be given up. We think it is better to accept the anomaly of having costly First Arts Colleges and comparatively cheap high schools teaching the same course rather than obtain a further saving by giving up the European staff at Berhampore and Krishnagur. We believe that the popularity and success of the Berhampore and Krishnagur Colleges would seriously fall off if the European principals were taken away.

6. We now come to the collegiate schools; and it appears to us that these schools are, when compared with the zillah and high schools about the country, extremely expensive. The average *net* Government grant to zillah schools in Bengal has for some years been less than Rs. 3,000 a year, the average *net* grant for collegiate schools (exclusive of the Hindu and Hare Schools) is about Rs. 9,000 a year, yet these collegiate schools are, as regards the standard and course of study, the exact counterpart of the zillah schools; they contain precisely corresponding classes which learn precisely the same course of study. The collegiate schools have, moreover, the additional advantage of being under the supervision and enjoying the attention of the principal and professors of the college to which they belong. It seems to the majority of us that the *net* Government grant to a collegiate school ought not, as a matter of principle, and in fairness to other districts, to exceed the highest grant allowed to ordinary zillah schools. It will be seen from a subsequent paragraph (see paragraph 12 below) that we do not propose to grant more than Rs. 3,000 a year (*net*) to any zillah school. The majority recommend that a similar grant be made to collegiate schools, which should also have the full benefit of these fees and subscriptions in the same way as zillah schools. A minority (Messrs. Atkinson and Sutcliffe) dissent from the recommendation in this paragraph. They consider that the *net* cost of collegiate schools could not, within any reasonable time, be brought down to Rs. 3,000 a year, though they would be prepared to recommend that the net grant be gradually reduced to Rs. 5,000 a year for each collegiate school. We proceed to show how the arrangement proposed by the majority would operate.

Collegiate schools at	Number of students.	Present cost of establishment.	Fee income.	Net cost to Govt.	Proposed net grant.
		Rs.	Rs.	Rs.	Rs.
Hooghly ...	393	22,400	10,500	11,900	3,000
Dacca ...	286	15,100	5,600	9,500	3,000
Krishnagur ...	213	13,300	6,900	6,400	3,000
Berhampore ...	177	14,000	3,900	10,100	3 000
Patna ...	361	16,400	7,400	9,000	3,000
			Total	46,900	15,000

Thus, if this plan were carried out, there would be a further saving in the grant for "colleges" of Rs. 31,900. We can see no valid reason why this change should not eventually be carried out. The zillah schools do fairly well with a head-master on Rs. 150 or 200 a month, and it is difficult to see why the collegiate schools, which enjoy special supervision, should not be able to manage with a full zillah school grant; still the reduction in the Government grant under this arrangement would be so very large,—indeed, the *net* Government grant would be cut down to less than one-third its present figure,—that we cannot recommend that so great a reduction be effected at once. It will be absolutely impossible to provide for or absorb all the masters who would be thrown out by reductions of this kind. We therefore recommend that the Government and the Education Department accept the principle that eventually the *net* grant to every collegiate school must be reduced to Rs. 3,000 a year, but that meanwhile the *net* annual grant to each collegiate school be reduced from year to year by such sum as may be found practicable. We do not propose any detailed plan for giving effect to this reduction, because in each collegiate school the Principal will be able to arrange for absorbing or reducing salaries, according to the circumstances of his school and its masters.

The Director of Public Instruction signifies his readiness to accept the general principle of these reductions, and he has already reduced the establishments of some collegiate schools by leaving unfilled several of the better-paid appointments that have fallen vacant during the last six months; but he urges that the masterships in collegiate schools are the only prizes for natives in the Education Department, and he argues that if all these prizes are taken away, the general average of native officials in his department will fall off. We think that there is much to be said for this view. We are aware that the head-masters of schools at the head-quarters of Bombay districts, such as Sattara, Rutnagiri, Surat, get Rs. 300 or else Rs. 400 a month; while the head-masters of Bengal zillah schools are paid only Rs. 100, or Rs. 150, or Rs. 200 a month. As we have said before, the head-master of an outlying zillah school is a more important and responsible post than the head-master of a collegiate school. We recommend therefore that some portion of the money to be saved on collegiate schools be at the disposal of the Director, to be used in giving special allowances of Rs. 25 and Rs. 50 or Rs. 100 a month as an addition to the salaries of the most deserving and successful zillah school-masters. In this way some prizes for such masters would be provided. We suggest that one-third of the amount to be reduced annually from the collegiate school net grants be devoted thus to raising the salaries of especially deserving head-masters and second masters of zillah schools. A total sum of Rs. 10,200 a year would provide three allowances of Rs. 100 a month, six allowances of Rs. 50 apiece for head-masters, and ten allowances of Rs. 25 apiece for second masters.

7. In order that the progressive reductions in the *net* grants to collegiate schools may be duly carried out and carefully watched, it will be necessary to keep "collegiate schools" as a special sub-head under "higher schools" both in the budget and in the annual reports. We understand that the Director had already arranged for terminating the anomaly whereby "collegiate schools" appear in the budget under "colleges" and in the annual reports under the head of "higher schools."

8. There remains for consideration the "contingent" expenditure of the colleges. The Presidency College office establishment* (Mr. Sutcliffe tells us) includes a chemical assistant on Rs. 70 and a draughtsman on Rs. 40 a month. The staff have to collect the fees of 1,650 students at the college and its several dependent schools. Some reduction can, Mr. Sutcliffe considers, be made in the library and prize allowance; and when the present head of the office establishment (who is styled Assistant Secretary) retires, the salary

of the post may be reduced from Rs. 150 to Rs. 100 a month. Mr. Sutcliffe further points out that the grant of Rs. 7,200 taken for civil engineering scholarships is more than has been spent heretofore. This grant might, if necessary, be reduced. We do not feel, under present circumstances, warranted in recommending the reduction of the engineering scholarships' grant. A reduction, however, of Rs. 1,000 in some part of the contingent grant (as above given) of the present year might be effected by Mr. Sutcliffe, and a further reduction of Rs. 600 may be secured when the present head of his office retires.

9. The contingent grants for the other colleges are, it will be seen, extremely unequal. We feel satisfied that if the Patna College (with its 445 pupils) can manage with a grant of Rs. 2,300 for contingencies, the Hooghly College, with its 545 pupils, cannot want Rs 7,600 for contingencies; nor can Krishnagur, with its 329 pupils, require Rs. 4,300 for similar charges. In the smaller colleges one efficient clerk would do the duty of writer and librarian. We annex a statement showing the estimated outlay, the grants we would propose for the present year, and the eventual grants which should finally be adopted for all the colleges in Bengal on account of—

10. The result of our recommendation regarding reductions in colleges stands thus:—

	Rs.
Vacancies already existing, with reductions ordered at the Sanskrit College (para. 3), give a saving of	33,800
Saving to be secured at Berhampore and Krishnagur (para. 4) ...	21,000

Out of this total eventual reduction there can be made operative in the present year the following savings :—

		Rs.

Total	...	43,600

If the Krishnagur and Berhampore reductions take effect in June (*a*) instead of in December next, then a further saving of about Rs. 11,000 would be secured in the present year. If opportunities which are now offering (or are about to offer) be taken to absorb Messrs. Martin and Wilson into other posts (inspectorships, or physical science professorships, or professorships at other colleges), then we feel confident that the actual expenditure of Bengal colleges (*b*) will not, if the foregoing suggestions be carried out, amount to more than Rs. 5,40,000 for the year 1872-73. In 1873-74 and subsequent years the cost of colleges would be brought down to below the sum of Rs. 5,30,000, which the Lieutenant-Governor's orders lay down as the grant for the current year. We anticipate, however, that any extra savings thus secured will be required to strengthen the staff and establish parallel classes at the Presidency College. Mr. Sutcliffe tells us that in one of the alternate sections of the second year class there are now over one hundred students, and no professor can do justice to so large a number. Unless the physical science course takes away a number of students from the general course, the establishment of further parallel classes will soon have to be considered.

(*a*) The colleges close for holidays during the month of May, and another term begins on the 15th June.

(*b*) As those colleges are shown in the budget papers before us.

11. We now come to the *second* point, namely, the best mode of expending the grant of Rs. 20,000 for physical science and surveying classes at colleges.

It seems to us that the physical science classes must be kept distinct and separate from the surveying classes. For completely carrying students through the University physical science course, there will be required one professor and one assistant professor at the Presidency College. One professor of physical science (Mr. Blanford) is already on the college staff; his salary, Rs. 15,000 a year, is met from the old grant for colleges, as has been shown above (para. 2). We consider that at one other college at least besides Calcutta there should be physical science classes. We would begin with one professor at Dacca: as soon as he has brought his pupils through the first year's physical science course and sees his way to having a full class, an assistant professor may possibly have to be given him. Our recommendations are that in addition to Mr. Blanford there be sanctioned for physical science—

		Rs.
1 Fourth grade officer as assistant professor at the Presidency College	...	7,500
1 ditto ditto, professor at Dacca or Patna	...	7,500

A grant of probably not less than Rs. 10,000 for each physical science college will be required for the purchase of apparatus during the first two years, while a yearly grant of Rs. 1,200 will be required for occasional expenditure on chemical or other contingencies.

*We do not reckon upon a saving at Hooghly, because the Lieutenant-Governor's orders preclude our so doing, but we may perhaps note that in college expenditure, contingent expenditure, and collegiate school charges, the Hooghly College is by far the most lavish of all the mofussil colleges.

12. Attached to each college and collegiate school there should be a teacher of drawing and surveying, who could take the college and school classes. The cost of such teachers might be—

	Rs.	Rs.	
Salaries...	1,200 to	1,800	a year.
Survey contingent charges		500	„
Mean Total ...		2,000	
		5	
For five Mofussil colleges		10,000	

This sum of Rs. 10,000 we would debit against the Rs. 30,000 allowed for teaching drawing and surveying in schools. It will be seen that if colleges and collegiate schools be taken together, the cost of physical science and surveying classes at these institutions will be much more than Rs. 20,000, thus:—

	Rs.
1 Existing professor	15,000
2 New assistant professors	15,000
Contingencies	2,400
Surveying classes	10,000
Total ..	42,400

13. In regard to the *third* point, namely the allotment of a *net* Government grant to each higher class school, we find the Lieutenant-Governor's suggestion to be that "a scale of net grants should be adopted for these schools." After considering a statement prepared by the Director, showing the precise financial condition and the number of boys at each school, we come to the conclusion that we can establish five grades of Government grants; but we cannot grade the Government schools according to their efficiency, numbers, or situation, in any fashion that will enable us to assign the same *net* grant to all schools in one grade. For instance, the Assam schools are not well attended, yet they absolutely require large grants; again, the Bhaugulpore and Madrassa schools are well situated and well attended, yet they have always enjoyed large grants; the Burrisal school, on the other hand, has managed very well indeed with only a small *net* grant. We have tried to allot the grants rather according to the requirements of each school, and according to the sums it has heretofore received from Government, than according to the number of the students. The sanctioned net grants, as they now stand, are for the most part either Rs. 3,616 or Rs. 2,616 a year. We now propose to have five classes of grants, namely:—

						Rs	
I	Class grant of Rs.	250	a month or	...	...	3,000	a year.
II	„ „ „	200	„	...	...	2,400	„
III	„ „ „	175	„	...	...	2,100	„
IV	„ „ „	150	„	...	...	1,800	„
V	„ „ „	100	„	...	...	1,200	„

For high schools we propose to allot a I class grant plus Rs. 6,000 a year for the college department, or Rs. 9,000 a year in all.

14. We offer a table showing how these grants will work. It will be seen that in no* case does the proposed grant result in any considerable reduction in the total disposable income of a school. The grants, as proposed by us,

* The Collinga branch school has been largely reduced under orders of Government.

15. We suggest that if these grants, as now suggested, be approved, the allotments should remain unchanged for a term of five years, and should then be subjected to revision.

16. The *fourth* point is the settlement of a plan for spending the Rs. 30,000 grant for surveying and drawing classes at schools to the best advantage. We observe that we have already taken Rs. 10, 000 of this sum for the collegiate schools. There remains a sum of Rs. 20, 000, with which we would pay teachers of surveying and drawing. We would propose further that a teacher of surveying and drawing should be attached to each of the undermentioned schools, namely—

Bhaugulpore.
Gowhatty.
Cuttack.
Howrah.
Jessore.
Midnapore.
Mymensing.
Burrisal.
Chupra.
Mozufferpore.
Chota Nagpore.
Seebsaugor.

If from the above grant the Director should be able to provide survey classes at additional schools, he should be allowed to do so. To each such teachership we would assign a salary of from Rs. 50 to Rs. 75 a month: if, however, the incumbent is employed to teach two or more schools, he should be allowed 20 per cent. on his salary to remunerate him for the expenses incident to a change of residence and for travelling charges. Mr. Sutcliffe tells us that the Civil Engineering College can supply competent teachers at the above-mentioned salaries. For each school there should be a survey contingent allowance of Rs. 400 a year, with perhaps an extra allowance for the first year to cover the cost of a supply of instruments for a full class as per margin. We consider that every pupil should be allowed the use of the school apparatus, but should pay the cost of the more perishable articles, such as pencils, paper, and tape. We recommend that the survey classes open directly after next (the May) holidays: lessons in drawing and book-work can first be given, and field-work can be begun later in the season. For the first year at any rate no special or extra fee should be taken from the survey class pupils. Out-students who may attend schools for the survey class only might pay a fee of one rupee per month and a small admission fee of two rupees.

DRAWING AND SURVEYING.

Each school will require—

Tapes.
Chains.
Prismatic compasses.
Plane tables.
Boxes of colours.
Books of drawing copies.

Each boy will require—

1. Drawing pen.
2. One compass, with pen and pencil point.
3. „ 20-inch scale and offsett.
4. „ 6 „ protractor (box-wood or brass)
5. One parallel ruler.

NOTE.—For collegiate school classes a theodolite should also be provided.

The cost of these surveying teachers would be perhaps (subject to such alteration as may be found necessary)—

		Rs.
12 Teachers, averaging Rs. 75 each ...	... 900 × 12	=10,800
12 Contingent allowances, at Rs. 400 a year	... ...	4,800
12 Extra allowances for first year, Rs. 250 a year	...	3,000
Total	...	18,600

The expenditure of the current year will be less than Rs. 18,000, as the classes will not be all started until June or July.

From Rs. 5,000 to Rs 6,000 will be available for grants-in-aid of Rs. 40 a month to any aided school which may open a *bonâ fide* surveying and drawing class at a cost of not less than double the grant. The total proposed outlay from the Rs. 30,000 for drawing and surveying classes in schools would be as follows:—

	Rs.
Classes in five collegiate schools	10,000
„ in twelve zillah „	15,600
Extra contingencies for the first year	3,000
Grants-in-aid to survey classes at aided schools from unspent balance of the Rs. 30,000	5,000

16. The *fifth* and last point is the allotment of a share in Government scholarships to physical science and surveying students. There are at present four classes of scholarships, and the number of scholarships in each class is—

40 Senior scholarships tenable for two years in colleges.
160 Junior „ „ „ „ „
100 Minor „ „ „ in higher schools.
225 Vernacular „ „ four years „ „ „
225 „ „ „ one year in normal „

We would propose that thirteen of the senior scholarships (3 first grade on Rs. 32 a month, 4 second grade on Rs. 25 a month each, and 6 third grade on Rs. 20 a month, equal to about Rs. 7,600 a year) be awarded only to students who after passing the F. A. examination elect to take up the B. or physical science course for their degree examination. The senior scholarship rules would require to be modified accordingly.

17. In regard to the junior scholarships, it might perhaps be desirable to award scholarships in the same way to matriculated students who would take up a physical science course. But no such course has yet been adopted by the University in the regulations for the F. A. examination. We believe that scholarships of Rs. 5 a month will provide a sufficient stimulus to induce students to qualify themselves in these branches; and we find that taking one-fifth of the 2nd and 3rd grade scholarships for survey classes, we could make sixty-eight five-rupee scholarships available. We therefore propose the allotment of a certain number of five-rupee scholarships to school boys who may pass the entrance examination and may also have qualified in surveying and drawing. Our proposal is, that two survey scholarships should be allotted to each school where there may be a survey class open during the whole year; the rest of the survey scholarships should be at the disposal of the Director for allotment to the best survey pupils at any school where more than two boys may qualify for such scholarships. These scholarships would be awardable to boys who pass the entrance examination and also qualify in surveying and drawing. Each boy's qualification in surveying and drawing would be tested—

(1)—By a paper in book-work and drawing after the close of the entrance examination, set by central examiners and answered by the boys at the usual centres of examination; such papers being sent down to Calcutta and marked by paid examiners in the usual way.

(2)—By an inspection of the boys' drawings, plans, and survey work during the season, a report of each survey student's work, certified by the inspector, being sent in by the head-master, together with the specimen plans, field books, and drawings.

The survey scholarships would be awarded to the boys who, having passed the entrance examination, had done best in surveying and drawing at each school. In order to secure that the survey scholarships may not fall to the least capable boys, we recommend that any lad who may win a survey scholarship and a general educational scholarship be allowed to hold both.

We are quite aware that this plan of allotting junior scholarships for surveying is not scientific; and further, it does not secure that the successful scholar shall continue his technical studies. But we recommend this plan as an *ad interim* arrangement. We think that the scheme sketched above should not be brought into operation till the entrance examination of 1873. Students now in the entrance class at zillah schools will have only three or four months to give to survey work before November; they have to devote much time and attention to brushing up their knowledge of English and general subjects, and they could hardly attend survey classes without either overworking themselves or neglecting their other subjects.

18. There remain the minor and vernacular scholarships. The course of study for the minor scholarships already includes a Bengali book on surveying. The maximum mark for the paper in this book is 50 out of a total of about 500 for the whole examination We would suggest that the maximum mark for surveying be now raised to 100. We further recommend that the same text-book be made one of the subjects for the "vernacular scholarships," and that at the examinations of 1872, marks amounting to one-fifth of the whole be allotted to the paper in this book. It must be remembered, however, that from the year 1873 the University will conduct a new vernacular examination, for which surveying will be an optional subject. It will probably be convenient to fit the Bengal scheme for survey scholarships into the new University vernacular examination.

19. Under the foregoing suggestions the scholarship money awarded to physical and technical science will be—

		Rs.
Special civil engineering scholarships as per budget	... ...	7,200
School of Art, ditto ditto	... ...	1,200*
Senior scholarships for students who take up the B. course after the F. A. examination	...	3,700
Sixty-eight five-rupee scholarships for proficiency in surveying and drawing	...	4,080
Total	...	16,180
Tenable for two years	...	2
Total yearly outlay	...	32.360
Add one-fifth share in minor and vernacular scholarships, about	...	6,000
		38,360

We have only to add that if any changes in the scholarship rules, such as we suggest, be finally decided upon, no time should be lost in publishing the details of such changes, and making those details known to all Government and aided schools. At the same time we would note that after the first award the details of the rules for granting survey scholarships might be revised as experience may show to be desirable.

20. We would sum up briefly the suggestions offered in this report thus:—

(1) We have shown how the cost of colleges and collegiate schools for general education can be kept down to Rs. 5,40,000 this year, and eventually to Rs. 5,15,000.

(2) We have proposed opening physical science classes at the Presidency College and at either Dacca or some other college at once.

(3) We have submitted a scheme for six grades of grants to high schools and zillah schools, thus bringing the *net* Government outlay on these schools to Rs. 1,07,400.

(4) We have proposed to establish drawing and surveying classes at five collegiate, twelve zillah or high, and at several aided schools.

(5) We have submitted a plan for allotting a proportion of senior scholarships to physical science students, and a share of all other scholarships to lads who may qualify in drawing and surveying.

The 18*th April* 1872.

No. 227, dated Fort William, the 23rd January 1872.

From—W. S. ATKINSON, ESQ., Director of Public Instruction.

To—The Secy. to the Govt. of Bengal, General Department.

I HAVE the honor to submit my explanations on the budget estimates of this department, in reply to your No. 78, dated 9th January.

2. *Berhampúr College.*—Your 2nd paragraph remarks, with disapproval, that I have entered the full establishment for the Berhampúr College in contravention of the orders for its reduction. On this point I would submit that

* We have taken two first grade junior scholarships of Rs. 18 to make the Art scholarship grant from Rs. 720 to Rs. 1,200 a year. We are assured that more scholarships are required to keep students at the School of Art. At present a lad who has acquired only a smattering of some ornamental craft is tempted by offers of good wages to leave the school and take to his trade at once It is certainly desirable that some of the students should learn thoroughly the arts taught under Mr H. Locke's supervision.

I particularly explained in my budget, which was framed and sent to Government early in November, that no change had been made in my estimates for this college, because the transfers of officers which were to take place in the present month (January) had not then been settled, and there was no other heading under which I could properly enter their salaries.

The question is one of transfer account simply, and in no way affects the aggregate estimate for colleges, which necessarily provides for the aggregate salaries of all the Principals and Professors now employed in the department.

3. *Government Colleges.*—In your 3rd paragraph it is observed that I have raised the estimate for the colleges from Rs. 5,50,450, the grant of 1871-72, to Rs. 6,05,706, being an increase of Rs. 55,256.

These figures are not the figures shown in my estimate, but they appear to be obtained pretty nearly by adding the proceeds of endowments, &c., as shown in the local fund budget, to the amounts entered by me, which showed only the total of expenditure which remained to be met from fees and assignments from the general revenue after deducting from the gross cost the amount of the said endowments, &c.

My own estimate for 1872-73 for the colleges is Rs. 5,46,140. The corresponding grant for the current year, as reduced by the Lieutenant-Governor, is Rs. 4,90,000 ; the increase is Rs. 56,140.

4. This increase no doubt requires explanation ; and explanations would have been given at length when the budget was sent in had I not been informed that the estimates were to be considered by a Committee, of which I was to be a member, before they were submitted to the Lieutenant-Governor for sanction. I reserved my explanations for this Committee ; but your letter having anticipated the meeting of the Committee, I must now explain, in reply, how the increase is accounted for.

5. The grant of Rs. 4,90,000 for the current year was arrived at by the simple process of striking off a lump sum of Rs. 24,447 from the revised estimate submitted by me, amounting to Rs. 5,14,447, which estimate was itself obtained, to meet an immediate exigency, by calculating very closely the probable actual expenditure after taking into account all possible savings from known vacancies, either permanent or temporary. My estimate for the ensuing year was not based, and could not be based, on this gross grant of Rs 4,90,000 sanctioned for colleges in the budget of the current year, but was framed, as all such estimates are necessarily framed, by the addition of the separate amounts representing liabilities, which are entered item by item, under the different heads of charge.

It accordingly provides for the salaries of all the officers now attached to the colleges, the aggregate of which *has increased by Rs.* 14,900—on account of officers returned from leave and annual increases of graded salaries—*above the aggregate shewn in my revised estimate of last year.* And it further provides a sum of Rs. 25,800 *representing four vacancies,* viz. Rs. 21,000 for three vacancies in the list of graded officers, and Rs. 4,800 for one vacant assistant professorship, three of which vacancies were not provided for in my revised estimate of April last.

6. Under this latter head alone will it be possible, so far as I can see, to make any serious reduction.

I entered this sum of Rs. 25,800, which includes the charges actually reduced at Berhampúr, because I understood, both from the budget orders of May 1871 and from other communications made to me, that it was not the Lieutenant-Governor's intention permanently to diminish the number of graded officers sanctioned for the department, but to fill the vacancies with new men possessing the requisite qualifications for giving instruction in the various branches of physical science, which it is now in contemplation to introduce into the curriculum of our colleges.

If I am not mistaken as to this intention, Rs. 18,000 of the above amount will be required for graded officers of the fourth class, and Rs. 4,800 for an assistant professor (at Berhampúr), in the event of the new appointments taking effect from the commencement of the ensuing year.

Should the appointments be delayed, this amount will be susceptible of corresponding reduction.

In any case Rs. 3,000 out of the Rs. 21,000 representing the three vacancies in the fourth class will not now be required, as it provided for the maximum increase of the salary of an officer of the fourth class, which lapses by the retirement of Babú Isan Chandra Banúrji, as recently ordered.

Some small reduction also may shortly be practicable in the Sanskrit College as the result of retirements and other changes; but, as at present advised, I cannot take these reductions at a larger sum than Rs. 3,000.

7. Taking then a saving of Rs. 3,000 in the Sanskrit College, a saving of Rs. 3,000 from the salary of Babú Isan Chandra Banúrji, and Rs. 22,800 for three vacancies in the fourth class and one vacant assistant professorship, the possible reduction seems to be limited to the sum of Rs. 28,800, except in petty contingent expenditure, where small savings may be practicable.

The deduction of the whole of this Rs. 28,800 from my estimate will reduce the amount to Rs. 5.17,340, of which about Rs. 1,75,000 will probably be covered by fee receipts; but no margin will then be left to provide for physical science instruction, or for the surveying classes mentioned in your 3rd paragraph, in regard to which I have to observe that I was unable to make provision for them in the estimates for two reasons,—*first*, because at the time the budget was prepared I had no data for estimating the probable cost of them; and *secondly*, because the orders of the Financial Department have always been very precise in forbidding all entries in departmental budgets on account of establishments not actually sanctioned.

8. After these explanations, I beg respectfully to represent that *unless salaries are reduced* or *officers of the department dismissed*, there seems to be no possibility of cutting down the expenditure on colleges to the amount indicated by His Honor the Lieutenant-Governor. No one can be less pleased than I am to find that the figures representing our liabilities add up to so large a total. I can only submit that I am bound to show these liabilities in my estimates, and I must now leave the facts to be dealt with as Government may please to order.

9. *Government higher class schools.*—In the 4th paragraph of your letter it is observed that I have raised the demand for higher class English schools from Rs. 2,61,561 (which is stated to be the grant for 1871-72) to Rs. 3,04,197 without making any provision for the surveying classes which the Lieutenant-Governor has ordered.

9. On this latter point I have to remark that the surveying classes referred to were only ordered by the Lieutenant-Governor in your No. 3664, dated 9th December. My budget was sent in early in November, and could not have anticipated these orders; but with reference to them I wrote to the Accountant-General on 18th December, informing him that in view of the additional outlay that would be required under them, and which the Lieutenant-Governor had informed me he was prepared to provide for, it did not seem possible to make the reductions which were promised in the budget on the assignments to higher class schools.

10. My budget estimate for these higher class schools is rightly stated to be Rs. 3,04,197, but there is a mistake in the amount given by you as the allotment for 1871-72. The grant passed under this head for the service of the current year is Rs. 2,73,000* and not Rs. 2,61,561. The estimated increase of *gross expenditure* is therefore Rs. 31,197; but it was explained in making this demand that the estimate was arrived at by taking the aggregate of the actual Government assignments of the schools *as now sanctioned*, and adding to them the estimated receipts from local sources, and it was intimated that the amount of the assignments would be reduced (as ordered by Government in No. 25T, dated 28th October 1871) as soon as the necessary inquiries had been completed.

* See budget orders, dated 30th May 1871.

11. I am not even now in a position to propose definitively what shall be the future assignments of the schools in question; but I may state for the Lieutenant-Governor's information that their assignments, as heretofore sanctioned, amount to Rs. 1,47,927, and that as far as I am at present informed the aggregate of the reductions which the Inspectors consider practicable will bring down this sum to about Rs. 1,26,400.

This will reduce my demand for *gross expenditure* to Rs. 2,82,670, which is Rs. 9,670 in excess of the allowance for the current year; but it must be

remembered that the excess is due to the appropriation of surplus local income to the schools in which it is raised, as now ordered by Government; whereas under the old system such surpluses were absorbed in the general revenue at the end of each official year*.

* In the Hindu and Hare schools the actual surplus after paying all charges derived from fees alone was in 1870-71 Rs 8,027.

The demand for *net grants* payable out of State revenue will be reduced by Rs. 21,527. I would propose however, to go a little further than this, and to take credit for a net grant of Rs. 1,25,000 only on account of Government assignments for higher class schools. Beyond this I fear it will be impossible to go without reducing existing salaries or seriously impairing the efficiency of the schools by unduly curtailing their establishments.

12. The Lieutenant-Governor's present order reduces the grant for assignments to less than Rs. 1,00,000, as the fee receipts of last year amounted to Rs. 1,60,252, and this grant is also to include the new expenditure for surveying classes. I think it my duty to represent that very great embarrassment will necessarily be caused if this order is enforced. I believe that with a net grant of Rs. 1,25,000 for assignments we may *eventually* provide for the teaching of surveying in the schools, in addition to the ordinary branches of school education, without further aid from the public revenues; but I am of opinion that this cannot be done immediately, or until our masters are trained to teach simple surveying, along with other subjects, as part of their ordinary duty. But having said thus much, I must leave it to Government to decide on the amount of the provision now to be made for these schools, and shall do my best to carry out the final orders of Government, whatever they may be.

13. *Government Schools other than Higher Class Schools.*—My estimate for all other Government schools, exclusive of higher class schools, is Rs. 2,98,925; in round figures Rs. 2,99,000. The fee receipts in these schools during 1870-71 are reported at Rs. 39,712. If the details supplied by the Inspectors are correct, it may be possible to work with a net grant of Rs. 2,40,000 during the coming year; but I would strongly deprecate the absorption of all fee income not actually needed for bare necessities. Three-fourths of this income is raised in vernacular schools enjoying small allowances from Government, and the money is much wanted for their improvement. In the normal schools there are no fees, and these schools take up Rs. 1,68,866 out of the total grant applied for under this head.

14. *Grants-in-aid, &c.*—My estimate for *grants-in-aid ordinary* is Rs. 4,72,920, for *circle schools and rewards* Rs. 33,120, and for *pathsalas* Rs. 1,30,554, giving a total of Rs. 6,40,194.†

† Rs. 4,000 entered with grants-in-aid in my budget, for *payment of examiners*, was out of place, and must be transferred to "miscellaneous."

The entry for circle schools and rewards is a fixed sum actually taken up, and may remain unaltered. I would ask to take credit for Rs. 5,00,000 for grants-in-aid ordinary and Rs. 1,60,000 for pathsalas. This will involve an increased grant of Rs. 56,526, viz. Rs. 27,080 for grants-in-aid ordinary and Rs 29,446 for pathsalas.

I consider that this will be more advantageous than to give the whole of the additional grant to pathsalas, as proposed by the Lieutenant-Governor. The applications for grants-in-aid are very numerous and pressing, and it is very doubtful if anything like so large a sum as Rs. 50,000 can be profitably spent on new pathsalas within the next twelve months.

15. *Scholarships.*—By an oversight the allowance for scholarships was short estimated in the budget for 1870-71. The full amount sanctioned by Government is now applied for. The increase is Rs. 6,240.

16. *Miscellaneous.*—The estimate for miscellaneous items (as corrected by the addition of Rs. 4,000 *for examiners* transferred from grants-in-aid) is Rs. 34,690 against Rs. 33,500 sanctioned for the current year.

It is made up of allowances sanctioned for many years past, with the addition of Rs. 1,000 lately ordered to be provided on account of the passage allowance of a Gilchrist scholar.

17. In concluding these explanations, I would earnestly solicit that full consideration may be given to the facts I have pointed out, which make it difficult to give effect to the Lieutenant-Governor's instructions as now communicated to me; and if I am still required to reduce my estimates to the figures he has given, I must further ask for detailed instructions as to the precise manner in which establishments or salaries must be reduced to meet his orders.

No.	District.	Date of return from each district.	Rainfall at Sudder Station in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
16	Rajshahye ...	1872. May 24th	1·42	Heavy rain from north-west at 6-30 A.M on the 17th. Cool, cloudy day. Heavy fall of rain from south-west, at about 6-30 P.M., on 18th; some lightning. 19th, cloudy weather; dust storm from south-west at 6 P M. 20th, heavy storm, with continuous lightning and thunder-storm north-west at about 4 P M.; very breezy night. 21st, hot day; clear sky. 22nd, hot day; a storm threatened at 3 P.M. from north-west. 23rd, hot day.	Ropa and ous crops are now being sown. Rain is required.	
17	Bograh ...	„ 25th	·63	Atmosphere clear and bright; occasional slight rain and close but not unhealthy	Satisfactory.	
18	Dinagepore ...	„ 25th	·27	Threatening rain daily; winds variable with great heat. A light shower on Friday with strong wind and thunder and lightning.	There is very little boro dhan grown in this district. The rain has benefited what crop there is. Thermometer— Highest ... 103 Lowest ... 84	
19	Maldah ...	„ 25th	0·99	Cloudy, rainy, and at times very hot.	Good. Rainfall during the week has proved beneficial.	
20	Moorshedabad ...	„ 25th	0·33	Generally sultry; slight falls of rain; storm on 20th.	Prospects generally good; more rain wanted.	
21	Pubna ...	„ 25th	0·63	Highly favorable ...	Fair.	
22	Rungpore ...	„ 25th	1·90	Hot and sultry ...	Go d	
23	Burdwan ...	„ 20th	Nil ...	Very hot ...	Favorable; wants rain. There has been rain in Culna, Cutwa, and Boodbood, but more is wanted for ploughing. In Raneegunge, cotton and teel are growing well	
24	Bancoorah ...	„ 24th	·77	Storms with rain on the 18th, 19th, and 20th instant, that on the 20th being rather violent.	There has been sufficient rain during the week. Ploughing is going on, and the sugarcane is doing well.	
25	Beerbhoom ...	„ 25th	0·04	Hotter than last week; very little rain.	Not yet sown.	
26	Hooghly ...	„ 25th	Nil ..	Most part of the week clear; at the end of the week cloudy with slight rain.	Boro dhan cut; rain much wanted for sowing ous and amun; and teel, cotton, &c, injured in west of the district for want of rain.	
27	Howrah ...	„ 26th	1·14	Excessively hot; occasional storms with slight falls of rain. No rain in south of district.	Crops on the ground doing well, except in the south of the district, where there has been very little rain.	
28	Midnapore ...	„ 25th	3·24	The weather generally not so hot as last week There were three tolerable showers during the first 3 days of the week	Much good has been done by the rain, and ploughing has commenced.	
29	Nuddea ...	„ 25th	2·17	Occasional showers and moderate temperature.	The sowings have almost all been concluded throughout the district, and the prospects are favorable.	

No.	District.	Date of return from each district.	Rainfall at Sudder Station in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
30	Jessore ...	1872 May 25th	2·01	There have been frequent gales of wind during the week from the north-west on Sunday evening, especially at 6 P M. there was a furious gale; but though it lasted only a very short time, it was productive of much damage. The prevailing wind has been south & south-east: the average temperature, 84 2; mean height of barometer, 29·457.	Good. The bheel lands in the east of the district will be thrown out f cultivation, but this will not much affect the people, who, except in singularly favorable sea son, do not count on getting these lands sown.	
31	24-Pergunnahs ...	„ 27th	1·21	Hot with strong wind and a shower of rain now and then. Direction of wind south and south-west and north-east. Mean temperature 88°.	The prospects of the crops are favorable. The recent rain has done much good; and in Diamond Harbour, where there was great want of mo sture, ploughing has now commenced. Ous sowings are going on, jute is also being sown a small amount of sugar cane is grown to the north-east, and the young plants are thriving.	
32	Dacca ...	„ 25th	·10	Fair and dry. ...	Promising well. The crops are shooting up fast owing to the fine weather.	
33	Backergunge ...	„ 18th	4·79	Hot and rainy, attended with storms	Good.	
34	Furreedpore ...	„ 25th	1·30	Close, with a little rain every other day or so.	Fair ...	General health continues good.
35	Mymensingh ...	„ 18th	4·8	Cool and showery. Rain on 4 days.	Satisfactory.	
36	Sylhet ...	„ 18th	8·43	Cool and showery. Maximum reading of therm. for week ... 86° Minimum ditto 71° Mean of highest reading ... 81° Ditto of lowest ditto ... 72·1′ Approximate mean of week 76·5°	A little dry weather is necessary, or else there will probably be a bad harvest The soil and boro crops have all been reaped. A small portion of amun crop has been destroyed by the heavy rain The prospect of ous crop is good.	
37	Cachar ...	„ 18th	8·62	Cloudy and rainy ...	Prospects good.	
38	Chittagong ...	„ 18th	2·66	Rainy and windy ...	Ploughing has commenced. Prospects for early sowings favorable at present.	
39	Noakhally or Bullooah	„ 18th	8·.3	Rainy weather all through the week.	The sowing of the ous dhan is very nearly completed and progressing favorably A continuation of the recent heavy rains is likely to injure the ous crops sown on low lands. The amun dhan is being sown within the jurisdiction of Begumgunge.	
40	Tipperah .	„ 25th	Nil	Very bright and hot	Good ...	Slight outbreak of cholera in the sub-division.
41	Hill Tracts of Chittagong.	„ 18th	6·18	Rainy and sunny.	Prospects of the paddy crops good, but cotton plants have suffered to some extent from the recent heavy rainfalls.	
42	Cuttack ..	„ 27th	1·56	Heavy rain which will do good.	None given.	
43	Balasore ...	.....	.....	.....	.....	Return not received.

No.	District.	Date of return from each district.	Rainfall at Sudder Station in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
		1872.				
44	Pooree ...	May 18th	Slight shower	Wind set in from southward.	There has been a little rainfall, but not enough for tillage.	
45	Hazareebaugh ..	„ 25th	0·30	Seasonable ...	Nothing on the ground; rain wanted.	
46	Lohardugga ...	„ 25th	0·98	Hot and stormy; rain has fallen generally throughout the district.	Dhan is being sown in the low lands.	
47	Maunbhoom ...	„ 25th	1 90	Showery; cool ...	Sugarcane and early broadcast rice on the ground, which promise well.	
48	Singbhoom ...	„ 18th	...	Seasonable ..	Very favorable for sowing	Rainfall return defective.
49	Durrung ...	„ 18th	3·06	Changeable ..	The heavy rain has facilitated ploughing, and tea is said to be doing well	
50	Nowgong ...	„ 18th	8·56	Heavy rain off and on during the past week; weather unsettled	The rain good for tea, but not so good for the spring crops.	
51	Seebsaugor ...	„ 18th	2 55	The weather during the week was warm, damp, and unhealthy.	Crops' prospect satisfactory.	
52	Kamroop ...	„ 18th	2·73	Hot and dry, excepting 15, 16, and 17.	Prospects of crops and tea are favorable.	
53	Luckimpore ...	„ 18th	5·45	Heavy rain at night, and close sultry days. Thermometer— Maximum ... 85″ Minimum ... 75″	Rice commenced to be sown in the nurseries.	
54	Khasi and Jynteah Hills.	„ 18th	2·93	There have been some very heavy showers, but the weather is seasonable.	Good.	
55	Naga Hills ...	„ 11th	1·04	Very severe storms accompanied with heavy rain and high winds, but not with thunder and lightning. Alternately one day hot, close, and muggy, and the next foggy and chilly.	Satisfactory in all respects.	
56	Julpigoree ...	.....	...	... ...	.....	Return not received.
57	Gowalparah ...	„ 18th	4·16	Misty, rain, passing showers, drizzling rain, thunder.	No injury is done to assoe crops, although it rained here hard for some time.	
58	Garo Hills ...	„ 18th	3·91	Rainy and windy ..	Good.	
59	Darjeeling ...	.....	.. .	....	.....	Return not received.
60	Cooch Behar ...	„ 18th	4·06	Frequent rain; temperature low for this time of year.	The ous dhan promises well; scarcely anything else on the ground.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four-hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain gauge is 1½ feet, and that of the anemometer, 70 feet, 10 inches, above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

H. L. Dampier,
Secy. to the Govt. of Bengal.

NOTIFICATION.

The 4th June 1872.—The Lieutenant-Governor is pleased to publish the following rules under Act III of 1872, in supersession of those published in the *Calcutta Gazette* of the 22nd May 1872, page 2322.

1. With reference to section 12 of Act III of 1872, the Lieutenant-Governor has been pleased to rule that for the present marriages shall be registered by ex-officio Registrars only at the office of the Marriage Registrar, and at no other place.

2. Under the provisions of section 14 of the Act, the Lieutenant-Governor has been pleased to prescribe the following scale of fees to be charged by a Marriage Registrar for the duties to be discharged by him:—

		Rs.	As.	P.
(1.)	For receiving notice of marriage under section 4 of the Act	0	8	0
(2.)	For receiving objection to such notice under section 6	0	8	0
(3.)	For receipt of declaration under section 10 and subsequent attendance at marriage in the Registrar's Office, section 11 ..	1	0	0
(4.)	For giving a certified extract from marriage certificate book, section 14 ..	0	8	0
	For registration of marriage already contracted, section 20	1	0	0
	For registering a marriage at any other time than the office hours prescribed by Rule 3 an extra fee of ..	2	0	0

3. Every Registrar must give public notice of the place where he holds his office and is bound to register marriages there. All registrations at the office are to be made between the hours of 10 A.M. and 5 P.M., unless the special fee mentioned in rule 2, clause 6, is paid.

4. The place, other than a Registrar's office, where a marriage is to be registered by a Registrar other than an ex-officio Registrar shall be determined by the parties themselves, who shall specify such place in writing at the time when the notice of intended marriage is given to the Registrar.

5. If such place is not more than five miles distant from the Registrar's office the fee for registering the marriage shall be Rs. 4, and if more than five miles distant an additional fee of 4 annas per mile shall be charged.

6. When a marriage is solemnized at any place other than the Registrar's office it may be registered at any reasonable hour.

7. All Registrars are required to post a notice of every intended marriage publicly and conspicuously in their offices for fourteen days before registering such marriage.

No. 203.

The following order, issued by the Government of India, Public Works Department, is republished for information:—

No. 278.—*The* 23*rd May* 1872.—The following rules for the compulsory retirement of officers of the Public Works Department on attaining the age of fifty-five years, are published for information:

Rule I.—No military or naval officer in the Public Works Department, who holds a gazetted appointment, shall be appointed to any new office after he attains the age of fifty-five years, or shall be permitted, after attaining that age, to retain an appointment which he may have held for five years.

Rule II.—Appointments to a new office (Rule I) include promotions to a higher grade or class, whether substantively or temporarily.

Rule III.—Warrant officers, who are graded as Assistant Engineers in consequence of having received honorary commissions, are exempted from the operation of Rule I.

Rule IV.—The exemption of military or naval officers from the operation of Rule I will require the sanction of the Secretary of State in Council, to whom a reference, may, in special cases, be made at the option of the Government of India in the Public Works Department in communication with the Military Department.

Rule V.—The application of these rules will not be enforced in the case of officers appointed to the Department prior to 1st January 1871 for five years from that date; that is to say, the rules will, in the case of such officers only, become applicable from 1st January 1876.

The rules as regards the compulsory retirement of uncovenanted officers in the Public Works Department are embodied in Chapter XI, section 53 of the Civil Pension Code, which, for facility of reference, is quoted below. The exemption of such officers holding gazetted appointments, that is appointments in the Engineer Establishments, or such as are analogous to them, will however rest with the Government of India in the Public Works Department.—Rule II above is applicable also to uncovenanted officers.

Chapter XI, Section 53, *Civil Pension Code.*—A superannuation pension or gratuity is granted to an officer compelled by rule to retire at a particular age.

1. An officer in a superior grade, who has attained the age of fifty-five years, should be required to retire, unless the Local Government considers him efficient and permits him to remain in the service. As the premature retirement of an efficient officer imposes a needless charge on the state, this rule should be worked with discretion, and no officer can *claim* to retire on the ground that he is fifty-five years old.

2. An annual return of officers permitted to remain in the service after the age of fifty-five years should be submitted in the subjoined form to the Government of India in the Administrative Department concerned:—

   1.—No.
   2.—Office.
   3.—Name of officer.
   4.—Present age.
   5.—Period of extension.
   6.—Grounds of extension and remarks.

3. In the Public Works Department the above rule will not, until the 1st January 1876, apply to officers appointed to the Department before the 1st January 1871, unless they have attained the age of sixty years, or have been in the same appointment, grade, class, for five years.

HOOGHLY;
RAILWAY DEPY. COLLECTOR'S OFFICE,
The 23*rd April* 1872.

OBHOY CHURN MULLICK,
Railway Deputy Collector.

NOTICE is hereby given that the proprietary right of Government to the undermentioned plots of Class B land, situated in the district of Hooghly, relinquished by the East Indian Railway Company and resumed and taken possession of by Government, will be put up to sale at the Hooghly Collectorate, at 11 A.M. on Friday, the 14th June 1872, corresponding with 1st Ashar 1279 *B.S.*

2. The purchasers of these plots will be subject to the following conditions :—

1*st*.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

2*nd*.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

3*rd*.—The plots will be sold revenue free to the highest bidders.

With the addition of the following condition—

The purchasers shall be put up in possession on receipt of the orders of the Collector confirming the sales. But such possession shall be liable to be disturbed in case the final sanction of the Member of the Board of Revenue in charge should not be accorded to the proceedings :—

Sickness in the District of Hooghly.

No. 2197, dated Calcutta, the 24th May 1872.

From—C. BERNARD, Esq., Offg. Secretary to the Govt. of Bengal in the Judl. Dept.

To—The Commissioner of Burdwan.

I AM directed to acknowledge the receipt of your letter No. 267, dated the 16th instant, submitting a report from the Officiating Magistrate of Hooghly on the amount of sickness prevailing in the district, as observed by him during his last tour into the interior.

2. In reply I am to request that you will be so good as to convey to Mr. Pellew the thanks of the Lieutenant-Governor for his interesting and thoughtful, though very sad report. His Honor approves of the action taken by the Officiating Magistrate at Moyapore, and of the transfer of the Khanacool dispensary to that place ; and accepts the view that even now, in the healthy season of the year, the dispensaries and the relief operations must be kept up, so as to brace the people, if possible, against the anticipated recurrence of fever in October next.

3. The Lieutenant-Governor however notices that there has been considerable delay in submitting the Magistrate's report. Information on so important a matter as the state of the fever-stricken districts of Burdwan cannot be too promptly submitted to Government.

No. 267, dated Burdwan, the 16th May 1872.

From—C. T. BUCKLAND, ESQ., Commissioner of Burdwan.

To—The Offg. Secretary to the Govt. of Bengal, Judicial Department.

IN continuation of this office No. 108, dated the 4th March last, I have the honor to forward for the information of Government copy of a letter, No. 150 dated the 28th idem, from the Magistrate of Hooghly, reporting on the health of the district as observed by him personally during his last tour. It will be seen from paragraph 15 of the Magistrate's report that the country round Jehanabad, Moyapore, Gohaut, Singboor, and Kristonagore, has this year been remarkable for the amount of fever. The Khanacool dispensary has been removed to Moyapore, as it was reported that there was little fever at Khanacool. From a report received from the Magistrate, under date the 19th ultimo, it appears that the total number of persons admitted in the Jehanabad dispensary for the first time for medical treatment, during the week ending on the 31st March, was 161, of which 9 were new cases of fever. There was one death during the week. The daily average number of persons who attended the dispensary was 152·12. The total number of persons admitted in the Bally dispensary for the first time for medical treatment during the week was 136, of which 18 were new cases of new fever. There was one death during the week. The daily average attendance was 23·6. The total number of persons admitted in the Moyapore dispensary for the first time for medical treatment, during the week ending the 27th March, was 311, of which 38 were new cases of fever and 273 splenites. There was no death during the week. The daily average number of persons attending the dispensary was 44.

2. I beg also to submit copy of a statement obtained from the Magistrate of Hooghly, showing the dispensaries at present maintained in the district, with the names of the medical officers employed at them. It will be seen that there are now seven dispensaries in the district which are maintained, temporarily, from the epidemic fever relief fund. Two of these, viz. the dispensaries of Kristonagore and Singboor, are in the sub-division of Serampore.

No. 150, dated Hooghly, the 28th March 1872.

From—F. H. BELLEW, ESQ., Officiating Magistrate of Hooghly.

To—The Commissioner of the Burdwan Division.

IN continuation of my No. 82, dated 20th February 1872, I have the honor to report on the health of the district as observed by me personally during my last tour.

2. On the 28th February I left Hooghly and passed through Singboor, where I inspected the dispensary; thence through Bhasooree, where I arrived at about noon, and inspected the dispensary there also. This dispensary was founded by Baboo Bahir Dass Sircar of Peasarah, a rich zemindar, who promised to pay Rs. 50 per mensem for its support, in consideration of which Government supplies instruments and medicines. He was, however, many months in arrears of his subscription, and had omitted to answer reminders from my office. The native doctor complained much of the delay. I therefore took the opportunity of visiting him at his house, which lies a mile or two from the road, and by the threat of immediately closing the dispensary and handing him up to Government, succeeded in obtaining Rs. 600, the amount in arrear, in notes.

3. In the afternoon I crossed the Damoodar and entered the Jehanabad sub-division and stopped for the night in Huringkhola, half way between that river and Jehanabad, where I consulted the local zemindar. At this place I found my camp and the native doctor whom Dr. Thompson had placed at my disposal with his medicines. I had also brought with me Rs. 200 for relief of indigent sick, and some blankets, cloth, and sago.

4. Next morning I visited Moyapore, which is a large village, which has for four years suffered from fever, and which I also visited last year. In this village a tank has been constructed at the expense of Government and Baboo Joy Kissen Mookerjee. The place is however very large, and only a portion of the inhabitants are benefited by this tank. In this village I found about 5 per cent. of the houses deserted and in various stages of ruin, showing that all their inhabitants had died. Much more numerous were the houses of which portions had been allowed to fall into decay, showing that portions of the family had died. In many houses there were none left but sick children and women. I observed further that almost every one I saw in the village had spleen. I had intended to take the native doctor with me to Jehanabad, but things were so very bad at Moyapore that I ordered him at once to establish a dispensary, temporarily, at Moyapore. For this purpose I went to the aided school, where I found two pupils and three masters. After visiting the greater part of the hamlets which comprise the village and the people who go to the dispensary, I instructed the native

doctor to prepare large quantities of a mixture of rum, quinine, and iron, recommended by Dr. Thompson. I supplied him with blankets, cloths, sago, and Rs. 20 for the purchase of rice and dâl for dieting the patients who were dying of anæmia and emaciation, and went on to Jehanabad, paying a flying visit to Kistohatty on the way.

5. I re-visited Moyapore on the next day, and found the dispensary crowded with patients and the native doctor hard at work.

6. In Jehanabad, Kistohatty, and the neighbourhood, the sickness is somewhat less severe: a large number of people have died in former years and many are still suffering, but sickness has diminished during the healthy months of January and February in a more marked manner than at Moyapore.

7. On Sunday, the 23rd March, I visited Bally. The condition of this place is most lamentable,—very little, if at all, superior to Moyapore. The town was attacked with fever first in the year 1870, when about a fourth of the population perished; since which time it has always suffered severely in the months of September, October, and November. The sickness, as at other places and at Moyapore, is now much diminishing, and will probably continue to diminish for the next three months; but still the number of sick is very great, and all the people appear to be debilitated and splenitic. The native doctor here appears to be intelligent and attentive. He had a large daily attendance from Bally itself and the neighbouring villages, and I advanced him Rs. 60 from the relief fund for food and clothing. As I found that he had run into debt to the extent of Rs. 31-8-3 for bazar medicines, I also advanced him this sum from the same fund, to be adjusted when the bills are passed.

8. On the 4th March I inspected Jehanabad and its neighbourhood, the dispensary, &c., and made over Rs. 100 to the sub-assistant surgeon for relief purposes. My instructions, in giving these sums, were to spend them in dieting patients only, cooking the food in the dispensary.

9. On the 5th March I visited Ghattal, returning the next day. I found the new dispensary in good order. The sickness is less in the direction of Ghattal.

On the road between Jehanabad and Ghattal, I observed a good deal of chronic sickness, and found that people went from Dewangunge and other places to attend the Bally dispensary. I inspected Dewangunge on my way back from Ghattal. On the 7th March I was engaged in inspecting the office of the Deputy Magistrate and examining the records of the Income Tax Department, which I had not had time to do before, as I was out all day from Saturday till Thursday. On the 8th I was occupied with the Abkaree settlements, and on the 9th returned to Hooghly, visiting again Moyapore on the way and ordering in the native doctor, who, before he left, made over a supply of mixtures to the school-master for distribution. Having thus described briefly the nature of the inquiries made by me, I beg to offer the following remarks on the sanitary condition of the Jehanabad sub-division.

10. On the whole, I am of opinion that though I visited the sub-division of Jehanabad at a period of the year when fever was rapidly diminishing, yet the condition of the people in certain parts of it was most unsatisfactory.

11. *Thannahs Jehanabad and Gohaut.*—These thannahs form the northern part of the Jehanabad sub-division and adjoin the district of Burdwan. Fever has for the last four years prevailed more or less here, attacking now one village and now another, until at length almost every village has been visited. The first year of the fever in each village has always been marked by exceptional mortality, after which the disease diminishes in violence and becomes chronic and languid. Each year however, in the month of October, there is a perceptible increase in the violence of the symptoms. In last October the outbreak was unusually severe, many new villages were attacked, and villages, such as Moyapore, in which it was supposed to have nearly died out, were attacked almost with the original violence of the disease.

12. In almost all the villages the sequelæ of fever are still plainly evident in the countenances of at least half the population. In every large village moribund cases were to be still found.

13. In Ghattal and Chunderkonah, bordering Midnapore, fever had previously been scarcely known, but last October several villages were severely attacked. It is, however, much less severe there than to the north, and the condition of these thannahs more nearly resembles the condition of Bansbarya, Pandooah, and other parts of Hooghly, described in previous reports.

14. In Khanacool there is now little fever. It must be understood that there is no doubt that since December fever has become less in all the thannahs. The cases are now all, or almost all, chronic; but sickness is so widespread in the northern thannahs of the sub-division, and there seems so strong reason to believe that it will be as bad again next year if further measures are not taken, that I can only describe the state of the sub-division as most serious.

15. I consider that efforts ought to be carried on with special vigour at this favorable season of the year to strengthen and improve the condition of the people, and eradicate, if possible, the malaria from their systems. I therefore recommend that all the present dispensaries in Jehanabad and Gohaut should be retained, and that the Khanacool dispensary should be transferred to Moyapore.

I also venture to make the following remarks. The country round Jehanabad and Moyapore is high; the country round Gohaut is high also. In neither of these tracts are there any railroads, nor is there any interference with drainage. The country round Singboor is high also; round Kristonagore it is low, yet all these places have this year been remarkable for the amount of fever.

16. The soil round Bally is sandy; at Jehanabad, clay and sand; at Moyapore, sand with a little clay; at Kristonagore, black clay.

17. In all these places there are good tanks and bad tanks. The Jehanabad people have beautiful river water as well. The prisoners in the lock-up there always drink river water. Yet these circumstances make no difference whatever. These facts confute almost all, I believe, of the theories as yet advanced to account for the fever.

18. I have only observed two facts about the disease which appear unquestionable,—*first*, that the fever is directly induced by exposure to cold (having probably been previously latent in the system,) and hence the great increase of cases in the first cold nights of October and November; *second*, that on first attack on a village it is of a very rapid and mortal type, but rapidly diminishes in violence and dies out, or nearly dies out as a rule, in four or five years in each place, although it seems to be liable to a temporary revival under certain unknown conditions, such as have probably occurred this year.

Report on Sylhet Tea Gardens for the year 1871.

(*RESOLUTION.*)

JUDICIAL DEPARTMENT,—EMIGRATION.

Calcutta, the 30th May 1872.

READ—

Commissioner of Dacca's letter No. 21, dated 20th February, forwarding the inspection reports on Sylhet tea gardens for the year 1871.

READ also—

The half-yearly returns of laborers in Sylhet for the year 1871.

1. The Lieutenant-Governor observes that these are the most satisfactory reports of the condition of laborers on tea gardens that have yet come before him. There are five gardens* in Sylhet, on which there are on the average about 560 laborers. These gardens had, with one exception, been visited by the Inspector twice during the year. The laborers' lines are well kept; the laborers are said to look well and healthy, even though some of them came to their gardens at unhealthy seasons; the condition of the up-country coolies is noted at the Chargola garden only, where they are said to look healthy and well. There were six deaths during the year, all of which occurred on the Puttoreah garden; this garden contains more than half of all the laborers in Sylhet. Twenty-two re-contracted laborers deserted during the year; four laborers were imprisoned during the year. There were no complaints on any of the gardens; and the Inspector found that on no garden were there any arrears of pay due to the laborers.

* Branch gardens are reckoned as part of the parent garden when both are close together.

2. These figures contrast most favorably with similar statistics for the year 1870, thus:—

	1870.	1871.
Average number of laborers during the year ...	590	... 560
Deaths during the year	25	... 6
Laborers imprisoned	1	... 4
Laborers who deserted	54	... 22
" " imported during the year ...	65	... 116
" " engaged or re-engaged in Sylhet	333	... 344

No deaths occurred during the year 1871 on the Cherragaon garden, on which 35 per cent. of the laborers died during the year 1870. The Magistrate of Sylhet has specially reported that he believes the returns now under review are correct; and the Inspector, on his visits to each garden, satisfied himself that the books and registers of laborers were correctly kept; so that there can be no room for doubt but that the Sylhet tea coolies were well looked after, and were very healthy during the year 1871.

3. The Lieutenant-Governor approves the remarks and orders passed by the Inspector and by the Commissioner in regard to the insufficiency of sleeping places and of medicines at two of the gardens.

Agricultural and Horticultural Society at Satkirah.

Extract of a letter from G. GRAHAM, ESQ., *Officiating Magistrate of the 24-Pergunnahs, to the Commissioner of the Presidency Division, No.* 318, *dated Alipore, the 9th December* 1871.

* * * * * *

PARA. 9. *Satkirah.*—I have previously given some account of the inundation here, the effects of which were much more serious than those in Baraset. The Echamutty river was the cause of the flood here also. The waters began to rise on the 1st, and between that and the 17th September attained a height of more than seven feet above the usual high water mark. After that date the waters began to subside, but on the 4th October began again to rise, and between that and the 14th attained nearly their former height, after which they began to fall, and by the 31st had completely subsided.

10. The rise was so gradual that the people had time to remove their household property and cattle to places of safety. Two lives only were lost—one, a little girl, at Ballidangah, who fell into some shallow water while her parents were engaged in removing their goods and chattels, whose case I mentioned in my previous report, and one a man who foolishly tried to swim across a strong current near to Goddaghatta.

* * * * * *

12. However, I have recently been through a considerable portion of this tract, and I have seen whole plains denuded of their crops. For all this I do not believe there will be any real distress. In that portion where any *ous* crop was grown nearly the whole has been saved, and the people have their *molasses* manufacture and their cold weather crops. These remarks apply to the northern part of the sub-division, where the effects of the inundation were mostly felt. I myself saw most active preparations for the above-mentioned manufacture, and the cold weather crops everywhere looked most promising.

13. Further, the Satkirah Agricultural and Horticultural Society have furnished seeds for the sowing of *boro dhan* and other seasonable crops. Up to the 8th November seed sufficient to sow 2,000 beegahs had been sold or given gratuitously to 600 ryots. The Deputy Magistrate has promised a further history of this Society, which was established in January last. It was instrumental in forming a Flood Relief Committee; and when I was at Satkirah the amount of subscriptions retained in hand to meet any real cases of distress amounted to nearly Rs. 500.

14. I should add that Babu Debnath Chowdry, a resident zemindar here, has provided all his ryots who chose to apply to him with seed, the price of which they are to repay him after the in-coming crops are reaped. This gentleman informed me that the Deputy Magistrate had taken very great trouble in promoting and furthering the operations of the "Flood Relief Committee."

15. In those villages to the south of the sub-division where the *amun* crop was totally destroyed and no *ous* is grown, the people have only to take a few hours' journey in a boat to the cultivated parts of the Soonderbuns, where labor is much required, and they are allowed $\frac{1}{28}$th part of what they cut. The crops in these parts are most luxuriant this year, and I saw boats crowded with reapers going down to work there.

16. A considerable number of cattle have died; but everywhere on inquiry I was told that the disease had almost entirely ceased. Further, there did not appear to be any unusual amount of fever.

From—R. H. WILSON, ESQ., Offg. Under-Secy. to the Govt. of Bengal.

To—The Offg. Commr. of the Presidency Division.

I AM directed to acknowledge the receipt of your letter No. 61R, dated the 14th ultimo, with its enclosure, and in reply to request that you will have the goodness to convey the thanks of the Lieutenant-Governor to the Collector of the 24-Pergunnahs for his report regarding the condition of his district since the recent heavy inundations, as well as an expression of His Honor's satisfaction at the comparatively slight injury which it has sustained.

2. With reference to paragraph 13 of the Collector's letter, I am to state that the Lieutenant-Governor observes with satisfaction the notice of the assistance given to the ryots by the Agricultural and Horticultural Society of Satkhira, and that he will await with interest some account of that Association.

3. In the following paragraph His Honor also notices the favorable mention which is made of the Deputy Magistrate in connection with the operations of the Flood Relief Committee.

4. With regard to paragraph 22 of Mr. Graham's letter, I am to observe that the contrast which the conduct of the inhabitants of Goburdangah in not forming themselves into a relief committee affords with the action of the residents of Satkhira, is not creditable to those of Goburdangah.

No. 132, dated Alipore, the 11th May 1872.

From—G. GRAHAM, ESQ., Offg. Magistrate of the 24-Pergunnahs.

To—The Commissioner of the Presidency Division.

IN reply to your No. 97JG, dated the 3rd instant, I have the honor to point out that the report sent up was not that of the Deputy Magistrate of Satkirah, but was prepared by Babu Debnath Roy Chowdry, the President of the Agricultural Society.

2. I mentioned this Society in my report on the inundation which occurred in this district last year, because its members formed the principal support of the Flood Relief Committee.

3. Its history, object, and the work it has done, may be shortly stated as follows.

Babu Debnath Roy Chowdry, the principal resident landholder at Satkirah, had established an institution, called the Bidya Somaj, which comprised an Agricultural Department, in connection with which yearly exhibitions were held. These were discontinued, and the late Deputy Magistrate, Babu Shiva Prosad Sandyal, determined to revive them. An exhibition was held on the 15th January 1871, and at a meeting on the 15th February of the same year the Society was formed, and the President, Secretaries, and Members of the managing committee, chosen.

4. The objects of the Society are stated by Babu Debnath Roy Chowdry to be—To reform the defects of the old system of agriculture as prevalent in these parts; to distribute to the ryots seeds of such things as are not available here; to introduce the cultivation of foreign vegetables and such other things as will prove profitable to the ryot; to give requisite information to farmers on all difficult agricultural questions, and to encourage trade in agricultural produces.

5. The Society hopes to extend its operations, but its means are limited, as at present the donations amount to Rs. 1,000 only. Babu Debnath Roy Chowdry has a garden, which he has placed at the disposal of the Society for two years. Last year American vegetable seeds received from the Agri-Horticultural Society in Calcutta, to which this Society is a subscriber, and various kinds of country vegetables, were tried in this garden and also distributed gratis among the residents in the neighbourhood. Grafts of various sorts of fruit trees, Bombay mangoes, and others, were brought from the Calcutta Society and sold to inhabitants of Satkirah.

6. The fact is that not much has been done, and when I was at Satkhirah in November last the garden did not appear to be in a very flourishing state. Possibly with encouragement the Society may increase in importance, and be of substantial benefit to the neighbourhood

To—The Offg. Commissioner of the Presidency Division.

I AM directed to acknowledge the receipt of your letter No. 7RG, dated 18th instant, with its enclosure, and in reply to say that the Society has at least done an excellent work in assisting the ryots after the inundations, and the objects which they set before themselves in view to the improvement of agriculture and horticulture are most praiseworthy and excellent.

2. His Honor the Lieutenant-Governor has much pleasure in contributing Rs. 500 from the provincial funds towards enabling the Society to resume the operations, which must have been hindered by their exertions during the inundation.

3. I am further directed to request that you will communicate to the Society that His Honor will look to its operations with great interest, and will be happy to give it reasonable aid in any measures of thoroughly practical improvement which it may be able to carry out.

Statement showing Rainfall, Weather, State and Prospects of the Crops in the different Districts of the Lower Provinces of Bengal, as reported to Government during the week ending 1st June 1872.

No	District.	Date of return from each district.	Rainfall at Sudder Station in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
		1872.				
1	Patna ..	June 1st	Nil ...	Very hot with west winds.	Crops nil.	
2	Gya ...	„ 1st	Nil ...	Excessively hot ..	No crops ..	Cholera is prevailing in certain parts of the district.
3	Chumparun ...	„ 1st	Nil ...	Fair weather; east winds; very hot.	Indigo, cheena, and other crops continue good, but rain is wanted.	
4	Sarun ...	„ 1st	Nil ...	Fair weather; east and west winds.	The prospects of indigo is favorable. Cotton—the pods are being picked; sugarcane, sati dhan. and late cheena have grown up well; there is still moisture in the fields.	
5	Shahabad ...	„ 1st	Nil ...	Variable; east and west winds; heat excessive; no rain. Thermometer— Maximum ... 111 Minimum ... 83 Barometer— Highest reading 29·658 Lowest ditto 29·530	Crops nil.	
6	Tirhoot ...	„ 1st	Nil ...	Hot and dry during the day; rain is wanted.	Indigo, dhan, moong, cheena, sugarcane, and konni crops continue good. The recent rains at Seetamurhee and Durbhanga sub-division have much improved the state of the crops.	
7	Bhaugulpore ...	„ 1st	Nil ...	No rain; very hot; strong westerly winds.	In the sudder sub-division, as reported last week, rain is much wanted.	
8	Monghyr ...	„ 1st	.....	Excessive heat with west winds.	Indigo very promising. No other crops on the ground.	
9	Purneah ...	.....	.....	.....	.....	Return not received.
10	Rajmehal ...	„ 1st	Few drops only this day.	No rain; the heat most excessive.	Everything suffering from want of rain; where the young dhan has got above ground, it is said to be withering. To the south cattle are said to be suffering much from want of food as there is no grass.	
11	Deoghur ...	„ 1st	Nil ...	Hot, oppressively so towards close of week.	Sugarcane is getting on fairly, but is likely to suffer if no rain falls within the next few days.	
12	Nya Doomka ...	„ 1st	Nil ...	Excessively dry and hot. Thermometer in shed— Maximum .. 108′ Minimum ... 86′	Rain very much wanted; all agricultural operations are at a stand-still; country being scorched up.	
13	Godda ...	„ 1st	Nil ...	Excessively hot; no one remembers having ever experienced such hot weather.	Nothing to report on.	
14	Jamtara ...	„ 1st	Nil ...	Very hot ...	Rain required; otherwise favorable.	
15	Rajshahye ..	...	.....	.....	.....	Return not received.
16	Bograh ...	„ 1st	·55	Hot, sultry, and oppressive.	Satisfactory.	

No.	District.	Date of return from each district.	Rainfall at Sudder Station in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
17	Dinagepore ...	1872 June 1st	Nil ...	Excessively hot during the whole week; scarcely any cloud; a squall at 2 A M on Tuesday with rain threatening, but it broke up again. Temperature— Highest ... 103·5 Lowest .. 83	The rain has benefited what crop there is.	
18	Maldah ..	„ 1st	Nil ..	Exceedingly hot and dry	Good.	
19	Moorshedabad ...	„ 1st	.....	Extremely hot and oppressive.	Fair, provided rain falls soon.	
20	Pubna ..	„ 1st	·05	Favorable.	Favorable	
21	Rungpore ...	„ 1st	·80	Hot and sultry.	Good	
22	Burdwan ...	„ 1st	Nil ...	Very hot ..	Rain is much wanted for sowing ous and amun crops.	
23	Bancoorah ...	„ 1st	Nil ...	No rain; very hot ..	Rain is very much wanted; ploughing is at a standstill.	
24	Beerbhoom ...	„ 1st	Nil ...	Extremely hot; no rain.	Sowing has commenced in places, but more rain is necessary.	
25	Hooghly ...	„ 1st	29·. Drizzling.	Most part of the week clear and hot; there was slight shower of rain on the 29th May 1872.	Amun and ous sown and planted out in parts of districts; in others sown. but not planted out, as the ground is too hard for want of rain.	
26	Howrah ...	„ 1st	Nil ...	No rain fell in any part of the district The heat has been very great.	Want of rain and the extreme heat are injuriously affecting the young paddy and sugarcane. especially in the south of the district.	
27	Midnapore ...	„ 1st	Nil ...	Very hot and close ...	Ploughing is going on to some extent; rain is still very much wanted for the indigo and for the sowing of amun paddy.	
28	Nuddea ...	„ 1st	Nil ...	Damp and exceedingly hot.	Most promising.	
29	Jessore ...	„ 1st	·89	In most parts hot and sultry.	Good.	
30	24-Pergunnahs ...	„ 1st	Nil ...	Hot and sultry; more rain wanted all over the district; there were slight showers in Diamond Harbour, Barrackpore, Bussirhat, Baraset, and a heavier fall in Dum-Dum and Baranpore. Mean temperature at noon 92°. Direction of wind south-east.	Jute has been sown, and in some places the young plants have germinated, ous sowings have generally commenced; sugarcane plants are thriving; want of rain generally felt.	
31	Dacca ...	„ 1st	Nil ...	Very hot; a slight shower on Wednesday.	Good.	
32	Backergunge ...	„ 1st	Nil ...	Hot and close ..	Good.	
33	Furreedpore ...	„ 1st	Nil ...	Weather hot, close. and oppressive. No unusual sickness of any kind in the district.	Fair.	
34	Mymensingh ...	„ 1st	Nil ...	Dry and hot ..	More rain wanted.	
35	Sylhet ..	May 25th	1·44	Very hot. Maximum temperature of week 91°; minimum 71°; range 20°; mean of highest readings 89°, mean of lowest readings 74·9°; approximate mean 81·9°.	The dry weather that has now set in will be most beneficial to the crops.	

No.	District.	Date of return from each district.	Rainfall at Sudder Station in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
		1872.				
36	Cachar ...	May 25th	2·24	Hot and sultry ...	Prospects very good; ploughing and sowing going on all over the district. The tea crop is not so good as might be wished.	
37	Chittagong ...	„ 27th	Nil ...	Hot and close ...	Nothing in the ground yet; ploughing for early sowing going on.	
38	Noakhally or Bulloosh	„ 25th	Nil ...	The weather has been very hot and close during the past week.	In Soodharam and Ramgunge linseed and chillies have suffered a little from the rains; the state of the crops in other parts of the district is good. Rain sadly wanted after such excessively dry weather.	
39	Tipperah ...	June 1st	Nil ...	Extremely hot ...	Good weather for the rice crop.	Outbreak of cholera in the sub-division is subsiding.
40	Hill Tipperah.					
41	Hill Tracts of Chittagong.	May 25th	Nil ...	Sunny ...	Good.	
42	Cuttack ...	June 1st	0·72	There has been general rain, but less than at the sudder station.	Ploughing has progressed within the last fortnight, but more rain is urgently required, as the ground is still hard and not in a fit state to be sown. Cultivation is well advanced in Jajpore, but very backward in the rest of the district.	
43	Balasore ...	„ 1st	Nil ...	Hot; rain in Bhuddruck 2·47.	Good sowing commenced.	
44	Pooree ...	May 25th	A slight shower on the 21st.	Rain in the district ...	The rain has not been enough to admit of ploughing.	
45	Hazareebaugh ...	June 1st	Nil ...	Very hot ...	Sowings commenced. Rain much wanted.	
46	Lohardugga ...	June 1st	Nil ...	Hot and close ..	The low land dhan has been sown in some parts and has germinated.	
47	Maunbhoom ...	„ 1st	Nil ...	Fair and hot ...	Want of rain is felt and early crops suffering in consequence.	
48	Singbhoom ...	May 25th	.....	Seasonable, but more rain wanted.	Sowings progressing ...	Rainfall column defective.
49	Durrung ...	„ 25th	2 46	Changeable ...	Ploughing going on; tea report contradictory.	
50	Nowgong ...	„ 25th	3·30	Change of weather with the full moon; very hot and sultry.	Crops doing well. Tea ditto.	
51	Seebsaugor ...	„ 25th	2·56	The weather was very warm, damp, and unhealthy.	The reports received of ous dhan crop and tea crop continue good.	
52	Kamroop ...	„ 25th	1·29	Hot and dry, excepting 19th and 20th.	Prospects of crops and tea are favorable.	
53	Luckimpore ...	„ 25th	·97	Cool, with occasional showers during the first two days of the week; remainder extremely hot and sultry. Thermometer— Maximum ... 95′ Minimum ... 85′	Rice commenced to be sown in the nurseries.	
54	Khasi and Jynteah Hills.	„ 25th	1·31	Showery but seasonable.	Good.	
55	Naga Hills ...	„ 18th	Nil ...	Very similar to the previous week.	Crops well up and looking healthy.	
56	Julpigoree ...	June 1st	1·62	Hot ..	More rain wanted.	

No.	District.	Date of return from each district.	Rainfall at Sudder Station in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
		1872.				
57	Gowalparah ...	May 25th	·22	Misty; rain—passing showers, thunder, and lightning, and visibility of objects.	It is reported that cheena and kawn crops were greatly injured by the late hail-stones, but no harm was done to paddy plants.	
58	Garo Hills ...	„ 25th	·81	Windy ..	Healthy.	
59	Darjeeling ...	June 1st	Nil ...	Unusually dry and warm.	The crops of the hills are the same as before. The season is still young, and both standing crops and sowings are doing well.	Cholera still clings to some parts of the district, but is on the whole decidedly on the decrease.
60	Cooch Behar ...	May 25th	·54	Seasonable ...	Good. Jute sowings have commenced.

NOTE.

Barometric Pressure.—The pressures in column 2 of the above table for all stations below 500 feet are reduced from those given in column 3 of the table on the previous page by adding the weight of a column of air of the corresponding temperatures given in column 17. For stations of above 500 feet elevation, the reduction is made by Dippe's tables as given in Guyot's "Meteorological and Physical Tables." The temperatures at the sea-leve lbeing taken from column 3 of the above table.

Temperature.—The temperatures in column 3 are reduced from those in column 17 on the preceding page by adding 1° Fahr. for every 350 feet.

Wind Resultant.—The resultant wind direction and the comparative predominance are calculated from the whole number of wind observations recorded during the month. The latter is given as a percentage of the whole number of observations. The mean direction is computed in the usual way by Lambert's formula.

Serenity.—This column gives the average proportion of unclouded sky, a cloudless sky being indicated by 10 and one completely overcast by 0.

The above being all comparable, afford the data for constructing a meteorological chart for the month, which shall show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length, proportioned to the prevalence of the wind. To these may be added the rainfall from the previous tables.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four-hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet, 10 inches, above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

High Court Notices.

Circular Order by the High Court of Judicature at Fort William in Bengal.

MEMO. No. 10.

To all District Judges and Judicial Commissioners,—(dated Calcutta, the 23rd May 1872.)

HIGH COURT.
CIVIL SIDE.
Present:
The Hon'ble Louis S. Jackson, One of the Judges of the Court.

THE annual reports for 1871, which have been received, show a want of uniformity in the preparation of the comparative tables superscribed, respectively, "ORIGINAL JURISDICTION" and "APPELLATE JURISDICTION," provided by Circular Order No. 4, dated 2nd February 1871. To ensure uniformity in their preparation, District Judges and Judicial Commissioners are hereby informed that the instructions given in the Circular Order No. 25 of 12th August 1871 must be understood to apply to the headings "Instituted" and "Disposed of" in the above tables. All transfers, therefore, though properly included in the black ink figures under the general heads just named, should be *excluded from* the red ink figures to be entered under the former, as is done in the quarterly returns.

2. Where the above tables in the reports for the year 1871 have been prepared on any other principle, amended ones should be sent without delay, and where they have been prepared on the above principle, *i.e.*, where the black ink entries have been made to include transfers (as they should have been), supplementary returns should be submitted, showing, in red ink, the cases actually *instituted* or *decided* in the Courts concerned, exclusive of transfers.

By order of the High Court,

F. B. PEACOCK,
Registrar.

Returns of Joint-Stock Companies for 1871.

From H. BEVERLEY, ESQ., Inspector-General of Registration, to the Secretary to the Government of Bengal, General Department,—(No. 1617, dated Calcutta, the 2nd May 1872.)

I HAVE the honor to forward, for the information of Government and for publication in the *Gazette*, the returns of Joint-Stock Companies for the year 1871, submitted by the Registrar agreeably to Government order No. 352, dated 15th January 1866.

2. It will be noticed that some of the figures shown in the comparative statistics differ from those submitted by the Registrar in previous years. The Registrar, however, assures me that the present figures may be relied on, and I have myself tested the accuracy of several of them. The history of each company has in fact under my orders been traced back from the very commencement; and though the records of some of the earlier years are incomplete, the figures given are, I believe, as correct as can now be ascertained. It will be observed that more than half the companies registered during the period between 1857 and 1871 have gone into liquidation.

3. There are two points in connection with the working of the Indian Companies' Act during the past year which may fitly be noticed in this place. In the case of the *Sarawak Jainee Hindustan Trading and Banking Company, Limited,* it has been laid down by the Advocates-General of Bengal and the Punjab that a company which has been registered under one local Government cannot transfer its office to the jurisdiction of another local Government, "a part of India" under the Act being interpreted to mean a part subject to the same local Government.

4. On inspecting the Registrar's office at the close of last year, I discovered that, following the practice of his predecessor, the Registrar was in the habit of charging fees for acts done by him in his official capacity, for which, as it seemed to me, no fee could legally be charged. Thus the law prescribes that certain documents shall from time to time be filed or recorded by the Registrar, and in certain cases a fee is prescribed for such registration.

But over and above this fee, I found that the Registrar was in the habit of taking a second fee for certifying that the record had been effected. As this procedure appeared to me to be illegal, I referred the matter to the Advocate-General, and a copy of my letter and of his reply is herewith forwarded for the information of Government. Baboo Chunder Mohun Chatterjee's predecessor in this office was the Registrar of the High Court in the original side, and there is therefore every excuse for his having followed that officer's practice without troubling himself to inquire into its legality. As it is, however, the fees under the Companies' Act are very high (twice as high as in England), while the necessity imposed by the law of registering certain of their documents is in itself sufficiently onerous without affording any plea for the illegal levy of unjust dues.

Relief Operations in the Fever-stricken Districts of the Burdwan Division.

(*RESOLUTION.*)

JUDICIAL DEPARTMENT,—MEDICAL.

Calcutta, the 5th June 1872.

READ—

Letter No. 710F of the 25th May 1872, from the Commissioner of the Burdwan division, submitting a list of subscribers to the Burdwan Fever Relief Fund.

1. The Lieutenant-Governor is gratified to learn that the total amount of subscriptions to the fund in aid of the relief operations in the fever-stricken districts of the Burdwan division has reached Rs. 24,430. His Honor desires that the Commissioner will be good enough to convey the thanks of Government to all subscribers. More than sixty dispensaries as well as twelve food relief depôts were, or are now open daily in the districts of Burdwan and Hooghly; nearly 40,000 people receive medical treatment daily. The dispensaries are still being maintained, though the fever has much abated; for the medical authorities consider the people who have been weakened by this year's fever ought to be braced up by continual treatment against the too probable return of epidemic fever at the end of the rainy season.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Commissioner of the Burdwan division for information and guidance, and that the lists of subscribers, with this Resolution, be published in the *Calcutta Gazette.*

No. 2387.

COPY as above forwarded to the Commissioner of the Burdwan division, who is informed, with reference to paragraph 3 of his letter quoted, that the subscriptions received from the Magistrate of Hooghly,—in fact all subscriptions for the relief of the fever-stricken people of both districts,—should be sent to the Bank of Bengal for credit to the "Burdwan Division Epidemic Relief Fund."

No. 710F, dated Burdwan, the 25th May 1872.

From—C. T. BUCKLAND, ESQ., Commissioner of the Burdwan DIVISION.

To—The Secretary to the Government of Bengal, Judicial Department.

WITH reference to the orders contained in your letter No. 1399, dated the 5th April, I have the honor to report that a list of the subscriptions to the Burdwan Fever Relief Fund was received from the Magistrate of Burdwan on the 16th March last. With a view to ascertain the total subscriptions up to date which have been credited to the Burdwan Division Epidemic Relief Fund in the books of the Bank of Bengal, I had to call for the pass-book from the Magistrate of Burdwan and to send it to the Secretary and Treasurer of the

Bank to be written up to date. I now beg to forward a complete list of the subscriptions copied from the pass-book, as it has been received back from the Bank duly written up.

2. The total amount of subscriptions up to date, as entered in the Bank's pass-book, is Rs. 22,930-12-6, whereas the list of subscriptions received from the Magistrate in March last exhibited the total subscriptions as amounting to Rs. 20,170, as there are several new subscriptions which have been subsequently paid.

3. I also beg to submit a separate list of the subscriptions received from the Magistrate of Hooghly, amounting to Rs. 1,355. I have requested the Magistrate to make further efforts to obtain subscriptions, and he has informed me that he has since obtained a few hundred rupees more. I presume that these subscriptions should also be sent to the Bank of Bengal to be credited to the Epidemic Fever Fund.

Annual Report of Calcutta Native Hospital.

(RESOLUTION.)

JUDICIAL DEPARTMENT.—MEDICAL.

Calcutta, the 30th May 1872.

READ—

A letter dated April 1872, from the Governors of the Calcutta Native Hospital, submitting the usual annual statements showing the working of that institution and of the branch establishments attached to it during the year 1871.

1. The table on the margin exhibits the number of patients treated during the last two years. The increase in the attendance during 1871 was 3,960. It is understood that in the Native Hospital returns each visit of an out-patient is treated as one case. The Lieutenant-Governor would be glad if the Governors could arrange also to show in the returns the precise number of *new* cases, in order to admit of a comparison with the results in other institutions of Bengal. It has been demi-officially ascertained that there were during the year of review 1,377 new cases among in-door and 53,127 among out-door patients. This would give three as the average number of times each out-patient was treated.

2. The results of the treatment of in-patients are shown in the annexed statement, and it is satisfactory to note that a considerable improvement has taken place in the death-rate, as the percentage to the number treated was 6·93, against 11·5 of the preceding year, and, excluding cholera cases, the percentage was 5·1.

The results of the treatment of important cases under this head for two years is compared on the margin. The number of surgical operations performed during the year at the branch dispensaries was 5,402, viz.—

These statements seem hardly to bear out the views submitted by Dr. Macnamara in proposing a change in the site of the hospital regarding the comparative inutility of the Circular Road Dispensary, which seems to be the same as that here called Park Street Dispensary; it seems to be very largely frequented.

6. The actual expenditure incurred in the aggregate on the Native Hospital and its branch dispensaries for two years is noted on the margin. The expenditure was in excess by Rs 7,721 over that of the previous year, but this is owing to the cost of repairing premises No. 7, Hospital Lane, and of laying on water. The receipts during the year from all sources amounted to Rs. 48,880-5, very little in excess of the receipts during the year 1870. The amount of subscriptions and donations this year amounted to Rs. 4,855. In 1870 the receipts from this source were Rs. 4,174.

8. The result of the returns seems to be to show that a very great amount of good is done by this excellent institution, and that it is very well managed and its funds have been well husbanded.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Governors of the Calcutta Native Hospital, with reference to their letter quoted above, of which the original enclosures are herewith returned.

Ordered also that a copy of this Resolution be forwarded to the Inspector-General of Hospitals, Indian Medical Department, for information.

Proposal to remove the Calcutta Native Hospital.

The Lieutenant-Governor's review of the report of the Governors of the Native Hospital for the year 1871.

RESOLUTION.—The Calcutta Native Hospital is now situated in Dhurrumtollah Street, in-patients are there treated, and the hospital officials live there. Attached to the institution are three branch dispensaries,—one in the north of

the native town, known as the Chitpore Road Dispensary; a second, known as the Guranhatta Dispensary; and a third in the Circular Road, known as the Park Street (or Circular Road) Dispensary. The Superintendent of the hospital and the Governors now propose to sell the Dhurrumtollah Hospital and premises and with the money so obtained to build a new hospital at Prosonno Coomar Tagore's Ghât on the river bank. The grounds for leaving the old premises are, that they are old; they are much shut in by houses; they are not suited for a hospital, and cannot be made suitable; and are not very healthy. The arguments in favor of the site now selected are, that it can be had for nothing; it will be very healthy, having a river frontage; its air will be pure; its situation is central for the greater part of the native town; the native population like the site; and the descendants of Prosonno Coomar Tagore are in favor of the scheme, as also are the Port Commissioners. A new hospital on this site could have separate wards for different classes of cases; it could have water laid on; and could be of the most approved design.

2. The financial prospects of the scheme are estimated by the Surgeon-Superintendent to stand thus:—

	Rs.	Rs.
Messrs. Mackintosh, Burn and Company estimate the cost of the new hospital central block, with east wing complete at		1,75,000
Railings, out-offices, &c.		18,000
Levelling and making roads		2,500
Total ...		1,95,500
The Surgeon-Superintendent (Dr. Macnamara) accepts Messrs. Mackintosh, Burn's estimate that the Dhurrumtollah land and premises will fetch		1,27,300
Ditto ditto, Guranhatta Dispensary premises ...		20,000
There is in hand for building purposes—		
From M. DeSouza's will	10,000	30,000
From special collections	10,000	
Expected savings from the annual income of the institution during the next year	10,000	
Total ...		1,77,000

It is observed that one of the Governors was in some doubt whether the Dhurrumtollah premises would really yield the full sum on which the Surgeon-Superintendent reckoned. No provision is made to meet the interest on the money with which the new hospital will have to be built; and until the new building is ready, the Dhurrumtollah and Guranhatta institutions must both be maintained. It is not proposed to touch the endowment fund of the hospital—about three lakhs of rupees; so that the institution will still have its present income, whether the present scheme be carried out or not.

3. If the scheme be carried out, then it is proposed to close the Guranhatta Dispensary, as the area served by that dispensary lies close to the site of the proposed new hospital. Their scheme includes the retention of the branch dispensary in the Chitpore Road and the establishment of a new dispensary on or near the site of the present hospital. The Governors propose also to close the Park Street Dispensary.

4. The petitioners who are against the proposed change, urge that the Native Hospital has a very central position in Dhurrumtollah, and that the city will suffer if the hospital be removed therefrom.

5. After considering the whole matter and discussing it with Dr. Macnamara, the Lieutenant-Governor has some doubts about the proposed change; he thinks that the present hospital is extremely useful; that it is in a part of the town where it is much wanted; where accidents from horses and carriages for instance are common. Moreover, the scheme contemplates the sale not only of the Dhurrumtollah premises, but also of another dispensary.

A result of the scheme would be that one of the dispensaries connected with the institution would be reduced. It is proposed, indeed, to make provision for a new dispensary in Dhurrumtollah near the site of the present hospital; but the details of the way in which the cost of this new dispensary and its buildings will be met are not quite clear. On the other hand, the Lieutenant-Governor is prepared to admit that the provision of a new hospital on the Strand Bank may be a very desirable arrangement, and Dr. Macnamara says there are strong opinions in favor of the change.

6. On the whole, the Lieutenant-Governor considers that the best way will be to publish the correspondence, and to invite the opinion of the various interests concerned. When the scheme shall have been some little time before the public, and a full expression of opinion has been evoked, the Government will decide what steps it can take in the matter.

ORDERED, that a copy of the foregoing resolution, with the papers read, be published in the *Calcutta Gazette*, and that a copy of the foregoing resolution, with the papers read, be forwarded to the Surgeon-Superintendent of the Calcutta Native Hospital.

Dated Calcutta, the 15th October 1871.

From—DR. C. N. MACNAMARA, Surgeon-Supdt. of the Calcutta Native Hospital.
To—The Secretary to the Government of Bengal.

I BEG you will kindly submit the enclosed memorial and correspondence to His Honor the Lieutenant-Governor of Bengal, soliciting him to allow the Governors of the Calcutta Native Hospital to build a new hospital on the site mentioned in the memorial.

The reasons which have led the Governors to wish to rebuild the Native Hospital are mentioned in the accompanying letter (marked A), and from the names appended to the memorial it is evident that the influential native inhabitants of Calcutta are almost unanimously in favor of the change; this seems a matter of importance, because, should the Government at any future time find it necessary to lessen their subscriptions to the hospital, the place must be closed unless supported by the richer classes of the native community. It was for the treatment of surgical cases among their poorer brethren the institution was established some eighty years ago, and the main object of the plan now proposed is (1) that the sick may receive the advantage of pure air and proper hospital accommodation; (2) that the institution being removed to within sight and easy access of the native quarter of the town, it may attract the attention and support of those who can well afford assistance, but who are never likely to see the place, and much less inspect or take much interest in it under existing circumstances.

The accompanying letters marked B and C explain the reasons under which the grant of land mentioned in the memorial was made over by Government to the late Hon'ble Prossono Coomar Tagore. It appears the Commissioners for making Improvements in the Port of Calcutta cannot make use of the land in question, and it is equally certain the executors of the late Hon'ble Prossono Coomar Tagore can do nothing with it; nevertheless the place is useless for the purposes of a ghât, the river having left the buildings erected for that purpose some distance inland. It is to be observed, however, that those most immediately interested in the property of the late Prossono Coomar Tagore, viz Rajah Jotendra Mohun Tagore and one of Prossono Coomar Tagore's executors, have signed the memorial, together with the heads of the various branches of the Tagore family, requesting the Government to resume the land known as Prossono Coomar Tagore's ghât, in order that a Native Hospital may be erected on the spot.

In a letter (Home Department, No. 769, dated the 22nd October 1852,) the Governor-General declares that the river bank "shall be used permanently and exclusively for purposes of *public utility* connected with the trade, the traffic, *the health, and convenience of the community*," the proposed hospital would seem to fulfil the majority of the purposes mentioned in this order, and will therefore it is hoped render the scheme acceptable to Government.

Dated the 20th August 1871.

To—The HON'BLE J. P. NORMAN, Offg. Chief Justice, DR. CAMPBELL BROWN, C.B., Inspector-General of Hospitals, Bengal, BABOOS ROMANATH TAGORE and HERA LALL SEAL, T. A. APCAR, ESQ., RAJAH KALI KRISHNA BAHADOOR, MANOCKJEE RUSTOMJEE, ESQ., STUART HOGG, ESQ., C.S., E. S. GUBBOY, ESQ., MOONSHEE AMEER ALI, E. GAY, ESQ., and the RIGHT REVEREND THE LORD BISHOP OF CALCUTTA, Governors of the Native Hospital.

IT is hardly necessary for me to remind you that the Native Hospital was established by Marquis Cornwallis in the Fouzdaree House, Chitpore Road, in 1793, for the relief of "the native inhabitants of Calcutta in general, and more particularly for the laboring part of them." During the time the institution remained in the Chitpore Road the native subscribers were numerous. For reasons however unknown to me the hospital was removed in 1797 to the premises we now occupy in Dhurrumtollah, and in 1825 dispensaries were established in Park Street and Gurrunhatta, and subsequently in Chitpore and Garden Reach; the latter has since been abandoned.

At the present time, independently of the three European officers in charge of our dispensaries, drawing (with establishment) Rs. 315 a month, we have four European officers attached to the Native Hospital, although the number of in-door patients does not exceed 75 per month. Our income for 1870 amounted to Rs. 48,843, and of this sum Rs. 26,784 was expended on our European establishment, Rs. 5,671 on rates and repairs, leaving Rs. 16,388 for dieting, clothing, country medicines, and native servants.

I do not think it is possible to curtail the abovementioned charges under existing circumstances, for on reference to the enclosed plan the Governors will see at a glance how scattered our premises are, and this leads me to another very important point. It will be observed from the plan of the Native Hospital that the houses occupied by the officers of the institution take up more space than the hospital itself; moreover, the former are two-storied, the latter only one-storied. As the building becomes older the charges for repairs increase, rendering the disproportion between the amount expended on our establishment and the patients still greater than at present.

I may safely assert that experience and theory demonstrate the fact that it is impossible ever to convert the Native Hospital into a proper asylum for sick people; it is absolutely wanting in means for accommodating attendants on the sick; no amount of alteration can supply it with lavatories or closets; the separation of the sick into classes, or even the males from the females, is impracticable. So urgently have these defects been felt by former surgeons, that Drs. Jackson, Webb, and Baillie, anxiously desired to move the hospital from its present locality.

I would urge lastly that not only are the walls of the hospital hemmed in by a livery stable, the huts of a miserably poor population, and much that tends to hinder the ventilation of the building, but that the Native Hospital, as the town of Calcutta has increased, is now the centre of a dense mixed population, and is hardly accessible to the bulk of the native population of Calcutta. Moreover, since the establishment of the Native Hospital, the Medical College has been built within three-quarters of a mile of our premises, and in this latter institution Europeans and Eurasians, together with natives, are treated.

The above are some of the reasons upon which I would earnestly urge the Governors of the Native Hospital to consider the proposal I have to make to them, which consists in their granting me permission to apply to Government for a piece of land somewhere between the Mint and the Neemtollah Ghaut, west of the Strand Road and on the banks of the river. This land belongs to the public, and is held in trust either by Government or the municipal authorities; but, under any circumstances, being public property, it is possible the trustees of the land may allow us to build a hospital for the use of the public on it. With the instance of St. Thomas' hospital before us, we may safely consider the river bank a desirable site for the hospital. It would be in the centre of the native city, but at the same time removed from its unwholesome influences. The natives of Calcutta, high and low, are unanimously favorable to the plan, and being near the Gurrunhatta dispensary, we could close that institution and save not only the expenses of its European superintendent, but also at least one of our European officers at the hospital. The sale of the Native Hospital and Gurrunhatta dispensary would yield about a lakh and a half of rupees, and I have collected money towards making this sum up to a lakh and eighty thousand rupees—an amount, I am assured (as per enclosed plan and letter,) for which we can build a new hospital. However, these are secondary considerations. I would only beg the Governors' permission to allow me to apply for land on the site indicated. Should the Government refuse this request there is an end of the matter; if they comply with it, I shall lay plans and estimates before the Governors, which will, I trust, convince them of the entire practicability of my scheme. Until this has been done, no further step can of course be taken in the matter. I mean the mere right to build on the river bank would not any way bind the Governors to remove the hospital to that locality. But unless this permission from Government is obtained, it would be useless entering into particulars as to the ways and means for rebuilding the Native Hospital. It is on this hope I rest, for unless we

obtain a grant of land, I fear it is useless expecting to raise funds in the present time to buy land with, and this consideration makes me the more urgent in begging the Governors to allow me to initiate the above proceedings. The opportunity may not occur again, and the necessity for removing the Native Hospital becomes more apparent every year.

C. N. MACNAMARA,
Surgeon Superintendent.

I MOST fully concur in Dr. Macnamara's view as to the propriety of establishing a new hospital in a more desirable position, and recommend that he may be allowed to take the step he proposes.

CAMPBELL BROWN,
Inspector-General of Hospitals.

22nd August 1871.

I THINK that the suggestion of the Surgeon Superintendent is a very good one. It is plain that if the site on the banks of the river can be secured, the hospital to be built on it will have extraordinary advantages in the way of ventilation and drainage.

The land and houses in Dhurrumtollah must be very valuable, but I should fear that the estimate of Rs. 1,50,000, as the price which might be realized by a sale of them, is too large. There seems to be no hospital in the part of the town adjacent to Neemtollah Ghaut. I think if the plan be carried out, subscriptions in aid of the erection of a new building to a larger amount than the estimate may be reckoned on. If we get the land we may hunt up subscribers before commencing the new building.

J. P. NORMAN.

23rd August 1871.

I ENTIRELY agree with Dr. Macnamara as to building a new hospital on the river side. Much depends upon the Government for the land. I would therefore suggest to Dr. Macnamara to apply to Government for it, and if we succeed, then will be the time for him to take further proceedings.

ROMANATH TAGORE.

24th August 1871.

I QUITE agree with Dr. Macnamara's proposition for erecting a new hospital on the banks of the river, as mentioned in his letter to the Governors.

ELIAS S. GUBBOY.

HAVING attentively read Dr. Macnamara's views and the opinion of Dr. C. Brown, C.B., I perfectly agree with the Surgeon Superintendent of the Native Hospital, and request him to apply to the Government for the land mentioned in his letter to the Governors for the establishment of a new Native Hospital, doing much good to the native population.

RAJAH KALI KRISHNA, BAHADOOR.

24th August 1871.

THE position now occupied by the Native Hospital is as central a one as could be selected: certainly far more so than the site on the river bank suggested by Dr. Macnamara. I am decidedly of opinion that the convenience of the native population will be best consulted by leaving the hospital where it is, and not closing the Gurrunhatta dispensary. Dhurrumtollah is not an unhealthy locality, and I am not aware that the statistical returns of the hospital warrant a different conclusion; on the contrary, I believe I am correct in saying that cases are very successfully treated in that institution.

At present the hospital abuts on the Dhurrumtollah main drainage, which is a very great advantage both for conservancy purposes and also as tending to keep the premises dry. The site proposed is not provided with drainage, which is a great drawback.

Again, I am opposed to any *high* buildings being erected upon the Strand Bank opposite the northern part of the town. The native quarters of Calcutta are densely populated, and it is certainly not wise policy to still further obstruct ventilation by encouraging the construction of high buildings along the Strand Bank.

STUART HOGG.

28th August 1871.

I QUITE agree in Dr. Macnamara's proposal. Against the objections urged by Mr. Hogg I observe that we have the consent of medical authorities that the removal would be beneficial, while as regards the convenience of situation for the native patients, I see that those of us who are the best acquainted with them advocate the removal. The drainage difficulty will be apparently removed before the hospital can be completed.

The question of the height of any building to be erected on the river bank is one of detail, and might be left for consideration after the land is obtained.

E. GAY.

28th August 1871.

THE present hospital is not situated in native quarters, which is a great disadvantage. I think the proposition made by Dr. Macnamara is very reasonable, and if ground could be obtained from Government at the site proposed, his views should be carried out. With regard to the description and the height of the building, these can be decided on the opinion of professional persons in future.

THOMAS A. APCAR.

29th August 1871.

I FULLY endorse Dr. Macnamara's views as to the erection of a new hospital on the banks of the river, and have no doubt that if we strongly put our case before Government our application for a site will be favorably considered.

M. RUSTOMJEE.

30th August 1871.

THE proposition of Dr. Macnamara has my entire concurrence. The removal of the hospital will be conducive to the advantages specified.

AMEER ALI.

30th August 1871.

The Memorial of BABOO JOTEENDRO MOHUN TAGORE AND OTHERS, Inhabitants and Landholders of the Town of Calcutta.

To His Honor the Lieutenant-Governor of Bengal.

IN the year 1793 the Marquis Cornwallis, considering the great need of an hospital for the relief of suffering natives, or, as expressed by himself, "the want of an hospital or institution for the relief of persons suffering from accidents being severely felt by the native inhabitants of Calcutta in general, and more particularly by the labouring part of them," established and opened an institution called the Native Hospital in the Fouzdaree House, Chitpore Road. Some few years afterwards, for reasons with which we are unacquainted, the hospital was removed to its present site in Dhurrumtollah. In 1825 out-door dispensaries were established in Park Street and Gurrunhatta, and subsequently in Chitpore and Garden Reach. These dispensaries, with the exception of the one in Garden Reach, are still kept up and attached to the Native Hospital.

Your memorialists have long felt the ineligibility of the present situation of the hospital, not only on account of its unhealthiness, but on account of its inaccessibility to natives. It is immediately surrounded by livery stables and huts of a miserable description, and it is in the centre no longer of a native, but of a dense mixed population.

The present building is entirely unfitted owing to its construction for a hospital, and it is incapable of being converted into a proper one. Moreover, it is entirely wanting in means for accommodating the attendants necessarily required for waiting and watching the sick, and no alterations could supply it with the requisite lavatories and closets; the separation of the sick, or even of males from females, is impracticable. Your memorialists therefore are most anxious for the removal of the said hospital to a more desirable and healthy locality. Your memorialists believe that if a site were obtained, the proceeds of the sale of the present hospital and land on which it is built, together with the Gurrunhatta dispensary, would be sufficient to build a good and proper hospital, and one in every way furnished with the requirements of such an institution.

Your memorialists believe that a plot of land situate on the east bank of the river Hooghly, known as Prosunno Coomar Tagore's Ghaut, but useless for the purpose for which it was intended owing to the course of the river having been altered, would be a healthy site for such hospital, and being near the most populous part of the native city, although situate on the banks of the river, many natives who are now unable to be taken to the present Native Hospital, or who would not recover if taken there on account of its defects, would gladly avail themselves in the hour of need of a hospital if erected on so eligible a site as that proposed.

Your memorialists would remind your Honor that all classes of natives in Calcutta are deeply interested in, and most anxious for the removal of the hospital; they feel that the poor sick natives of this town and port must be under infinitely better circumstances if located in a well-planned hospital on the banks of the river than they would be in Dhurrumtollah; nor would the site in question interfere with the interests of other people. As the land is at present unoccupied, it cannot in fact be well used for any other purpose.

Your memorialists may mention that Rajah Buddinauth Roy, a native of Calcutta, and his brothers, gave the munificent sum of Rs. 50,000 to the Native Hospital, and among others the late Hon'ble Prosunno Coomar Tagore and Baboo Gopal Lall Tagore each bequeathed Rs. 10,000

to the hospital; further the names attached to this memorial will convince your Honor that rich and poor earnestly entreat that the land in question may be taken up for the site of the proposed building.

Your memorialists therefore pray that your Honor would be pleased to direct that the land attached to Prosunno Coomar Tagore's Ghaut, which is no longer required or used for the purpose of bathing for the reasons above stated, may be granted for a site for the new Native Hospital.

And your memorialists will ever pray, &c.

Dated Calcutta, the 12th April 1872.

From—C. N. MACNAMARA, ESQ., M.D.

To—A. MACKENZIE, ESQ., Junior Secretary to the Government of Bengal.

AFTER talking over the subject of the removal of the Native Hospital with the Lieutenant-Governor of Bengal, His Honor remarked he would consider the matter, and in the meantime I was to submit a memorandum, estimates, plans, &c., &c., to him through the Bengal Office. I beg therefore to send you the papers required, and would request you kindly to return them when done with, as I have no copies of these plans and estimates.

Memorandum by C. N. Macnamara Esq., M.D., *regarding the removal of the Calcutta Native Hospital to the banks of the river.*

OBJECTIONS AND ANSWERS TO REMOVING THE HOSPITAL.

Ob.—The present buildings might be improved, the house facing the Dhurrumtollah road being made more use of.

A.—Some ten years ago the same idea was put forward, and Rs. 12,000 spent on the Dhurrumtollah house. Notwithstanding this outlay it is found impracticable to convert it into a hospital, and so with the other houses on the premises. It is simply the story of putting new cloth into an old garment, and if the Lieutenant-Governor doubts the correctness of my views, I trust he will appoint a committee to test their soundness. I have nothing to gain by removing the hospital from my own door to a spot away beyond the Mint, but I am convinced the change is urgently required, and so favorable an opportunity as the present may not again occur.

Ob.—Dhurrumtollah is a central position, and a hospital is very useful there; why remove it?

A.—I purpose having a dispensary on the site of our present Native Hospital in Dhurrumtollah, the one from Circular Road being removed to Dhurrumtollah, so that the out-patients will lose nothing by the transfer of the hospital to the river bank. Urgent cases and accidents will also be taken into the dispensary as in-patients,—a system at present in force in all our branch dispensaries,—and my services are available for these in-door dispensary patients. All but urgent cases would be sent on by Dr. Hinder (the resident officer) from Dhurrumtollah to our hospital, where they would receive the advantage of pure air and hospital accommodation, neither of which they can get under existing circumstances. The in-patients have everything to gain by the change, and the out-patients will still receive, as at present, the services of one of the most experienced men in Calcutta, Dr. Hinder, who has been constantly at this work for the past ten years.

Ob—What are my plans regarding the disposal of the existing dispensaries connected with the Native Hospital?

A.—The Circular Road Dispensary was opened when a large native population resided on lands to the south of Park Street, since covered with houses inhabited by Europeans. The people residing in these houses, with a few exceptions, refuse to subscribe to the dispensary, and I am convinced the establishment belonging to the Circular Road Dispensary, with Dr. Hinder (the resident officer), may with advantage be removed to one of the houses on the site of our hospital in Dhurrumtollah. If we build a hospital at Prosunno Coomar Tagore's Ghaut, evidently we can close the Gurrunhatta dispensary, which is close by, and save the expense of extra establishment. Under proposed arrangements our hospital would be on the banks of the river, with branch dispensaries at Chitpore and Dhurrumtollah, in place of the hospital in the latter locality, and having in addition dispensaries at Chitpore, Circular Road, and Gurrunhatta.—*Vide* maps showing sites of our dispensaries, &c., &c.

Ob.—Where are the funds to come from to rebuild the hospital with?

A.—The sale of our Dhurrumtollah and Gurrunhatta property is estimated to yield Rs. 1,47,000 (*vide* estimate A enclosed). I have a sum in hand of Rs. 20,000, which can be used for the same purpose, and I believe we may save Rs. 10,000 in eighteen months, making a sum of Rs. 1,77,000, excluding donations, which we may hope to receive. The Government might be induced to help us a little. We should of course leave our funded property, which now exceeds three lakhs of rupees, intact. It appears from the enclosed estimate B that we

could build a central block, and one wing containing in all 80 beds, according to plan C, for less than two lakhs of rupees; the west wing cannot be built until we collect funds for the purpose. We pay rent at present for our Circular Road Dispensary. We must, however, sell all our property in Dhurrumtollah, but can take one of the houses from the purchaser on a lease, as is at present done in Circular Road; or if this is objected to, I would undertake to buy one of the Dhurrumtollah houses and to receive the price back, with 5 per cent. interest as rent, the property to revert to the Governors of the hospital when paid for. It would take about fifteen years to re-purchase the property in this way; it would pay well, however, to do this. Our Dhurrumtollah and Gurranhatta houses were built in 1796, and year by year require more to be spent on repairs, besides which we should save much unnecessary expense if we had a compact and proper building to put our patients into.

Ob.—Are there any other reasons for making the proposed change?

A.—Yes, there are numerous reasons for the change, some of which are mentioned in my letter enclosed to the Governors. Every medical man I have consulted on the subject agrees with me that the proposed change is *very* necessary. Eleven of the twelve Governors of the hospital are of the same opinion. The Port Commissioners have voted in favor of the plan; the native community as a body are strongly in favor of the change; and I trust the Lieutenant-Governor will on these grounds favorably consider my plans. The subject may not be a very urgent one, but it has been under discussion since August last. I beg for a definite reply; our repairs, &c., &c., &c., depending on the Lieutenant-Governor's decision.

J. ROWE.

ESTIMATE B.

Dated 2nd April 1872.

Demi-official from—MACKINTOSH, BURN & Co.

To—C. N. MACNAMARA ESQ., M. D.

HEREWITH we send you the revised plan for the proposed new hospital as promised. You will see that we have been obliged to somewhat alter the arrangements of the central block owing to an error made in calculating the length to be occupied by the building from east to west, in making which calculation the spaces occupied by the two sets of closets between the central block and the wings were omitted.

The following is our approximate estimate of the cost of carrying out this plan:—

	Rs.
Central block with set of bath-rooms on each side, east wing complete, and extra wards on west	1,75,000
Boundary walls, gates, and railings, out-offices, &c.	18,000
Levelling ground and making road, &c.	2,500
Total ...	1,95,500

This estimate provides for teak beams and burgahs throughout; the use of iron would add considerably to the expense.

	Rs.
Estimated value of property	1,47,000
Mr. DeSouza's will	10,000
Sum already collected	10,000
Savings from present income	10,000
Total ...	1,77,000

Dated Calcutta, the 14th October 1871.

From—BABOO HERA LAUL ROY and others.

To—The HON'BLE G. CAMPBELL, D.C.L., Lieutenant-Governor of Bengal.

WE, the undersigned, beg most respectfully to bring to your Honor's notice that we have learnt with deep concern that it is in contemplation to remove the Calcutta Native Hospital to the Nimtollah Ghât on the following grounds:—(1) That the present site is not salubrious; (2) the Livery Stables being close to the Institution are injurious to the patients; (3) that it is near the Medical College; (4) that the buildings are scattered and are very old, requiring annual repairs; (5) that it is a Native institution and ought therefore to be removed to the Native quarters.

2. On receiving intimation of this resolution, we submitted a petition to the Governors of the above institution, copy of which is herewith forwarded for your Honor's information; but no notice whatever was taken of that petition, although it was signed by 781 persons, and expressed the feelings and wishes of all the inhabitants of that portion of the town where the Native Hospital is situated.

3. As regards the healthiness of the place, we need not say much, but merely allude to the fact that Durrumtollah Street, on which the Native Hospital stands, is considerably superior in cleanliness to the Native quarters of the northern division.

4. The objection that the stables in Durrumtollah Street have an injurious effect on the patients in the ward, seems quite a novel and ingenious one. The principal ward is about 200 feet distance from the road, and the stables have stood there for a very long period; and if they had had such an injurious effect on the inmates of the hospital as is now discovered, it is greatly surprising that none of the learned Superintendents who from time to time have been in charge of the institution became aware of the circumstance, or considered it worth while to notice it in their annual reports.

5. The opening of the Fever Hospital (Medical College) in December 1852, we would submit, has not in any way affected or reduced the patients of this institution, but on the contrary the number of both the in-door and out-door patients has greatly increased, as shown in the statement below, from which it is abundantly evident that this institution on its present site is absolutely necessary.

Comparative Statement of Patients prior and subsequent to the establishment of the Fever Hospital (Medical College).

6. The buildings are not, as urged, of a scattered nature, as they are all in one and the same compound. They are besides substantial enough to stand another century to come. Some of these were not built more than 32 years ago, and the repairs were never made, to our knowledge, at shorter intervals than 4 or 5 years. This year and last year no repairs have been effected, save that a new dead-house has been built, and a new iron shed constructed, connecting the dead-house with the hospital.

7. We would here respectfully draw your Honor's attention to the 5th Institutional Regulation of the Calcutta Native Hospital, which provides—"*That all descriptions of natives, and such other persons not entitled to the benefit of the General Hospital, requiring the assistance of a Surgeon in cases of accidents, be admitted to the benefits of the institution.*" From this it is unmistakeably evident that only natives are not intended, but the indigenous classes of every community. We submit that no other reasonable and fair interpretation can be put on the passage.

8. The locality in which the hospital stands is thickly populated, and being the heart of the town, patients resort to the hospital from all sides of Calcutta and its suburbs, especially from Entally, Sealdah, Carriah, Bhobaneepore, Kidderpore, Cooley Bazar, &c. Moreover, cases of accident are frequently sent from all the livery stables and from ships lying between Prinsep's and Jackson's Ghâts direct to the Native Hospital, as the nearest place where medical and surgical aid can be secured at any hour. Dr. Graham says that in their own vicinity and near to their friends people would rather die than to be removed to a distant hospital.

9. We would, moreover, submit that several philanthropic gentlemen, both European and Native, who are now dead, convinced of the numerous advantages of the hospital on its present site, and apparently calculating on the continuance of the institution there, made liberal bequests to the institution; and should the contemplated removal be carried out, we should urge that it would be nothing short of breach of public faith.

10. For the aforesaid reasons we most respectfully and earnestly solicit that your Honor will be graciously pleased to consider this important matter, in which the lives of thousands of men are concerned, and withhold your Honor's sanction to the removal of the Native Hospital from its present site. If an hospital is wanted in Nimtollah, a branch, such as that in Park Street, Chitpore Road, and Gurranhutta (these three are the branches of the Calcutta Native Hospital) may be provided at no very great cost; but to deprive your petitioners of the Native Hospital, the benefits of which have been enjoyed by three or four generations, simply because a hospital is required elsewhere, is as illogical as it is unfair.

11. Your petitioners on the above premises supplicate justice at your Honor's hands, and as in duty bound they will ever pray.

Dated Calcutta, the 4th September 1871.

From—BABOO HERA LAUL ROY and others.

To—The Governors of the Calcutta Native Hospital.

WE the undersigned, have observed with regret the statement in the various public prints that it is the intention of the Governors of the Native Hospital to remove the institution from its present site to the northern division of the town. We are at a loss to .conjecture the reasons which have led the Governors to resolve on such a step at a time when the hospital may be said to be fulfilling all the objects for which it was established, and which its worthy founders had in view. We have every reason to apprehend that should the intention of the Governors to remove the hospital be effected, the consequences will be disastrous in the extreme, and the benefits to the poor which at present accrue from the institution will be reduced to a minimum.

3. The hospital, as you are undoubtedly aware, sirs, was established 79 years ago. The site on which it should be constructed was a subject which led to considerable discussion, and after a full consideration of it, the then Governors fixed upon the present site as the best adapted for the purpose of a hospital,

inasmuch as it was situated in the heart of the town. The wisdom of their selection, sirs, is abundantly proved by the present flourishing state of the hospital.

3. In the early days of the institution, the number of out-door patients who daily resorted to it did not exceed 50, but as prejudices began to wear away, and the people to appreciate the benefits of the institution, the number rapidly increased, and at the present moment the number of the out-door patients is no fewer than 500 per day. This is quite independent of the number of patients who are directed to the Sealdah Dispensary. Indeed, the attendance is so large, that the existing staff of medical men can barely get through their work, and a large number of patients have to go away and return on the following day. To provide for this unusually large number of patients, if the Governors had decided on increasing the medical staff, the result would have been beneficial to all. On the other hand, however, the removal of the hospital, should it be carried out, will, we submit, be fraught only with evil consequences.

4. Now, sirs, if the hospital is removed, as contemplated, to the northern division, you cannot be unaware of the fact that that division is inhabited by a class of staunch Hindus, who are imbued with a strong prejudice against English medicines, and who have greater faith in the prescriptions of their ignorant *Kooberajes* than in those of the cleverest English medical doctors. The members of this class then, it is evident, will not resort to any hospital where English medicines are dispensed. Those who have learnt to value English medicines form but a small minority, and are wealthy enough to engage the services of medical men to attend them at their private residences. The poorer classes who may desire to avail themselves of English medicines can always resort to the Gurranhattah, Sookeah Street, and Chitpore Road Dispensaries.* A reference to the records of these dispensaries will show how much the Hindus residing in that division appreciate the benefits of institutions where medicines are dispensed free of cost. Besides the aforesaid three dispensaries, you will observe that the northern division of the town has the advantage of the Medical College Hospital and the Suburban Hospital. On the other hand, the southern division of the town is provided with only two free institutions—the Native Hospital and its branch, the Park Street Dispensary.

5. The object which the Government had in view in establishing the Native Hospital and allowing for its support a monthly subscription of Rs. 1,975-11-2, was, we would submit, to benefit the very indigent classes of the community, viz. Hindus, Mahomedans, and the poorer class of Christians alike, and not Hindus exclusively, as some would seem to consider. This object, we are humbly of opinion, cannot be better fulfilled than where the hospital is at present located.

6. The present site of the Native Hospital is central, and the inhabitants from all parts of the town can resort to it with the greatest facility. It will not do to say that from its position it cannot afford that amount of benefit to natives which it is intended it should. We would only refer the Governors to the daily average of native out-door patients, and the proportion of patients who are obliged to return unattended to in consequence of the limited staff of medical men in the hospital. The first necessity, then, it appears to us, is to increase the establishment and to enlarge the present accommodation, and not to remove the hospital from the place where it has stood for more than three quarters of a century and been productive of so much benefit to the large number who resort to it.

7. Under these circumstances we fervently trust that the Governors of the institution will not hastily take a step which we fully believe will tend only to deprive a large number of people of the benefits which they at present enjoy.

* Two of the dispensaries, viz. the Gurranhattah and Chitpore Road Dispensaries, are branches of the Native Hospital.

1	Patna ..	June 8th	Nil ...	Hot with easterly winds.	There are very few crops in the fields; cheena, sugarcane and cotton are doing fairly well, but rain is much wanted, and they have suffered in some parts from the ravages of swarms of crickets.	
2	Gya ...	„ 8th	Nil ...	Excessively hot ...	No crops.	
3	Chumparun ...	„ 8th	Nil ...	Fair weather; strong east winds.	Indigo, cheena, and other crops continue good, but rain is wanted.	
4	Sarun ...	„ 8th	Nil ...	Fair weather; east winds rather strong at night.	The prospects of indigo is favorable; cotton—the pods are being picked; sugarcane, sati dhan, moongh, and late cheena have grown up well. In some places rain is wanted.	
5	Shahabad ...	„ 8th	Nil ...	Variable east winds; heat excessive. Thermometer— Maximum ... 111 Minimum ... 80 Barometer— Highest reading, 29·600 Lowest ditto, 29·420	Fields are being ploughed and paddy seeds will be generally sown in the first fall of rain.	
6	Tirhoot ...	„ 8th	Nil ...	Hot and dry; east winds day and night; no rain.	Indigo very promising throughout the district; dhan, moongh, cheena, konni, and sugarcane are fair; mango crop is getting ripe.	
7	Bhaugulpore ...	„ 8th	Nil ...	Very hot; strong easterly winds. Rain at Soopole ·06.	Rain wanted throughout the district, especially at the sudder sub division and Mudehpoorah; a good deal of ploughing has been got through, but seeds cannot be sown; rain at an early date will prevent considerable loss.	
8	Monghyr ...	„ 8th	Nil ...	High east winds; rain apparently come up, is but inclined to hold back.	No crops yet up.	
9	Purneah ...	...	.....	.....	.....	Return not received.
10	Rajmehal ...	„ 8th	·49	Very cloudy and every appearance of the rains being near at hand.	In the north and centre of the district agricultural operations are proceeding very favorably, but in the south are only now commencing.	
11	Deoghur ...	„ 8th	0·2	Hot; rain much wanted.	Sugarcane looking rather dry; no other crops can be sown until more rain falls.	
12	Nya Doomka ...	„ 8th	·35	Very hot and dry throughout the week, the small quantity of rain only making the heat more perceptible.	Ploughing going on in places; every thing very backward; prospects not bright, as the probabilities are, that when rain commences to fall it will be heavy and long continued.	

No.	District.	Date of return from each district.	Rainfall at Sudder Station in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
13	Godda ...	1872. June 8th	.....	Intensely hot up to the afternoon of the 8th June; slight rains on Friday and Saturday.	Ground parched and nothing to report on, cattle suffering greatly from want of water and grazing. Long distances have to be travelled for drinking water, and many cattle have been struck down by the intense heat of the sun.	
14	Jamtara ...	„ 8th	0·85	Seasonable.	Favorable.	
15	Rajshahye ...	June 8th	0 15	Hot with occasional storms of wind, but little rain.	The rice crops require rain. In some parts of the district there has been a good crop of teel, which is being harvested. The boro rice crop has for the most part been harvested. Jute is flourishing. Indigo requires rain.	
16	Bograh ...	„ 8th	1·83	Hot	Satisfactory.	
17	Dinagepore ...	„ 8th	3·32	Cloudy, the greater part of every day with occasional showers, one or two very heavy ones.	Weather seasonable.	
18	Maldah ...	„ 8th	0·37	Weather excessively hot; aspect of sky cloudy; a shower of rain preceded by dust storm on evening of 7th.	Good. Rain is much wanted; slight rain with storm on 7th evening.	
19	Moorshedabad ...	„ 8th	·56	Rain fell on two or three days when for a short time it was tolerably cool, at other times oppressively hot.	Tolerably favorable, but more rain is wanted.	
20	Pubna ..	„ 8th	1·06	Favorable ...	Favorable.	
21	Rungpore ...	„ 8th	6 97	Plenty of rain ...	Crops good.	
22	Burdwan ...	June 8th	A few drops on the evening of the 5th instant.	Cloudy but sultry. Rain in the north-east, north and west. Rainfall in Cutwa, Culna, and Boodbood sub-divisions was very seasonable.	Rains still much wanted; aman and sugarcane are being sown.	
23	Bancoorah ...	„ 8th	0·45	Very slight rain during the week; otherwise dry.	The slight rain that fell during the week did little or no good. The agricultural operations are at a standstill in most parts of the district, and in some parts water has become scarce even for drinking purposes.	
24	Beerbhoom ...	„ 8th	Nil ...	There has been a little rain in the south and east; the sky has been a good deal overcast, with strong southerly and south-east breezes; temperature high.	More rain wanted; sowings not completed.	
25	Hooghly ...	„ 8th	1·30	Clear; cloudy; hot and high wind; there was a heavy shower of rain on the 3rd June.	Aos and aman sown, and planted out in parts of the district; in others sown, but not planted out for want of rain. The last showers will benefit the crops.	
26	Howrah ...	„ 8th	0·23	Slight rain on Wednesday all over the district; strong southerly winds in the first part of the week.	Paddy, sugarcane, jute, hemp require rain very much; plants look weakly and parched; very little cultivation in the south owing to want of rain.	

No.	District.	Date of return from each district.	Rainfall at Sudder Station in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
		1872.				
27	Midnapore ...	June 8th	1·14	First four days of the week were hot, last three days cool, owing to tolerable showers on Wednesday and Thursday.	Ploughing is going on; the cultivators are busily engaged in preparing their lands for the sowing of paddy.	
28	Nuddea ...	„ 8th	0·92	Hot and damp, with strong south wind blowing in the day time for the early part of the week. A storm and rain on Wednesday, and bright sun since.	Most promising, except in the north of Meherpore, where rain is very badly wanted, and the sowings have not yet been completed.	
29	Jessore ...	„ 8th	·72	The weather was generally fine and clear during the week; temperature high, and hot winds during day. On the 5th after 6 P.M. there was a storm from north-west with lightning and rain. The general direction of wind southerly, sometimes south-west. Average mean of barometer 29·635," and mean temperature day and night 88·1.	Good.	
30	24-Pergunnahs ...	„ 8th	0·28	Very warm, with strong southerly winds. Mean temperature 91" direction of the winds south. A good fall of rain in Busseerhaut; slight falls in Baroepore and Baraset.	Jute, plants, and some ous thriving. Amun has been sown. More rain wanted everywhere.	
31	Dacca ...	„ 8th	·05	Very hot; a slight shower on Tuesday night.	Good. There have been partial showers in different parts of the district, and the crops are looking very well.	
32	Backergunge ...	„ 8th	Nil ..	Hot and close ..	The want of rain has seriously affected the prospects of the crops, especially the ous crop, which has already suffered considerably.	
33	Furreedpore ...	„ 8th	Nil ...	Hot, close, and oppressive.	Fair ...	General health continues good.
34	Mymensingh ...	.....	.....	.....	.....	Return not received.
35	Sylhet ...	June 1st	4·59	Excessively hot; rain has fallen.— Maximum temperature of week ... 92" Minimum temperature of week ... 74·5 Range ... 17·5 Mean of highest readings of week ... 88·8 Mean of lowest readings of week ... 76·8 Approximate do. 82·8	Dry weather favorable for the crops.	
36	Cachar ...	„ 1st	2·52	Hot and sultry ...	Rain much wanted; ploughing almost at a standstill.	
37	Chittagong ...	„ 1st	A few drops fell on the 28th May.	Hot and dry ...	Ploughing going on for early sowings.	

No.	District.	Date of return from each district.	Rainfall at Sudder Station in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
		1872.				
38	Noakhally or Bullooah	June 1st	Nil ...	Weather hot and for the most part close.	Good. Rain very much wanted.	
39	Tipperah ...	„ 8th	1·40	South-west monsoon commenced on the 4th June.	Prospects of rice crops good.	
40	Hill Tipperah ...	...	.....	.....	.....	Return not received.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four-hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet, 10 inches, above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

CALCUTTA,
The 18th June 1872.

J. WARE EDGAR,
Offg. Junior Secretary to the Govt. of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, State and Prospects of the Crops in the different Districts of the Lower Provinces of Bengal, as reported to Government during the week ending 15th June 1872.

No.	District.	Date of return from each district.	Rainfall at Sudder Station in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
		1872.				
1	Patna ..	June 15th	1·24	Very hot with strong easterly winds up to the 14th, on which date there was a good fall of rain as shown in the previous column, which is considered to have been general, but no information yet received from sub-divisions.	Very few crops in the fields, but what there are are doing fairly well, and must have been much benefited by the rain of the 14th.	
2	Gya ...	.....	.....	.....	.....	Return not received.
3	Chumparun ...	.....	.....	.....	.....	Ditto.
4	Sarun ...	„ 15th	·69	East winds. Fair weather until Friday. The rains have apparently commenced.	The prospects of indigo are favorable. Cotton has been almost gathered. Sugarcane, sate dhan, moongh, and late chéena have grown up well Kado, shama, and Indian corn will soon be put in the ground.	
5	Shahabad ...	„ 15th	·11	Strong east wind. Heat excessive until 14th when rain fell. The appearance of the weather generally indicates the commencement of the rains.	Sowings for the bhadoi crops will now generally commence. Reports have not been received yet, but the rain, it is supposed, will benefit the indigo crop.	
6	Tirhoot ...	„ 15th	1·40	Cloudy with east winds almost all over the district. Rain wanted in some parts. In the north rain fell.	Indigo, rice, moongh, and other crops are doing well.	
7	Bhaugulpore ...	„ 15th	2·88	No rain reported in the north. Return from south not received.	The rains are evidently close at hand Indigo and young rice want rain. Sowings will proceed rapidly now.	
8	Monghyr ...	„ 15th	0·14	High east winds with threatening rain; little rain fell in places; storm and lightning in Jumooe sub-division.	There is a decided want of rain. The bhadoi crops, which are all in the ground, are greatly in want of rain; they are backward; but the rain of the 14th did good, and from the appearance of the weather it seems certain that rain has now set in for the season. In the Jumooe sub-division the prospects are good. In Begoo Serai jenerah sown in two or three places. Rain much wanted for it; mahai commenced in indigo. Rain also desirable for successful manufacture as there is a dearth of water.	

No.	District.	Date of return from each district.	Rainfall at Sudder Station in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
9	Purneah ...	1872. June 15th	8·97	In the north there has been rain on and off all the week at the sudder station; and in the southern parts of the district it was very hot and rain was much wanted till last night when it fell in torrents.	Good every where; the recent rain has been of great benefit.	
10	Rajmehal ...	„ 15th	1·90	Rain appears fairly divided over district, a little excess perhaps in the centre.	The rain has done much good every where. Agricultural operations have commenced; hitherto suspended for want of rain Indigo well spoken of	
11	Deoghur ...	„ 15th	1·85	Frequent storms with heavy rains; weather clearly indicating setting in of rains.	Sugarcane much improved; sowing generally has commenced.	
12	Nya Doomka ...	„ 15th	1·12	Hot with gathering clouds in early part of the week, ending with some rain the last three days, and great humidity.	General sowings commenced, and some dhan also has been sown where it is not intended to transplant.	
13	Godda ...	„ 15th	.....	Cloudy and strong easterly breezes, and the monsoons apparently have set in	There has not been rain enough to allow of the land being broken up. Cultivation will be backward this year	Rain gauge not yet received.
14	Jamtara ...	„ 15th	0·80	Stormy with passing showers Rain has fallen throughout the sub-division.	Weather is very favorable for ploughing and sowing. Sugarcane thriving.	
15	Rajshahye ...	„ 15th	4·91	Cloudy and cool; the rains set in with a downpour on the night of Wednesday.	The rain has been of benefit to the amun and ous rice crops, and also to indigo. The teel crop is being harvested, and has turned out well. Sugarcane is doing well.	
16	Bograh ...	„ 15th	2·22	Heavy showers of rain during the past week. Atmosphere cloudy Hot.	Satisfactory.	
17	Dinagepore ...	„ 15th	2·07	There has been little or no rain during the week to the east and south of the district. Rain in other parts— Temp. highest 90° „ lowest 70°	What little boro dhan is grown has been cut: ploughing progressing; both bhadoi rice and jute reported promising.	
18	Maldah ...	„ 15th	4·62	Rainy and cool with strong easterly winds.	The rain has done much good to bhadoi, amun, Indian corn, and Koda, and will benefit agricultural operations generally.	
19	Moorshedabad ...	„ 15th	10·82	A good deal of rain during the week; weather cooler.	Prospects of crops good, provided the water drains off rapidly enough: will do the mulberry a great deal of good, but has come rather late for the indigo.	
20	Pubna ...	„ 15th	7·16	Cloudy with some rain generally throughout the district.	Rain has been of benefit to rice and Indian corn and indigo	
21	Rungpore ...	„ 15th	3·23	Heavy rain ...	The ous crop began to be cut Other crops favorably progressing.	
22	Burdwan ...	„ 15th	2·69	Cool; sky overcast; general rainfall throughout the district which has proved beneficial to the agricultural operations. Rain fell on four days during the week.	Paddy seeds sown generally; sugarcane and cotton promising in the subdivision of Raneegunge, Cutwa, Bood-Bood, and Sudder.	

No.	District.	Date of return from each district.	Rainfall at Sudder Station in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
		1872.				
23	Bancoorah ...	June 15th	1·93	Cloudy with sharp rain on the 8th and heavy rain on the 11th. Rain general except in the north-east where it had been slight. Rains evidently set in.	The rain has benefited considerably the growing crops—sugarcane, indigo, &c.; ploughing is vigorously pursued.	
24	Beerbhoom ...	„ 15th	0·6	The weather has been generally cloudy in the sudder station, but little rain has yet fallen, but there has been more or less almost throughout the district. The rains are undoubtedly setting in.	The want of rain for a month past retarded operations very much Lands are still partly under preparation and partly sown. Sugarcane suffered from drought.	
25	Hooghly ...	„ 15th	4·80	Clear, cloudy, and high wind from the south Rained throughout the district in showers for three days.	The last rains have greatly benefited the sowing and planting of the ous and amun crops and the growth of the seeds.	
26	Howrah ..	„ 15th	4·87	Rain has fallen more or less throughout the district and almost daily.	All crops have been improved by the rain; paddy is being sown in some places, while in others the seed has germinated, and the young seedlings in the nurseries are progressing satisfactorily. In some places the dhan has been sown broadcast and is doing well. In Oolooberia only there are no crops as yet.	
27	Midnapore ...	„ 15th	2·99	The rains appear to have set in definitely. Rain fell almost every day.	The rain was somewhat late for the ous crop but will be greatly beneficial. Ploughing for the amun is general, and the prospects for this crop are all that could be desired at present.	
28	Nuddea ...	„ 15th	1 85	Showers and sunshine; monsoon commenced on Tuesday.	Excellant, except in the sub-division of Meherpore where rain is still wanted.	
29	Jessore ...	„ 15th	8·41	In north-west and east of district heavy rain; in south and south-east little or no rain. Weather very hot.	In the parts of the district where rain has fallen state of all crops—indigo, rice, jute—good; in parts where rain has not fallen the rice has suffered somewhat, but not as yet seriously.	
30	24-Pergunnahs ...	„ 15th	4·26	Cloudy and rained every where. The moonsoon has evidently commenced. Mean temperature 86°. Direction of wind south and east.	Ous and jute thriving; amun seedlings are flourishing, and the amun sowings have fairly commenced. Prospects favorable.	
31	Dacca ..	„ 15th	7·80	Rainy and cloudy. The rains have at last set in.	Prospects of the crops good all over the district.	
32	Backergunge ...	„ 15th	3·51	Rainy and cool ...	The rains have done much good and the prospects of the crops are more favorable.	
33	Furreedpore ...	„ 15th	1·60	Cloudy and tolerably cool, with frequent drizzling rain and showers from the 11th instant.	The rain has been very frequent during the week. The prospect of all crops in the ground is good.	Health continues good.
34	Mymensingh ..	„ 15th	4·16 6·46	Rain on six days of the week, and general throughout the district. Cool weather.	Cultivation of ous rice going on successfully Prospects of crops good.	

No.	District.	Date of return from each district.	Rainfall at Sudder Station in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
35	Sylhet ...	1872. June 8th	24·82	The heavy rains this week have made the weather very pleasant— Max. Temp 89″ Min. „ 72″ 50′ Mean ... 16° 5″ Mean of H. Readings ... 84 : 4″ Mean of L. Readings ... 74—4″ Appx ditto of week ... 79·4″	Promising well. But much more weather like what there had been this week will be bad for the crops.	
36	Cachar ...	„ 8th	4·35	Cloudy and rainy and cool.	Ploughing going on; prospects good at present.	
37	Chittagong ...	„ 8th	·62	Hot, but generally windy with little rain.	Early sowings commenced in some parts.	
38	Noakhally or Bullooah	„ 8th	0·69	It rained a little almost every day during the past week.	Ous crops, good.	
39	Tipperah ...	„ 15th	1·56	Rainfall general but mild; weather generally cloudy and very cool.	The weather has been very beneficial after the sultriness of previous weeks to the young rice and jute crops. Chillies, teel and other small spring crops yielded a fair harvest.	
40	Hill Tipperah ...	.....	.....	.....	.....	Return not received.
41	Hill Tracts of Chittagong.	.....	.....	.....	.....	Return not received.
42	Cuttack ..	„ 15th	2·44	Cloudy; rain general, though less than at sudder station.	Ploughing and sowing for rice crop have progressed favorably.	
43	Balasore ...	„ 15th	1·18	Commencement of the rains; heavy showers daily; less rain as yet in the south.	The rice crop has been sown and is coming up nicely.	
44	Pooree ...	„ 8th	·08	Unseasonable drought	Sowing deferred in most places for want of rain.	
45	Hazareebaugh ...	„ 15th	1·23 ..	Rain has fallen generally over the whole district.	Ground being broken up and prepared for Indian corn, &c.	
46	Lohardugga ...	„ 15th	3 22 ...	The rains set in on Thursday; the fall appears to have been general in the district.	The dhan already sown is progressing favorably, and sowing is still going on.	
47	Maunbhoom ...	...	...	.....	.....	Return not received.
48	Singbhoom ..	„ 8th	0·30	Seasonable; dry and very hot.	Very discouraging.	
49	Durrung ..	„ 8th	3·19	Variable ...	Favorable both as regards tea and the prospects of the ordinary crops.	
50	Nowgong ...	„ 8th	3·46	Weather, rainy and seasonable.	Crops doing well. Tea ditto ditto.	
51	Seebsaugor ..	„ 8th	0·71	The weather during the week was warm, damp, and unhealthy.	Satisfactory.	
52	Kamroop ...	„ 8th	3·41	Wet ..	Prospects of crops and of tea favorable.	
53	Luckimpore ..	„ 8th	1·72	Occasional showers daily; weather warm but seasonable. Thermometer— Maximum ... 96′ Minimum ... 88°	No crops in the ground. Young rice not planted out.	
54	Khasi and Jynteah Hills.	„ 8th	2·3	Fine.	Favorable.	

No.	District.	Date of return from each district.	Rainfall at Sudder Station in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
55	Naga Hills ...	1872. June 1st	0 37	Intensely hot, close, and muggy. Rain much wanted.	Good in parts but not in others. At Samaguting the crops are suffering from want of rain.	
56	Julpigoree ...	„ 15th	7·37	From Saturday till Thursday few heavy showers with great heat, when rain was not falling. On Thursday night steady rain set in and continued to end of week. Rain is general over the district, but less towards Purneah.	Owing to early fall of rain bhadoi dhan and flax not as good as was anticipated where rain fell at sowing time. In other parts crops promise well.	There has been for the last fortnight a great deal of sickness: cholera and fever all over the district. This has been aggravated by irregular rainfall and great heat between the heavy showers. Weather has been more seasonable from last two days and sickness on decrease.
57	Gowalparah ...	„ 8th	17·26	Very heavy rain with occasional intervals of sunshine.	If not injured by heavy rains, there is prospect of a good harvest of asoo crop. Sowing of winter crops in nurseries has commenced.	
58	Garo Hills ...	„ 8th	7 85	Heavy storms in the beginning of the week, thunders and lightning and very heavy rain.	The Deputy Commissioner visited the Garo village of Rupajirra on Thursday. Crops look good. Rain was very late this season, and until lately rather scanty, but the prospects appear fair.	
59	Darjeeling ...	„ 15th	7·61	Seasonable. Rain has fallen freely.	The crops due at this season of this year in the hills have more or less failed. Food is therefore scarce, but continued enquiries do not lead the Deputy Commissioner to anticipate famine. The Collectors of Dinagepore, Rungpore, Purneah, and Julpigoree, have been asked to inform the grain-dealers of the price of rice in the Darjeeling bazar, and of the willingness of the authorities to afford assistance in the way of shed for their cattle, should they be tempted by the price to visit the district.	In consequence of the seasonable rains cholera is no longer epidemic.
60	Cooch Behar ...	„ 15th	12 57	Rainy. Seasonable.	Satisfactory.	

Published for general information.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four-hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet, 10 inches, above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

BELVEDERE,
The 8th May 1872.

Government of India.

LEGISLATIVE DEPARTMENT.

THE following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 6th June 1872, and is hereby promulgated for general information:—

ACT No. XIV OF 1872.

An Act to exempt the Straits Settlements from the Indian Emigration Act, 1871.

Preamble.

Whereas it is expedient to provide for the exemption of the islands and territories known as the Straits Settlements from all or some of the provisions contained in the Indian Emigration Act, 1871; It is hereby enacted as follows:—

Power to exempt Straits Settlements from Emigration Act.

1. The Governor General in Council may, from time to time, by notification in the *Gazette of India*, exempt emigration to, or contracts for labour to be performed in, the whole or any part of the said Settlements from all or any of the provisions contained in the Indian Emigration Act, 1871; and may also, from time to time, by like notification, revoke or alter any notification previously made under this Act.

Bar of certain proceedings.

2. No suit or other proceeding shall be maintained against any person for anything done or omitted, in respect of such emigration or contracts, before the date of the notification made under the first clause of section one.

C. BERNARD,
Offg. Secy. to the Govt. of Bengal.

RESOLUTION.

The 19th June 1872.—The Lieutenant-Governor thinks it necessary to direct the attention of all officers of his Government to the extreme importance of rendering as accurately and as completely as they can be rendered by enquiry the statistics which are at different times called for by Government on matters vitally affecting the people. His Honor has sometimes feared that local officers, who are not accustomed to these things, treat even the orders of Government on such subjects in an off-hand and summary manner. This cannot be tolerated; and any officer who fails to evince a proper interest in such important matters will incur the severe displeasure of Government. Recently a great discrepancy between the prices of salt in * * *, and neighbouring districts being observed in certain price current returns, and explanation of the causes called for from the Commissioner, a brief memorandum of the Superintendent of Police was submitted to Government, with a formal endorsement of the Collector, as a sufficient reply. The following letter was in consequence written, and is now published, that local officers may see the importance which the Lieutenant-Governor attaches to such questions:—

To—The Commissioner of * * *

I am directed to acknowledge the receipt of your office memorandum No. 101, dated the 22nd May 1872, and in reply to say that the Lieutenant-Governor is much dissatisfied at the very insufficient explanation therewith submitted, from the Officiating Collector of * * *, in reply to orders No. 1573 of the 10th April, as to the high price of salt in that district as compared with the prevailing prices in surrounding districts.

2. It seems quite unaccountable to His Honor that any Collector should show such want of interest in a subject so important to the people of his district, as simply to send under docket a brief and unsatisfactory memorandum of his Superintendent of Police in answer to an enquiry made by Government.

3. Such conduct impresses the Lieutenant Governor with the belief that Mr. * * * is under a misconception of his duties, and also of the relative functions of the Magistrate, Collector, and the Superintendent of Police.

4. It is accordingly requested that you will obtain and submit a further explanation, after full enquiry, on the following points:—

(1) From whence salt comes into * * * and how?

(2) What is the expense of boats with reference to tonnage, &c.?

(3) What is the wholesale price at the place from which it is brought?

(4) What is the wholesale price in the * * * district, and what the retail price?

The following Order issued by the Government of India, in the Financial Department, is republished for general information :—

No. 287—*Simla, the* 14*th June* 1872—*Leave and Allowances.*—The Governor-General in Council is pleased to declare that the undermentioned rules in the Civil Leave Code are applicable to Commissioned Military Officers in Civil employ:

Rule 2 under section 4 (*d*) in chapter II
Rules 2 and 3 under section 9 (*b*) in chapter III.
" 2 and 4 " 15 in chapter V.
Rule 3 under section 18 in chapter VI.
Rules 2, 4, and 5 under section 21 in chapter VII.
" 4, 9, and 10 under section 24 in chapter XII.

2. His Excellency in Council is also pleased to direct he republication of the following rules applicable to Commissioned Military Officers in civil employ:

I.—The words "prior to his proceeding on furlough" in section V. of the military furlough regulations of the 10th November 1868. shall, in the case of an officer who takes subsidiary or preparatory leave before furlough. be understood to mean *prior to his being relieved of his duties.*

II.—Days of embarkation and debarkation are parts of furlough. and furlough allowances only are admissible for such days.

III.—Subsidiary leave ceases the day before embarkation, and commences the day after debarkation. It cannot be extended on the ground that the vessel in which an officer leaves India, or returns to it, touches at some other part in India after the first embarkation or before the final debarkation.

IV—If an officer remains in India after the end of subsidiary leave prefixed to furlough, his furlough is held to have begun in India, and his absence on furlough is reckoned from the date on which he gave up office.

V.—An officer may draw allowances as if he were on privilege leave for any part of his subsidiary leave before furlough, for which, if he were not going on furlough, privilege leave would be admissible to him.

VI.—When an officer applies for leave he should distinctly state under what rule he wants leave, and show that he is entitled to leave under that rule.

VII.—Officers going on leave from the Public Works Department are required to produce no-demand certificates from account officers of that Department.

VIII.—The Government to which an officer is subordinate may exempt him from loss of appointment when he overstays privilege leave by more than a week.

IX.—Leave may be retrospectively commuted, by the authority which granted it, to any other kind of leave which the said authority would have been competent to allow when the original leave was sanctioned.

X.—When privilege leave is, on medical certificate, retrospectively commuted to furlough out of India, so much of the leave passed before embarkation may be treated as subsidiary leave, as the officer would have been entitled to count as subsidiary leave if he had originally obtained furlough and not privilege leave.

XI.—An officer on privilege cannot draw his allowances in England, but his agent may draw them in India in the manner prescribed in rule 2 under section 23 (*a*) of the Civil Leave Code.

XII.—If an officer receive an advance of pay in England to enable him to return to duty in India, the advance must be recovered at the rate of exchange fixed for transactions with the Imperial Government at the time it was made.

3. This notification supersedes the notes in italics below the undermentioned rules in the Covenanted Civil Service Leave Code of 1871:

Rules 5 and 6 under section I. in chapter I.
" 2, 5, and 6 under section VII. } in chapter II.
Rule 1 under section X. }
Rules 1 to 4 under section XI. in chapter III.
" 1 and 3 under section XII. in chapter IV.
" 5, 7, and 8 under section XIX. } in chapter VI.
The subsidiary rule under section XXI. }
Rules 1 and 3 under section XXVI. in chapter IX.
" " " " XXVIII. in chapter X.
" " in chapter XIII.

No. 571, dated Calcutta, the 22nd May 1872.

From—S. WAUCHOPE, ESQ., C.B., Officiating Commissioner of Police, Calcutta.

To—The Secretary to the Government of Bengal, Judicial Department.

I HAVE the honor to ackowledge the receipt of your docket No. 2873 of the 10th instant, giving cover to a presentment made by a Coronor's Jury on the 29th ultimo, at an inquiry into the cause of the death of one Rober Campbell, and to report for the information of the Hon'ble the Lieutenant-Governor of Bengal that if the recommendation of the Jury, that in all cases of insensibility from apparent drunkenness taken up by the police, the person should be conveyed to hospital instead of the lock-up, were adopted, it would be necessary to have two sets of police to look after prisoners,—one at the College Hospital for Europeans, and another at the Chandney Hospital for Natives, as all persons so arrested should be placed before the Magistrates afte discharge from hospital.

2. As the Police Surgeon, Dr. Woodford, visits the lock-up daily, and there is besides a native doctor always in attendance, I do not consider it necessary that every case should be taken to hospital direct. They should, as heretofore, be taken to the lock-up, and only removed to hospital when the emergency arises.

No. 3486, dated Calcutta, the 8th June 1872.

From—A. MACKENZIE, ESQ., Junior Secretary to the Government of Bengal.

To—The Officiating Commissioner of Police, Calcutta.

I AM directed to acknowledge the receipt of your letter No. 571, dated the 22nd ultimo, reporting on the presentment made by a Coroner's Jury in an inquiry into the cause of the death of one Robert Campbell, to the effect that in all cases of insensibility from apparent drunkenness taken up by the police, the person so apprehended should be carried to the hospital instead of to the lock-up.

2. In reply I am to say that the Lieutenant-Governor thinks that when ropeans are picked up in the street insensible, they should certainly in the t instance be taken to the hospital for treatment.

3. In the present case a man apparently perfectly decent and respectable, ne 2nd engineer of a large sea-going steamer, unaccustomed to the climate of ndia, is struck down by heat apoplexy, is carried to the lock-up on the supposi- on that he is insensibly drunk, and dies without receiving any proper medical endance till it was too late to save his life. The native doctor of the lock-up es not appear to have gone near him from 5 P.M. to 8-30 P.M., nor to have ized in any way the seriousness of the case. Such an occurrence should not ossible in Calcutta.

. I am accordingly to request that you will that in every such case in future, where a E f insensibility, if the visit of the Police S t, the insensible man shall be taken at ible and suspected of nothing more ry to station a guard at the hospital. ter and ascertain the result, bringing th y after his recovery.

Charles Phelps' Case.

No. 3309, dated Calcutta, the 30th May 1872.
From—A. MACKENZIE, ESQ., Junior Secretary to the Govt. of Bengal.
To—The Commissioner of Police, Calcutta.

I AM directed to draw your attention to the report published in the *Englishman* newspaper of the 21st instant of the inquest held on the body of a European named Charles Phelps, and to request that you will be good enough to report, in communication with the chief medical officers of the hospital, if there is any truth in the statement made in the papers that a sick man has much difficulty in getting into a hospital, and also whether the House of Industry is freely open to any European paupers who choose to apply for admission to it.

No. 629, dated Fort William, the 3rd June 1872.
From—S. WAUCHOPE, ESQ., C.B., Officiating Commissioner of Police, Calcutta.
To—The Offg. Secretary to the Government of Bengal, Judicial Department.

I HAVE the honor to acknowledge the receipt of your letter No. 3309 the 30th May, relative to the case of the European named Charles Phe which appeared in the *Englishman* of the 21st idem, directing me to m certain inquiries of the chief medical officers of the hospitals and Secretary the District Charitable Society.

2. In reply I beg to submit copies of letters from those officials, fro which it seems that Charles Phelps could, if he had tried, have procured immediate admission to the General and Medical College Hospitals, or to the House of Industry.

3. It is therefore clear that the statement which Phelps is said to hav made as to his inability to procure admission to an hospital is untrue.

4. His statement that he had been lying on the maidaun for da unheeded is also untrue. He said nothing of the kind to the inspector of po who sent him to hospital, and as many Europeans and Natives must passed in the morning and forenoon close to the place where he was I believe he could have been in the maidaun [illegible] a few hours be mation was sent to the police.

5. When I heard of Phelps' death I made strict inquiries re He was a tramp of the lowest description, who would have nothin the House of Industry or any place where he would be compelled to am told that he lived on the charity of the shop-keepers in the Bazar. He was twice arrested and sentenced to rigorous imprisonment. was also twice brought up before the Magistrate as a vagrant, but on [illegible] being sent to the Government Work-hous [illegible] they supported him. He died of dysentery

[illegible] ng now more leisure, I am endeavoring to wo [illegible] and clear out of Calcutta as many "loafers" [illegible] rable nuisance.

[illegible] who have been brought up, I have found sev [illegible] fallen from a respectable position of life owir [illegible] majority consists of unmitigated scoundrels [illegible] no employ every description of dodge to [illegible] Work-house. I have, however, no dou [illegible] lcutta Magistrates, which has been most [illegible] mitigating considerably, if not in put [illegible] n Calcutta.

[illegible] Calcutta General Hospital, the 1st June 1872.
[illegible] Surgeon, General Hospital.
[illegible] Q, C.B., Officiating Commissioner of Police, Calcutta
[illegible] 21st ultimo, I have the honor to state for the in [illegible] vernor that the standing orders of this Hospital h [illegible] European who applies to be admitted.

Though we are not as yet, I regret to think, permitted to receive and treat nativ although the Hospital is situated in the heart of a large native population, I have thoug it right to direct on my own responsibility the temporary reception of natives suffering fr serious illness until they can be safely conveyed to the College or Chandney Hospital.

No. 144, dated Calcutta, the 1st June 1872.

From—Dr. David B. Smith, Offg. Principal, Medical College.

To—S. Wauchope, Esq., c.b., Officiating Commissioner of Police, Calcutta.

With reference to your letter No. 606 of yesterday's date, I have the honor to reply, the information of His Honor the Lieutenant-Governor, that a sick man has no difficulty obtaining admission into this hospital.

2. We however can only accommodate a certain number of patients, and when t wards are so full that two or three extra beds have been placed in each, it becomes impossi with safety permanently to receive any new cases.

3. Under these circumstances the standing order (which is continually being impress on all officers on duty) is as follows:—If there is a want of beds in the regular wards of t hospital, any person applying for relief must be carefully accommodated on the ground floor the building. He must further be nursed, fed, and prescribed for, until better arrangements be made for him.

4. Europeans thus received are, as a rule, (if there is no likelihood of beds being avail- up-stairs,) sent after the heat of the day in a palki to the General Hospital at our own the college,) expense.

5. The physicians and surgeons of the hospital are very desirous that every case brought should be received and treated with the utmost care and humanity, and the orders under head are constantly being forced on the attention of the sub-assistant surgeons and ents on duty.

6. I beg to enclose for His Honor's information a notice on this subject which was placed conspicuously in different parts of the college and hospital only a few days ago.

7. The poor man named "Phelps," referred to in your letter, was under my immediate observation and care. He was admitted in a half-starved, dying state, and was kept alive for ree or four days by continuous and most careful nursing. Students and nurses were told to attend on him night and day, but he never rallied.

Notice.

s the Principal of the College has reason to believe that considerable public dissatisfac- in certain cases lately arisen from the non-admission of persons seeking relief at the ege Hospital, all native medical officers and pupils on duty are directed to take whether European, East Indian, or Native,) who seeks admission to the *y account* to be sent away without the approval of the Resident House Surgeon Every one who comes must if possible be admitted, and when this is found may be in a comparatively small number of cases), the patient must be , treated, fed, and kept under observation in the basement floor of the hospital hen steps must be taken for his careful removal to one of the other hospitals.

, the 29th May 1872. *Offg. Principal, Medical College.*

Dated 3rd June 1872.

From—Lord H. Ulick Browne, Honorary Secretary, District Charitable Society.

To—S. Wauchope, Esq., c.b., Officiating Commissioner of Police.

With reference to your letter No. 608 of the 31st ultimo, inquiring whether the House ndustry is freely open to European paupers who choose to apply for admission into it, I the honor to forward a copy of rules 1 to 6 of the institution for your information.

Practically no one is refused admission or re-admission unless he has lately misconducted f very badly, and in such cases he is generally re-admitted after a day or two, and then owed leave for a long time.

e calls of this description on the funds of the Society would not be so heavy nt would work the Vagrant Act a little more, regarding which I hope to address t nt before long.

Rules for admission into the House of Industry.

TUTE persons are to be admitted into the House of Industry in any one of th and in no other, viz:—

an order in writing of the President or Honorary Secretary of or the Secretary of any District Committee, or of any subscriber t Society of not less than Rs. 25 annually, and by the master without any such order, in case of any sudden or urgent necessity.

No person shall be admitted under any written order as abo ate more than six days before the applicant pr it and cla
